SUPPLEMENTARY INFORMATION:

Background

On April 20, 2007, NMFS published a proposed rule (72 FR 19854) to list the Cook Inlet beluga whale as an endangered species under the Endangered Species Act of 1973 (ESA), as amended. This action followed completion of the Cook Inlet beluga whale status review, which found this population to be at risk of extinction within the next 100 years and described NMFS' determination that this population constitutes a "species", or distinct population segment under the ESA.

Public Hearings

Joint Commerce-Interior ESA implementing regulations state that the Secretary shall promptly hold at least one public hearing if any person requests one within 45 days of publication of a proposed regulation to list a species or to designate critical habitat (see 50 CFR 424.16(c)(3)). In past ESA rule-making NMFS has conducted traditional public hearings, consisting of

recorded oral testimony from interested individuals. This format, although providing a means for public input, does not provide opportunities for dialogue and information exchange. NMFS believes that the traditional public hearing format can be improved upon by also including a brief presentation on the results of the Cook Inlet beluga Status Review and other topics of interest.

The preferred means for providing public comment to the official record is via written testimony prepared in advance of the meeting which may also be presented orally. Blank "comment sheets" will be provided at the meetings for those without prepared written comments, and opportunity will also be provided for additional oral testimony. There is no need to register for these hearings.

In scheduling these public hearings, NMFS has anticipated that many affected stakeholders and members of the public may prefer to discuss the proposed listing directly with staff during the public comment period. These public meetings are not the only opportunity for the public to provide input on this proposal. The public and stakeholders are encouraged to continue to comment and provide input to NMFS on the proposal (via correspondence, e-mail, and the Internet; see **ADDRESSES**) up until the scheduled close of the comment period on August 3, 2007.
