## Record South American Corn Supplies Boost Exports

MMT **Brazilian/Argentine Corn Production**

MMT **Trade Year Exports Jump**

Record corn supplies in Argentina and Brazil are expected to allow larger exports and create stronger competition for the United States. Production in both of these countries is forecast at record levels and very high global prices should encourage a fast shipment pace when these new crops become available. New crop Argentine export prices are currently \$54 per ton above this time last year, with global prices supported by tightening stocks in the United States and robust demand for ethanol. Argentine new crop sales are already very high at 10.5 million tons, prompting the government to temporarily suspend new export registrations.

Current U.S. outstanding export sales are 40 percent above last year, largely as a result of a dearth of competition. However, with much larger exportable supplies from Brazil and Argentina available in coming months, U.S. sales could begin to slow dramatically from the strong pace to date.

### **Circular Modifications:**

The Foreign Agricultural Service (FAS) will update its production, supply and distribution database for cotton, oilseeds, grains and pulses along with its downloadable data sets at 9 a.m. on the day the World Agricultural Supply and Demand Estimates (WASDE) report is released. It is available on the FAS website (<http://www.fas.usda.gov/psdonline/>). This circular will be released at 9:30 a.m. on the same day. This is an effort to speed up FAS information dissemination to more closely coincide with the release of the WASDE.

## WHEAT: WORLD MARKETS AND TRADE

### MONTHLY HIGHLIGHTS:

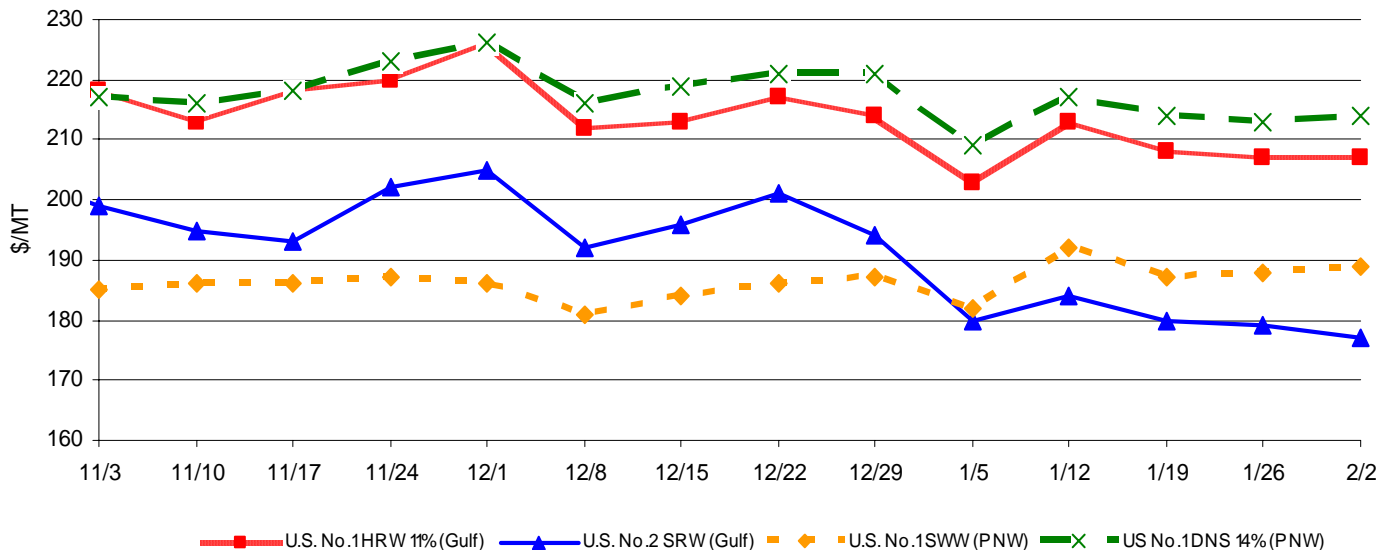

**Canadian Export Pace Very Strong:** With huge domestic supplies and limited foreign competition, Canada's wheat shipments have been very robust in the first half of the trade year, up over 44 percent from this time last year. Sales to traditional markets including the United States and Mexico have expanded, and new markets such as Egypt and India have also emerged as key buyers.

### PRICES:

**Domestic:** For January, wheat prices rose early in the month influenced by strong corn prices but then eased for most classes on sluggish exports. For the month, Hard Red Winter (HRW) rose \$4, Hard Red Spring (HRS) rose \$5, Soft Red Winter (SRW) prices fell \$3, and Soft White (SWW) prices rose \$7.

## RICE: WORLD MARKETS AND TRADE

### PRICES:

**International:** Export prices in Thailand remain firm. There are no quotes out of Vietnam due to the export ban, though vessels have reportedly loaded against recent sales to Indonesia and the Philippines.

**Domestic:** U.S. #2/4 long grain milled rice quotes remain unchanged from last month at \$434 per ton, FOB. The spread between comparable qualities of Thai and U.S. rice is \$113 per ton compared to \$62 per ton this time last year. U.S. medium grain prices are at \$550 per ton, FOB.

Nominal Rice Quotes – 2002 to Present

### TRADE CHANGES FOR 2007

#### Selected Exporters

- **China** is up 200,000 tons to 1.2 million in expectation that high world prices and greater demand will draw more supplies out on world markets.

#### Selected Importers

- **EU-25** is up 175,000 tons to 1.1 million in anticipation of continued strong demand.

### TRADE CHANGES FOR 2006

#### Selected Exporters

- **United States** is down 200,000 tons to 3.3 million tons due to the slower than anticipated export pace, particularly on sales to the EU.

