

The plat of survey represents the dependent resurvey of a portion of the east boundary, a portion of the subdivisional lines, and the survey of the subdivision of section 25 and was approved September 12, 2007. We will place a copy of the plat we described in the open files. It will be available to the public as a matter of information. If BLM receives a protest against this survey, as shown on the plat, prior to the date of the official filing, we will stay the filing pending our consideration of the protest.

We will not officially file the plat until the day after we have accepted or dismissed all protests and they have become final, including decisions on appeals.

Dated: September 12, 2007.

Jerry L. Wahl,

Chief Cadastral Surveyor.

DEPARTMENT OF THE INTERIOR

National Park Service

National Register of Historic Places; Notification of Pending Nominations and Related Actions

Nominations for the following properties being considered for listing or related actions in the National Register were received by the National Park Service before September 15, 2007.

Pursuant to section 60.13 of 36 CFR Part 60 written comments concerning the significance of these properties under the National Register criteria for evaluation may be forwarded by United States Postal Service, to the National Register of Historic Places, National Park Service, 1849 C St., NW., 2280, Washington, DC 20240; by all other carriers, National Register of Historic Places, National Park Service, 1201 Eye St., NW., 8th floor, Washington, DC 20005; or by fax, 202-371-6447. Written or faxed comments should be submitted by October 16, 2007.

J. Paul Loether,

*Chief, National Register of Historic Places/
National Historic Landmarks Program.*

BILLING CODE 4312-51-P

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

Notice of Proposed Information Collection for 1029-0024 and 1029-0113

AGENCY: Office of Surface Mining Reclamation and Enforcement, Department of the Interior.

ACTION: Notice and request for comments.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995, the Office of Surface Mining Reclamation and Enforcement (OSM) is announcing that the information collection requests for 30 CFR 732—Procedures and Criteria for Approval or Disapproval of State Program Submissions; and 30 CFR 874—General Reclamation Requirements, have been forwarded to the Office of Management and Budget (OMB) for review and approval. The information collection requests describe the nature of the information collections and their expected burden and cost.

DATES: OMB has up to 60 days to approve or disapprove the information collection but may respond after 30 days. Therefore, public comments should be submitted to OMB by October 31, 2007, in order to be assured of consideration.

ADDRESSES: Submit comments to the Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Department of the Interior Desk Officer, by telefax at (202) 395-6566 or via e-mail to OIRA_Docket@omb.eop.gov. Also, please send a copy of your comments to John A. Trelease, Office of Surface Mining Reclamation and Enforcement, 1951 Constitution Ave., NW., Room 202-SIB, Washington, DC 20240, or electronically to jtrelease@osmre.gov. Please refer to OMB control numbers 1029-0024 and 1029-0113 in your correspondence.

FOR FURTHER INFORMATION CONTACT: To request a copy of either information collection request contact John Trelease at (202) 208-2783 or on-line at jtrelease@osmre.gov.

SUPPLEMENTARY INFORMATION: OMB regulations at 5 CFR part 1320, which

implement provisions of the Paperwork Reduction Act of 1995 (Pub. L. 104-13), require that interested members of the public and affected agencies have an opportunity to comment on information collection and recordkeeping activities [see 5 CFR 1320.8(d)]. OSM has submitted two requests to OMB to renew its approval for the collections of information found at 30 CFR parts 732 and 874. OSM is requesting a 3-year term of approval for these information collection activities.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for these collections of information are 1029-0024 for part 732 and 1029-0013 for part 874, and may be found in OSM's regulations at 732.10 and 874.10.

As required under 5 CFR 1320.8(d), a **Federal Register** notice soliciting comments on the collections of information for parts 732 and 874 was published on June 4, 2007 (72 FR 30830). No comments were received from that notice. This notice provides the public with an additional 30 days in which to comment on the following information collection activities:

Title: Procedures and Criteria for Approval or Disapproval of State Program Submissions, 30 CFR Part 732.

OMB Control Number: 1029-0024.

Summary: Part 732 establishes the procedures and criteria for approval and disapproval of State program submissions. The information submitted is used to evaluate whether State regulatory authorities are meeting the provisions of their approved programs.

Bureau Form Number: None.

Frequency of Collection: Once and annually.

Description of Respondents: 24 State regulatory authorities.

Total Annual Responses: 45.

Total Annual Burden Hours: 8,549.

Title: General Reclamation Requirements, 30 CFR Part 874.

OMB Control Number: 1029-0113.

