

vehicle department disability sticker, license plate or hand tag is not acceptable documentation;

Information available to the general public through agency Web sites and publication will inform potential Pass applicants of the documentation requirements. However, there are instances where applicants learn about the Pass when arriving at a recreation site and do not have the required documentation available. For those instances, a fourth option is made available at recreation sites. If a person claims eligibility for the Access Pass but cannot produce any of the documentation outlined, that person must read, sign, and date the Statement of Disability Form in the presence of the officer issuing the Pass. If the applicant cannot read and/or sign, someone else may read, date, and sign the statement on his/her behalf in the applicant's presence, and the presence of the officer issuing the Pass. The Interagency Access Pass replaces the Golden Access Passport that was established in 1980 by an amendment to the Land and Water Conservation Fund Act (L&WCFA) of 1965. Previously issued Golden Access Passports will remain valid for the lifetime of the Passport holder. The requested information and Statement of Disability have been collected and used since the creation of the Golden Access Passport in 1980 to verify that the individual had been medically determined to have a permanent disability for the issuance of the Golden Access Passport under OMB control number 0596-0173, under the authority of the L&WCFA.
