## CHAPTERS OF THE OPERATOR'S HANDBOOK FOR NONFEDERAL OIL AND GAS DEVELOPMENT NEEDED FOR EACH TYPE OF OIL AND GAS OPERATION

The following list can be used by the nonfederal oil and gas operator to determine which chapters of the *Operator's Handbook for Nonfederal Oil and Gas Development in Units of the National Park System* are necessary to plan and conduct operations that will comply with the NPS 36 CFR 9B regulations. NOTE: Depending on the proposed operations, additional sections of the handbook may also be relevant (e.g., an operator proposing to drill a well may need to transport the hydrocarbons through the park and would need a copy of the transpark pipelines and performance bonds chapters in order to fully understand the 9B requirements).

Chapters of the Nonfederal Oil and Gas Operator's Handbook	Type of Operation
