This mandatory hearing will concern safety and environmental matters relating to the proposed issuance of the requested license, as more fully described below.

A. Matters To Be Considered

As set forth by the Commission in the October 2004 Notice of Hearing² the matters to be considered are (1) Whether the application and record of the proceeding contain sufficient information and whether the NRC Staff’s review of the application has been adequate to support findings to be made by the Director of the Office of Nuclear Materials Safety and Safeguards, with respect to the applicable standards contained in 10 CFR 30.33, 40.32, and 70.23, and (2) whether the review conducted by the NRC Staff pursuant to 10 CFR Part 51 has been adequate. Additionally, in accord with the Commission’s October 2004 notice, also at issue in this proceeding is: (3) Whether the requirements of Sections 102(2)(A), (C), and (E) of the National Environmental Policy Act of 1969 and 10 CFR Part 51, Subpart A, have been complied with in this proceeding; (4) whether the final balance among conflicting factors contained in the record of this proceeding indicate that granting the license is the appropriate action to be

taken; and (5) whether the license should be issued, denied, or appropriately conditioned to protect the environment.

B. Date, Time, and Location of Mandatory Hearing

The Board will conduct this mandatory hearing at the specified location and time:

1. *Date:* Tuesday, March 13, 2007.

SUPPLEMENTARY INFORMATION:

I. Introduction

The U.S. Nuclear Regulatory Commission (NRC) is considering terminating Byproduct Materials License No. 01–02861–05. This license is held by the Department of the Army (the Licensee), for remaining residual ground contamination at a 1950s era radioactive materials burial ground, located within the LaGarde Park (the Site) in Anniston, Alabama, adjacent to Fort McClellan. Termination of the license would authorize release of the site for unrestricted use.

The Army requested this action in a letter dated April 26, 2005. The NRC has prepared an Environmental Assessment (EA) in support of this proposed action in accordance with the requirements of Title 10, Code of Federal Regulations (CFR), Part 51 (10 CFR part 51). Based on the EA, the NRC has concluded that a Finding of No Significant Impact (FONSI) is appropriate with respect to the proposed action. The license will be terminated following the publication of this FONSI and EA in the **Federal Register**.
