Welcome to the Winter 2003 edition of the quarterly Schedule of Proposed Actions (SOPA) for the Kootenai National Forest. Four times a year, this SOPA is updated, published and made available on our website (www.fs.fed.us/r1/kootenai).

We invite your active participation in project planning. Contributing your comments, suggestions, and site-specific information about these projects early in the planning process can help our Forest make better decisions.

Here is how the SOPA can be best used:

1. Look through the list of projects and decide what projects you would like to know more about.
2. Call the contact person and let them know you would like to be on the mailing list for the given project. The phone number for that person is on the SOPA.
3. Once you are placed on a project mailing list, you will then be notified about opportunities for public participation and you will receive information concerning that project as it is developed.

We will continue to provide this SOPA to you unless you ask us to remove your name from our mailing list. If you would like to save paper and postage, we will be happy to send you an e-mail when the new SOPA is available on our website.

If you have comments or suggestions on making this SOPA more useful, would like to receive the SOPA electronically, or have any questions, contact Kirsten Kaiser, Forest Environmental Coordinator, at 406-293-6211 or kkaiser@fs.fed.us.

Sincerely,

BOB CASTANEDA
Forest Supervisor

INFORMATION ABOUT THE QUARTERLY SCHEDULE OF PROPOSED ACTIONS (SOPA)

The enclosed SOPA provides information about projects for which we have a specific proposal and are in the process of analyzing, as directed by the National Environmental Policy Act (NEPA).

Projects on the SOPA are arranged in a table format and are sorted by Ranger District, by type of project, and by date expected for each decision for each project. There are several points in the planning process during which you can be the most helpful and influential, but exact steps and timing may vary depending on the type and complexity of the project. For example, the whole planning process may only take a few days for small, non-complex projects, or several years for large complex projects such as a major mining proposal. The enclosure labeled "Project Planning Process and Where You Fit In" describes these steps and identifies what you can do to be involved.

DEFINITIONS USED FOR THE SOPA

If you've received previous editions of this list you'll notice that some projects don't appear anymore. That's because we've finished the analysis, made the decision, and the appeal period (if applicable) has ended. In other cases, we've removed the projects from the list because we're unable to pursue them for various reasons (lack of funding, conflicts with other forest priorities, etc.). Please contact the person listed as the "contact" for a project anytime you have a question or would like to be included on the mailing list for the given project.

This list is not inclusive. Some projects may come up after publication that requires our immediate attention, and we may complete the decision document before the next edition.

At the top of each table we have listed the Ranger District, their address, and the "Newspaper of Record" (used by the District for legal notices of decision, and scoping of projects).

The following items describe the column headings and contents in the tables that follow.

MAP KEY: Identifies a number that goes with the attached small forest map to show the general location of the project.

TYPE OF PROJECT: Identifies the Resource Program area that's affected. Acronyms used include:

Mgmt – management

Exchg – Exchange

NAME OF PROJECT: Identifies the name of the environmental document. Acronyms used are:

EIS - Environmental Impact Statement

EA – Environmental Assessment

BPA – Bonneville Power Administration

OSR – Overstory Removal

ORV – Off Road Vehicle

Salv – Salvage

MMBF – Million board feet

LE – Land Exchange

MBF – Thousand board feet

CCF - Hundred cubic feet

RUP - Road Use Permit

ROW – Right of Way

ORD- Open Road Density

LOCATION & PROJECT DESCRIPTION: Identifies both legal land description and the drainage or other identifying on-the-ground feature. If a project is located within an inventoried roadless area it is also noted here. Also included is a general description of the project, such as estimated timber volume, acres proposed for treatment, acres involved with a land exchange, etc.

