**II. Background**

The Office of Pesticide Programs is entrusted with the responsibility to help ensure the safety of the American food supply, protection and education of those who apply or are exposed to pesticides occupationally or through use of products, and the general protection of the environment and special ecosystems from potential risks posed by pesticides.

PPDC was established under the Federal Advisory Committee Act (FACA), Public Law 92-463, in September 1995 for a 2-year term and has been renewed every 2 years since that time. PPDC provides advice and recommendations to OPP on a broad range of pesticide regulatory, policy, and program implementation issues that are associated with evaluating and reducing risks from use of pesticides.

EPA is seeking to renew the current PPDC Charter, which expires in November 2007, for another 2-year term. EPA intends to appoint members to 2-year terms. An important consideration in EPA's selection of members will be to maintain balance and diversity of experience and expertise. EPA also intends to seek broad geographic representation from the following sectors: Pesticide industry and trade associations; environmental/public interest and consumer groups; farm worker organizations; pesticide user, grower, and commodity groups; Federal/State/local and Tribal governments; academia; and public health organizations; individuals who work on urban pest management issues; and the general public.

Copies of the PPDC charter are filed with appropriate committees of Congress, the Library of Congress, and are available upon request.
