SUPPLEMENTARY INFORMATION: OMB Control Number: 3060-0865.

Title: Wireless Telecommunications Bureau Universal Licensing System (ULS) Recordkeeping and Third Party Disclosure Requirements.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Individuals or households, business or other for-profit, not-for-profit institutions, and state, local or tribal government.

Number of Respondents: 70,447 respondents; 70,447 responses.

Estimated Time Per Response: .25-4 hours (average).

Frequency of Response: On occasion reporting requirement, recordkeeping requirement, and third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits.

Total Annual Burden: 63,446 hours.

Total Annual Cost: N/A.

Privacy Act Impact Assessment: Yes.

Nature and Extent of Confidentiality: There is a need for confidentiality with respect to all Private Land Mobile Radio service filers in this collection.

Information on the private land mobile radio licensees is maintained in the Commission's system of records, FCC/WTB-1, "Wireless Services Licensing Records." The licensee records will be publicly available and routinely used in accordance with subsection b. of the Privacy Act. Taxpayer Identification Numbers (TINs) and material which is afforded confidential treatment pursuant to a request made under 47 CFR 0.459 will not be available for public inspection. Any personally identifiable information (PII) that individual applicants provide is covered by a system of records reference above and these and all other records may be disclosed pursuant to the Routine Uses as stated in the system of records notice dated April 5, 2006 (71 FR 17234, 17269).

Needs and Uses: The Commission will submit this information collection to OMB as an extension (no change in reporting requirements, recordkeeping

requirements and/or third party disclosure requirements) during this comment period to obtain the full three-year clearance from them. The Commission reduced the total annual burden due to an adjustment in the number of responses by licensees who operate within the various service categories of this information collection gathered from the Commission's ULS and CORES databases.

The purpose of this collection is to streamline the set of rules which minimize filing requirements via the Universal Licensing System (ULS); to eliminate redundant and unnecessary submission requirements; and to assure ongoing collection of reliable licensing and ownership data. The recordkeeping and third party disclosure requirements, along with certifications which made via ULS are ways the Commission reduced the filing burden on the industry. However, applicants must maintain records to document compliance with the requirements for which they provide certifications. In some instances, third party coordinations are required.

OMB Control Number: 3060-1007.

On April 16, 2004, the Commission released a Fourth Report and Order, IB Docket Numbers 02-34 and 00-248, FCC 04-92. In this Order, the Commission extended the mandatory

electronic filing to all space station and earth station applications, related pleadings, and other filings governed by Part 25. Direct Broadcast Satellite (DBS) and Digital Audio Radio Service (DARS) licensees can now use a streamlined procedure when relocating satellites for fleet management purposes. Currently, this procedure is only limited to Geostationary Satellite Orbit (GSO) licensees. The Commission referred to such relocations as "fleet management" license modifications. This change will enable the Commission to act on DBS fleet management modifications faster. Under this streamlined procedure, the DBS and DARS licensees may modify its license without prior authorization, but upon 30 days prior notice to the Commission and any potentially affected licensed spectrum user. In order to utilize the streamlined procedure, the operator is required to meet certain technical requirements contained in Part 25.