Acronyms used are: T – Township

R – Range

S – Section

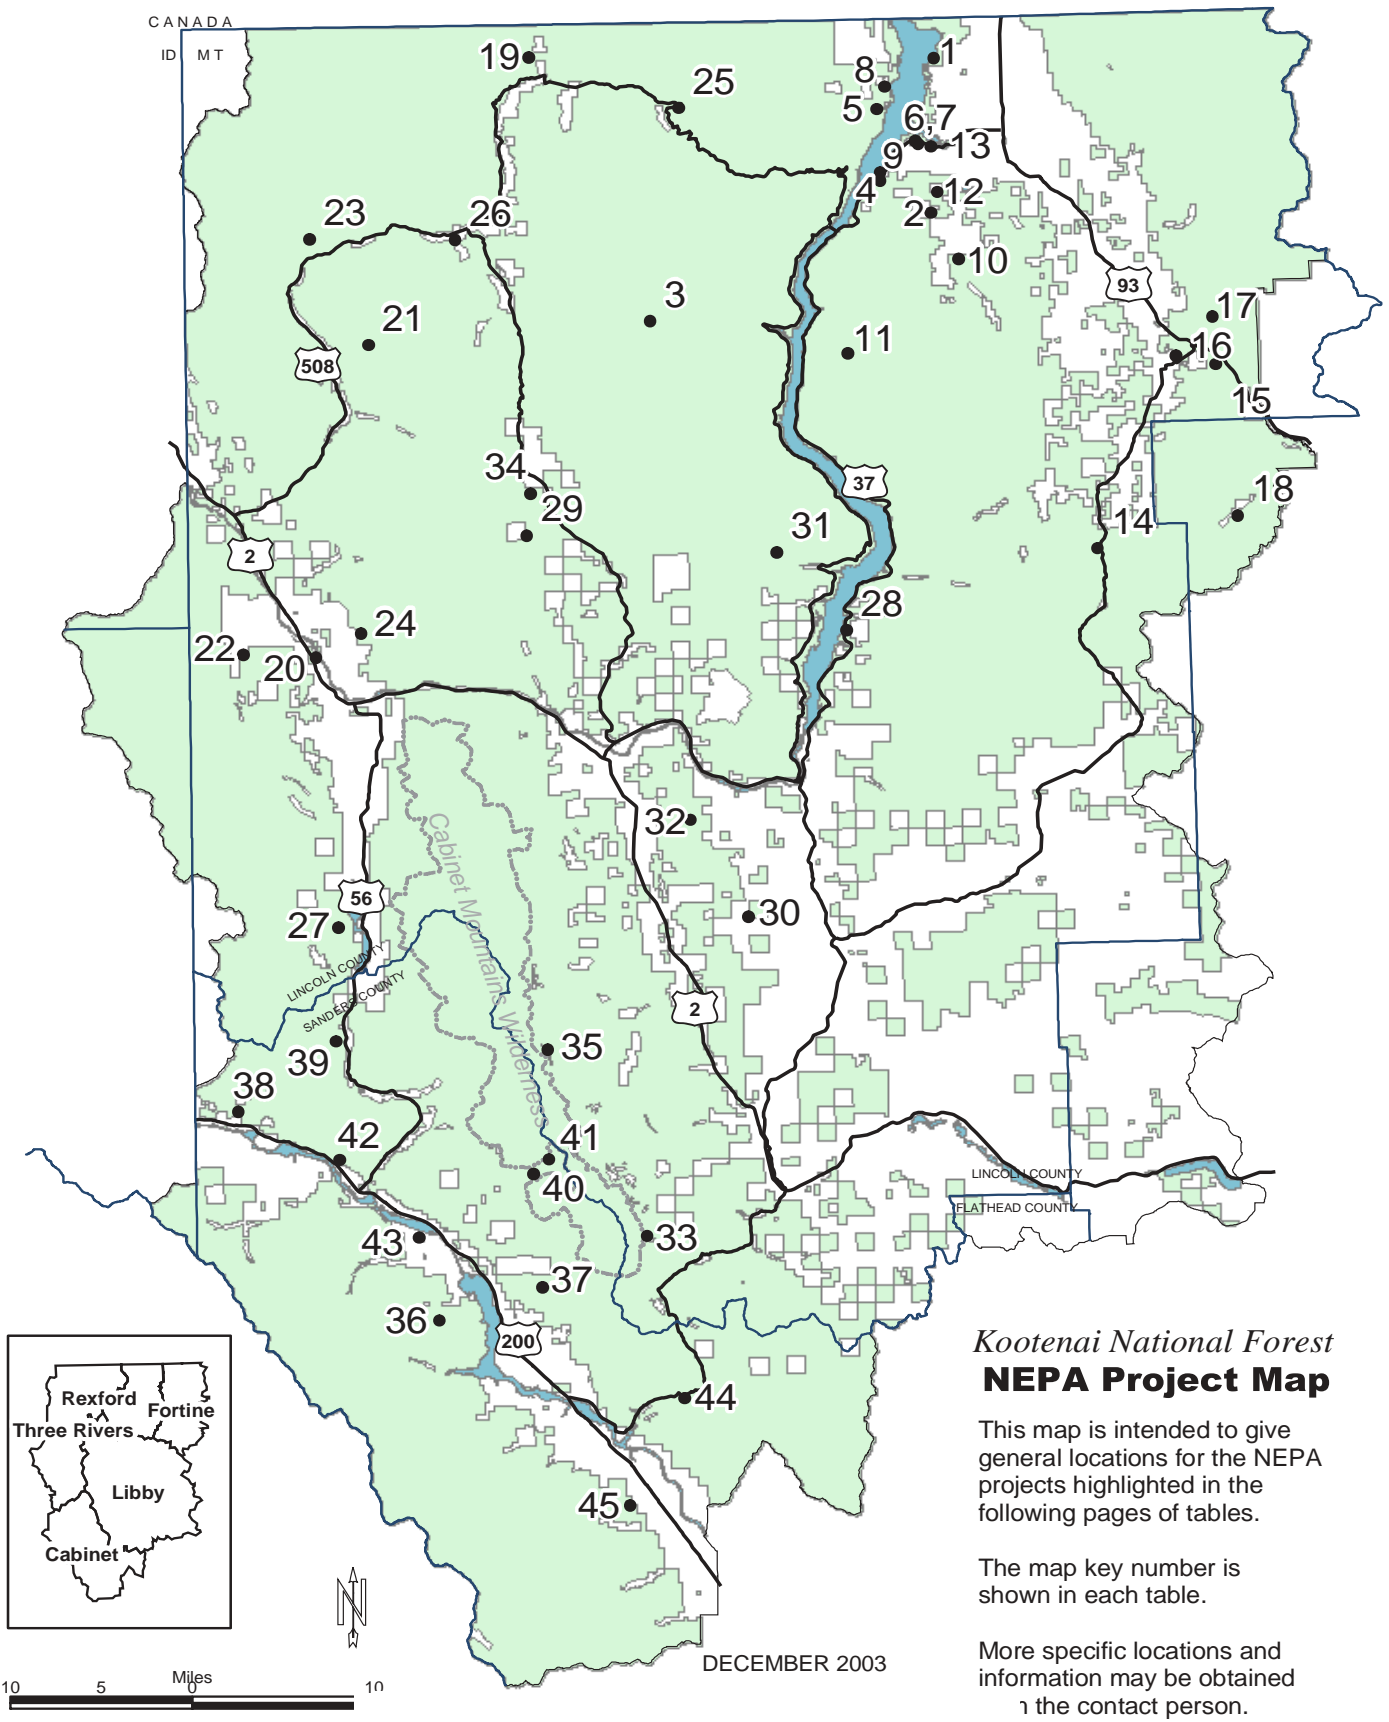

NEPA STATUS: Identifies where we are in the NEPA process. Acronyms used are:

NOI- Notice of Intent published in the Federal Register

ANTICIPATED DECISION DATE: This is the best estimate of when the NEPA analysis will be completed. Sometimes we're not able to meet the date for various reasons but the schedule will be validated and updated each time we send it out.

YEAR ACTIVITY TO START ON THE GROUND: This is the best estimate of when ground disturbing activities would occur and/or contracts or permits would be offered.

CONTACT PERSON: This is the person at the Ranger District or Forest to contact for further information regarding the project.
