

subscription offers value-added features such as electronic delivery of modified wage decisions directly to the user's desktop, the ability to access prior wage decisions issued during the year, extensive Help desk Support, etc.

Hard-copy subscriptions may be purchased from: Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, (202) 512-1800.

When ordering hard-copy subscription(s), be sure to specify the State(s) of interest, since subscriptions may be ordered for any or all of the six separate Volumes, arranged by State. Subscriptions include an annual edition (issued in January or February) which includes all current general wage determinations for the States covered by each volume. Throughout the remainder of the year, regular weekly updates will be distributed to subscribers.

Signed at Washington, D.C. this 24th day of October 2002.

Carl J. Poleskey,

Chief, Branch of Construction Wage Determinations.

BILLING CODE 4510-27-M

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[Docket No. ICR-1218-0096(2003)]

Temporary Labor Camps; Extension of the Office of Management and Budget's (OMB) Approval of the Information-Collection (Paperwork) Requirements

AGENCY: Occupational Safety and Health Administration, Labor.

ACTION: Request for comment.

SUMMARY: The Occupational Safety and Health Administration (OSHA) requests comments concerning the proposed extension of information-collection requirements contained in the Temporary Labor Camps Standard (29 CFR 1910.142).

DATES: Comments must be submitted by the following dates:

Hard copy: Your comments must be submitted (postmarked or sent) by December 31, 2002.

Facsimile and electronic transmission: Your comments must be sent by December 31, 2002.

(Please see the **SUPPLEMENTARY INFORMATION** below for additional information on submitting comments.)

ADDRESSES:

I. Submission of Comments

Regular mail, express delivery, hand-delivery, and messenger service: Submit your comments and attachments to the OSHA Docket Office, Docket No. ICR-1218-0096(2003), Room N-2625, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, DC 20210. OSHA Docket Office and Department of Labor hours of operation are 8:15 a.m. to 4:45 p.m., EST.

Facsimile: If your comments, including any attachments, are 10 pages or fewer, you may fax them to the OSHA Docket Office at (202) 693-1648. You must include the docket number of this document, Docket No. ICR-1218-0096(2003), in your comments.

Electronic: You may submit comments, but not attachments, through the Internet at <http://ecomments.osha.gov/>.

(Please see the **SUPPLEMENTARY INFORMATION** below for additional information on submitting comments.)

II. Obtaining Copies of Supporting Statement for the Information Collection

The Supporting Statement for the Information Collection is available for downloading from OSHA's Web site at www.osha.gov. The supporting statement is available for inspection and copying in the OSHA Docket Office, at the address listed above. A printed copy of the supporting statement can be obtained by contacting Todd Owen at (202) 693-1941.

FOR FURTHER INFORMATION CONTACT:

Todd Owen, Directorate of Standards and Guidance, Occupational Safety and Health Administration, U.S. Department of Labor, Room N3631, 200 Constitution Avenue, NW., Washington, DC 20210, (202) 693-1941.

SUPPLEMENTARY INFORMATION:

I. Submission of Comments on This Notice and Internet Access to Comments and Submissions

You may submit comments in response to this document by (1) hard copy, (2) FAX transmission (facsimile), or (3) electronically through the OSHA webpage. Please note that you cannot attach materials such as studies or journal articles to electronic comments. If you have additional materials, you must submit three copies of them to the OSHA Docket Office at the address above. The additional materials must clearly identify your electronic comments by name, date, subject and docket number so we can attach them to your comments. Because of security-related problems there may be a significant delay in the receipt of

comments by regular mail. Please contact the OSHA Docket Office at (202) 693-2350 for information about security procedures concerning the delivery of materials by express delivery, hand delivery and message service.

II. Background

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burdens, conducts a pre-clearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA-95) (44 U.S.C. 3506(c)(2)(A)). OSHA will be requesting approval from the Office of Management and Budget (OMB) for certain information collection requirements contained in the Temporary Labor Camps Standard (29 CFR 1910.142). This notice initiates the process for OSHA to request OMB approval. The purpose of the Temporary Labor Camps Standards is to eliminate the incidence of communicable disease among temporary labor camp residents. The Standard requires camp superintendents to report immediately to the local health officer (1) the name and address of any individual in the camp known to have or suspected of having a communicable disease or suspected food poisoning, or (2) an unusual prevalence of any illness in which fever, diarrhea, sore throat, vomiting or jaundice is a prominent symptom.

III. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed collection of information is necessary for the proper performance of the Agency's functions, including whether the information will have practical utility;
- The accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used, especially the number of temporary labor camps in the United States; and
- The quality, utility, and clarity of the information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

IV. Proposed Actions

OSHA proposes to extend OMB's approval of the collection of information requirements specified in 5 CFR

1320.8(d). OSHA will summarize the comments submitted in response to this notice, and will include this summary in its request to OMB to extend the approval of the information-collection requirements for the Temporary Labor Camps Standard.

Type of Review: Extension of a currently approved information-collection requirement.

Title: Temporary Labor Camps (29 CFR 1910.142).

OMB Number: 1218-0096.

