Parking Lot Expansion Begins Soon at Meissner Snow Park

BEND –Construction to expand the parking lot at Virginia Meissner Snow Park will begin September 2nd. The parking lot expansion plan was designed to increase parking capacity and reduce congestion at the park.

The snow park will be closed Tuesday, September 2nd thru Friday, September 26th to facilitate parking lot reconstruction. This phase is the first of several improvements designed to improve the Nordic experience in the area. Tumalo Langlauf Club, a nonprofit organization, provided grant funds to expand winter Nordic recreation opportunities for the public.