Summary: Part 874 establishes land and water eligibility requirements, reclamation objectives and priorities and reclamation contractor responsibility. 30 CFR 874.17 requires consultation between the Abandoned Mine Land (AML) agency and the appropriate Title V regulatory authority on the likelihood of removing the coal under a Title V permit and concurrences between the AML agency and the appropriate Title V regulatory authority on the AML project boundary and the amount of coal that would be extracted under the AML reclamation project.

Bureau Form Number: None.

Frequency of Collection: Once.

Description of Respondents: 23 State regulatory authorities and Indian tribes.

Total Annual Responses: 23.

Total Annual Burden Hours: 1,610.

Send comments on the need for the collections of information for the performance of the functions of the agency; the accuracy of the agency's burden estimates; ways to enhance the quality, utility and clarity of the information collections; and ways to minimize the information collection burden on respondents, such as use of automated means of collection of the information, to the following address. Please refer to the appropriate OMB control number in all correspondence.

Dated: September 24, 2007.

John A. Trelease,

Acting Chief, Division of Regulatory Support.

BILLING CODE 4310-05-M

INTERNATIONAL BOUNDARY AND WATER COMMISSION, UNITED STATES AND MEXICO

United States Section: Notice of Availability of a Draft Environmental Assessment and Finding of No Significant Impact for Flood Control Improvements to the Rio Grande Canalization Project Levee System in El Paso County, Texas and Doña Ana and Sierra Counties, NM

AGENCY: United States Section, International Boundary and Water Commission, United States and Mexico.

ACTION: Notice of Availability of Draft Environmental Assessment (EA) and Draft Finding of No Significant Impact (FONSI).

SUMMARY: Pursuant to Section 102(2)(c) of the National Environmental Policy Act (NEPA) of 1969, the Council on Environmental Quality Final Regulations (40 CFR parts 1500 through 1508), and the United States Section, International Boundary and Water Commission's (USIBWC) Operational Procedures for Implementing Section 102 of NEPA, published in the **Federal Register** September 2, 1981, (46 FR 44083); the USIBWC hereby gives notice of availability of the Draft Environmental Assessment and FONSI for Flood Control Improvements to the Rio Grande Canalization Project (RGCP) Levee System, located in El Paso County, Texas and Doña Ana and Sierra Counties, New Mexico.

FOR FURTHER INFORMATION CONTACT: Daniel Borunda, Environmental

Protection Specialist, Environmental Management Division, United States Section, International Boundary and Water Commission; 4171 N. Mesa, C-100; El Paso, Texas 79902. Telephone: (915) 832-4767; e-mail: danielborunda@ibwc.state.gov.

DATES: Comments on the Draft EA and Draft FONSI will be accepted through October 30, 2007. This date has been determined by the expected release of the **Federal Register** Notice on October 1, 2007.

SUPPLEMENTARY INFORMATION: The USIBWC is preparing an Environmental Assessment (EA) for a proposed action to raise approximately 52 miles of levee system within the RGCP. The area under consideration includes approximately 13 miles within El Paso County, Texas and 38 miles within Doña Ana and Sierra Counties in New Mexico. Other flood control improvements such as a floodwall may be required in the Canutillo area in order to fully contain the 100-year flood flow.

The RGCP levee system is one of the priority areas identified and targeted for flood control improvements. The need for improvements to the levee system was identified in the *2004 Final Environmental Impact Statement, River Management Alternatives for the Rio Grande Canalization Project*. USIBWC in coordination with the United States Army Corps of Engineers, Albuquerque District evaluated the RGCP flood containment capacity in 1996 and subsequently in 2005. These studies identified a number of potential levee deficiencies along the RGCP on the basis of hydraulic modeling of the 100-year storm. The modeling indicated that an increase in levee height would be required to meet design criteria for flood protection. Levee height increases range from 1 to 4 feet at various locations for a total of 52 levee miles. Increases greater than 2 feet may require expansion of the levee footprint by lateral extension of the structure to meet design criteria. If required, levee footprint increases may occur within the USIBWC right-of-way and extend either on the landside or riverside of the levee depending on existing constraints.

Federal Emergency Management Agency (FEMA) certification of RGCP levees in El Paso County, Texas and Doña Ana and Sierra Counties, New Mexico cannot occur until the existing levees are rehabilitated to meet certification standards. Recent preliminary Digital Flood Insurance Rate Maps released by FEMA indicate increased newly designated Special Flood Hazard areas along the Rio Grande. The proposed action will