Affected Public: Business or other for-profit; not-for-profit institutions; Federal government; State, local or tribal governments.

Number of Respondents: 838.

Frequency: On occasion.

Average time per Response: Five minutes response.

Estimating Total Burden Hours: 67 hours.

Authority and Signature

This document was prepared under the direction of John L. Henshaw, Assistant Secretary of Labor for Occupational Safety and Health, 200 Constitution Avenue, NW., Washington, DC 20210.

This action is taken pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3506(c)(2)(A)).

Signed at Washington, DC, this 28th day of October 2002.

John L. Henshaw,

Assistant Secretary of Labor.

BILLING CODE 4510-26-M

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-443]

North Atlantic Energy Service Corporation, et al.; (Seabrook Station, Unit No. 1); Order Approving Transfer of License and Conforming Amendment

I

Facility Operating License No. NPF-86 authorizes the operation of Seabrook Station, Unit No. 1 (Seabrook Station or the facility), at steady-state power levels not in excess of 3,411 megawatts thermal. The facility is located in Seabrook Township, Rockingham County, New Hampshire, on the southeast coast of the State of New Hampshire. The license authorizes North Atlantic Energy Service Corporation (NAESCO) to possess, use, and operate the facility, and certain other entities discussed below to possess the facility.

II

Under cover of a letter dated May 17, 2002, NAESCO, on its own behalf and on the behalf of certain licensees owning interests in Seabrook Station—North Atlantic Energy Corporation (NAEC), The United Illuminating Company, Great Bay Power Corporation, New England Power Company, The Connecticut Light and Power Company, Canal Electric Company, Little Bay Power Corporation, and New Hampshire Electric Cooperative, Inc.—and FPL Energy Seabrook, LLC (FPLE Seabrook) jointly submitted an application requesting approval of the transfer of Facility Operating License No. NPF-86 for Seabrook Station, to the extent held by the foregoing licensees, to FPLE Seabrook. The applicants also requested approval of a conforming amendment to reflect the transfer. The application was supplemented by submittals dated June 28, July 1, July 24, August 29, and October 11, 2002 (collectively referred to as the “application” herein unless otherwise indicated).

FPLE Seabrook is an indirect, wholly owned subsidiary of FPL Energy, LLC (FPLE), which is a wholly owned subsidiary of FPL Group Capital Inc., which, in turn, is a wholly owned subsidiary of FPL Group Inc. (FPL Group). According to the application, the current licensees owning interests in the facility listed above will sell their ownership interests in Seabrook Station to FPLE Seabrook. In addition, NAESCO will transfer its operating authority under the license to FPLE Seabrook which will assume title to the acquired interests in the facility and operate and maintain Seabrook Station. While the transfer of operating authority and the ownership interests identified in the application is expected to occur at one time, it is possible that certain ownership interests proposed to be transferred will be transferred in a second phase, depending upon the timing of the receipt of other regulatory approvals. Current licensees which own interests in Seabrook Station but are not involved in this license transfer are Massachusetts Municipal Wholesale Electric Company, Taunton Municipal Lighting Plant, and Hudson Light and Power Department, all of which will remain licensees.

The conforming license amendment would remove from the license references to NAESCO and the licensees transferring their interests in the facility and add references to FPL Energy Seabrook, LLC, as a licensee, and make other administrative changes to reflect the proposed transfer.

The application requested approval of the subject transfer of the license and a conforming license amendment pursuant to 10 CFR 50.80 and 50.90. Notice of the requests for approval and an opportunity to request a hearing or submit written comments was published in the **Federal Register** on June 14, 2002 (67 FR 40972). The Commission received no requests for hearing or written comments.

Under 10 CFR 50.80, no license, or any right thereunder, shall be transferred, directly or indirectly, through transfer of control of the license, unless the Commission shall give its consent in writing. After reviewing the information submitted in the application and other information before the Commission, and relying upon the representations and agreements contained in the application, the Nuclear Regulatory Commission (NRC) staff has determined that FPLE Seabrook is qualified to be the holder of the license to the extent proposed in the application, and that the transfer of the license to FPLE Seabrook is otherwise consistent with applicable provisions of law, regulations, and orders issued by the Commission, subject to the conditions set forth below. The NRC staff has further found that the application for the proposed license amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission’s rules and regulations set forth in 10 CFR Chapter I; the facility will operate in conformity with the application, the provisions of the Act, and the rules and regulations of the Commission; there is reasonable assurance that the activities authorized by the proposed license amendment can be conducted without endangering the health and safety of the public and that such activities will be conducted in compliance with the Commission’s regulations; the issuance of the proposed license amendment will not be inimical to the common defense and security or the health and safety of the public; and the issuance of the proposed license amendment will be in accordance with 10 CFR part 51 of the Commission’s regulations and all applicable requirements have been satisfied. The findings set forth above are supported by the staff’s safety evaluation dated October 25, 2002.

III

Accordingly, pursuant to sections 161b, 161i, and 184 of the Atomic Energy Act of 1954, as amended, 42 U.S.C. 2201(b), 2201(i), and 2234; and 10 CFR 50.80, *it is hereby ordered* that
