

the safe transport of radioactive material quantities of concern, it must notify the Commission, within twenty (20) days of this Order, of the adverse safety impact, the basis for its determination that the requirement has an adverse safety impact, and either a proposal for achieving the same objectives specified in the Attachment A requirement in question, or a schedule for modifying the activity to address the adverse safety condition. If neither approach is appropriate, the Licensee must supplement its response to Condition B.1 of this Order to identify the condition as a requirement with which it cannot comply, with attendant justifications as required in Condition B.1.

C. The Licensee shall report to the Commission when it has achieved full compliance with the requirements described in Attachment A.

D. Notwithstanding any provisions of the Commission's regulations to the contrary, all measures implemented or actions taken in response to this order shall be maintained until the Commission determines otherwise.

Licensee responses to Conditions B.1, B.2, and C above shall be submitted to the Document Control Desk, ATTN: Director, Office of Federal and State Materials and Environmental Management Programs, U.S. Nuclear Regulatory Commission, Washington, DC 20555. In addition, Licensee submittals that contain Safeguards Information shall be properly marked and handled in accordance with Licensee's Safeguards Information or Safeguards Information—Modified Handling program.

The Director, Office of Federal and State Materials and Environmental Management Programs, may, in writing, relax or rescind any of the above conditions upon demonstration by the Licensee of good cause.

IV.

In accordance with 10 CFR 2.202, the Licensee must, and any other person adversely affected by this Order may, submit an answer to this Order, and may request a hearing on this Order, within twenty (20) days of the date of this Order. Where good cause is shown, consideration will be given to extending the time to request a hearing. A request for extension of time in which to submit an answer or request a hearing must be made in writing to the Director, Office of Federal and State Materials and Environmental Management Programs, U.S. Nuclear Regulatory Commission, Washington, DC 20555, and include a statement of good cause for the extension. The answer may consent to

this Order. Unless the answer consents to this Order, the answer shall, in writing and under oath or affirmation, specifically set forth the matters of fact and law on which the Licensee or other person adversely affected relies and the reasons as to why the Order should not have been issued. Any answer or request for a hearing shall be submitted to the Secretary, Office of the Secretary of the Commission, U.S. Nuclear Regulatory Commission, ATTN: Rulemakings and Adjudications Staff, Washington, DC 20555. Copies also shall be sent to the Director, Office of Federal and State Materials and Environmental Management Programs, U.S. Nuclear Regulatory Commission, Washington, DC 20555, to the Assistant General Counsel for Materials Litigation and Enforcement, to the Office of Enforcement at the same address, to the Regional Administrator for NRC Region III, at the address specified in Appendix A to 10 CFR Part 73, and to the Licensee if the answer or hearing request is by a person other than the Licensee. Because of possible delays in delivery of mail to United States Government offices, it is requested that answers and requests for hearing be transmitted to the Secretary of the Commission either by means of facsimile transmission to 301-415-1101 or by e-mail to hearingdocket@nrc.gov and also to the Office of the General Counsel either by means of facsimile to 301-415-3725 or by e-mail to OGCMailCenter@nrc.gov. If a person other than the Licensee requests a hearing, that person shall set forth with particularity the manner in which his interest is adversely affected by this Order and shall address the criteria set forth in 10 CFR 2.309.

If a hearing is requested by the Licensee or a person whose interest is adversely affected, the Commission will issue an Order designating the time and place of any hearing. If a hearing is held, the issue to be considered at such hearing shall be whether this Order should be sustained.

Pursuant to 10 CFR 2.202(c)(2)(i), the Licensee, may, in addition to demanding a hearing, at the time the answer is filed or sooner, move the presiding officer to set aside the immediate effectiveness of the Order on the grounds that the Order, including the need for immediate effectiveness, is not based on adequate evidence but on mere suspicion, unfounded allegations, or error.

In the absence of any request for hearing, or written approval of an extension of time in which to request a hearing, the provisions specified in Section III above shall be final twenty (20) days from the date of this Order

without further order or proceedings. If an extension of time for requesting a hearing has been approved, the provisions specified in Section III shall be final when the extension expires if a hearing request has not been received. *An answer or a request for hearing shall not stay the immediate effectiveness of this order.*

Dated this 12th day of February, 2007.

For the Nuclear Regulatory Commission.

Charles L. Miller,

Director, Office of Federal and State Materials and Environmental Management Programs.

NUCLEAR WASTE TECHNICAL REVIEW BOARD

Board Panel Meeting

March 14, 2007—Berkeley, California; The U.S. Nuclear Waste Technical Review Board's Panel on Postclosure Performance will meet to discuss U.S. Department of Energy studies related to infiltration at Yucca Mountain in Nevada.

Pursuant to its authority under section 5051 of Public Law 100-203, Nuclear Waste Policy Amendments Act of 1987, the U.S. Nuclear Waste Technical Review Board will meet in Berkeley, California, on Wednesday, March 14, 2007. The meeting agenda will focus on the U.S. Department of Energy's (DOE) infiltration estimates for the proposed repository site for spent

nuclear fuel and high-level radioactive waste at Yucca Mountain in Nevada. The Board will review the results of new infiltration studies undertaken by DOE. DOE conducted the new studies because of quality assurance questions that were raised about DOE's previous infiltration analyses. Information from the meeting will be used by the Board to evaluate effects of the new analyses on the technical validity of DOE infiltration estimates. The Board is charged by Congress with reviewing the technical and scientific validity of activities undertaken by DOE related to nuclear waste disposal, as stipulated in the Nuclear Waste Policy Amendments Act of 1987.

The meeting will be held at the Doubletree Hotel & Executive Meeting Center, 200 Marina Blvd.; Berkeley, CA 94710; tel: 510-548-7920; fax: 510-548-7944. A block of rooms has been reserved at the hotel for meeting participants. When making a reservation, please state that you are attending the Nuclear Waste Technical Review Board meeting. Reservations should be made by February 23, 2007, to ensure receiving the meeting rate.

The meeting is scheduled to begin at 8 a.m. and to conclude at approximately 6 p.m. Presentations will be made by technical and scientific investigators from the University of Nevada-Reno, the U.S. Geological Survey, and DOE and its contractors.

Time will be set aside at the end of the meeting for public comments. Those wanting to speak are encouraged to sign the "Public Comment Register" at the check-in table. A time limit may have to be set on individual remarks, but written comments of any length may be submitted for the record. Interested parties also will have the opportunity to submit questions in writing to the Board. Questions submitted by meeting attendees that are relevant to the discussion may be posed by Board members, as time permits.

A final agenda detailing meeting times, topics, and participants is available on the Board's Web site, <http://www.nwtrb.gov>. Copies of the meeting agenda also can be requested by telephone.

Transcripts of the meetings will be available on the Board's Web site, by e-mail, on computer disk, and on a library-loan basis in paper format from Davonya Barnes of the Board's staff, beginning on April 9, 2007.

For more information, please contact Karyn Severson, NWTRB External Affairs, 2300 Clarendon Blvd., Suite 1300; Arlington, VA 22202; tel: 703-235-4473; fax: 703-235-4495; severson@nwtrb.gov.