#### Selected Importers

- **Bangladesh** is down 100,000 tons to 600,000 as large domestic production slows import demand.

---

Grain: World Markets and Trade, February 2007

- 
- **Brazil** is up 150,000 tons to 700,000 due to strong demand.
  - **EU-25** is up 175,000 tons to 1.1 million on account of the strong import pace from non-U.S. suppliers like Thailand and India.

## COARSE GRAINS: WORLD MARKETS AND TRADE

### MONTHLY HIGHLIGHTS:

**Corn Export Competition Heats Up:** The U.S. corn export forecast is lowered this month because of stronger export competition. Excellent growing conditions in Argentina and Brazil have resulted in record crop prospects, up 6 million tons this month. High global prices are giving both countries an incentive to front-load their sales in competition with the United States as U.S. supplies are drawn down seasonally over the next few months. Interestingly, those same high world prices have not yet stimulated a more aggressive export program from China.

### PRICES:

**Domestic:** January export bids for U.S. #2 yellow corn were up \$5 per ton to over \$165, returning to November's price level. Prices were volatile and moved on the USDA crop report, continued strong demand for exports and weather/growing conditions in Argentina and Brazil.

### TRADE CHANGES IN 2006/2007

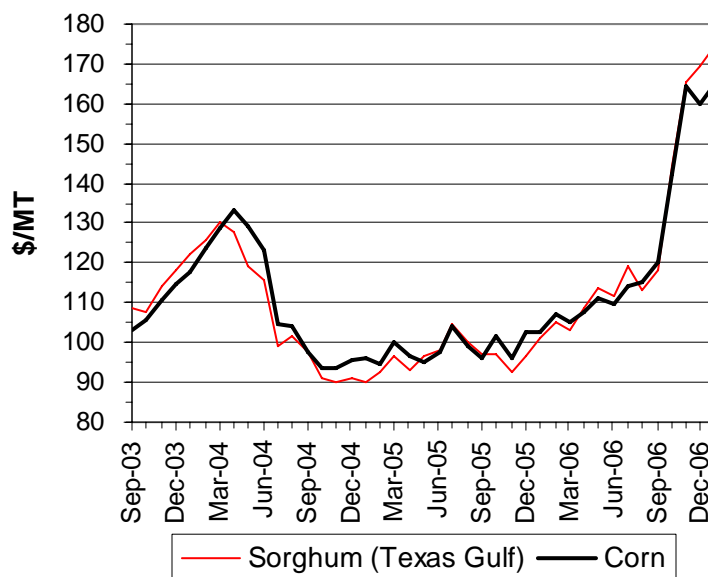

#### Selected Exporters

- **United States corn** is cut by 500,000 tons to 56.0 million in light of expected greater competition from Argentina and Brazil.
- **Argentina and Brazil corn** are raised 1.0 million tons and 500,000 tons, respectively, to 13.0 million and 5.0 million tons on record crop prospects.
- **Kazakhstan barley** is raised 300,000 tons to 600,000 on higher production.
- **Russian barley** is lowered 500,000 tons to 2.0 million as strong domestic feeding is limiting supplies available for export.
- **United States sorghum** is down 200,000 tons to 4.0 million based on the slow pace of sales especially to Mexico.

#### Selected Importers

- **Brazil corn** is cut in half to 450,000 tons because of record crop prospects.

**U.S. Gulf Export Bids**

- 
- **Canada corn** is down 300,000 tons to 2.3 million because of the slow pace of corn imports and evidence of increased wheat feeding.
  - **Dominican Republic and Guatemala corn** are each raised 200,000 tons to record levels based on the strong pace of U.S. export commitments.
  - **Mexico corn** is raised 700,000 tons to a record 7.5 million tons based on the pace of sales and shipments from the United States. Mexico has recently increased its corn import quota in order to boost supplies and reduce domestic prices.
  - **Turkey corn** is raised by 200,000 tons to 500,000 because of reduced production and the government's stated intention to expand import permits in order to lower feed prices.
  - **Zimbabwe corn** is cut in half to 300,000 tons despite reduced production projected this month. The country is having difficulty securing foreign exchange for imports.
  - **Syria barley** is lowered 200,000 tons to 500,000 on slow purchases to date.
  - **Mexico sorghum** is down 200,000 tons to 2.3 million based on a slow purchase pace to date.

### **OTHER NOTES**

**Stocks:** Unless otherwise stated, stock data are based on an aggregate of differing local marketing years and should not be construed as representing world stock levels at a fixed point in time.

**Consumption:** World totals for consumption reflect total utilization, including food, seed, industrial, feed, and waste; as well as differences in marketing year imports and marketing year exports. Consumption statistics for regions and individual countries, however, reflect food, seed, industrial, feed, and waste only.

**EU Consolidation:** The trade figures for the EU-25 for the years 1999/00 through 2002/03 are inflated by the two-way trade between the two groups (EU-15 and acceding 10). Over the past 6 years, this “intra-trade” has averaged about 700,000 tons for wheat, 350,000 tons each for corn and barley, and 150,000 tons for rye. The trade figures also include intra-trade between members of the acceding 10. From 2003/04 onward, all intra-trade has been removed.

**Statistics:** (1) Wheat trade statistics include wheat, flour, and selected products on a grain equivalent basis. (2) Rice trade statistics include rough, brown, milled, and broken on a milled equivalent basis. (3) Coarse grains statistics include corn, barley, sorghum, oats, rye, millet, and mixed grains but exclude trade in barley malt, millet, and mixed grains.

**Unaccounted:** This term includes grain in transit, reporting discrepancies in some countries, and trade to countries outside the USDA database.
