### Agricultural Marketing Service

*Title:* Seed Service Testing Program.

*OMB Control Number:* 0581-0140.

*Summary of Collection:* The Agricultural Marketing Act (AMA) of 1946, as amended by 7 U.S.C. 1621 authorizes the Secretary to inspect and certify the quality of agricultural products and collect such fees as reasonable to cover the cost of service rendered. The purpose of the voluntary program is to promote efficient, orderly marketing of seeds and assist in the development of new and expanding markets. Under the program, samples of agricultural and vegetable seeds submitted to the Agricultural Marketing Service (AMS) are tested for factors such as purity and germination at the request of the applicant for the service. The Testing Section of the Seed Regulatory and Testing Branch of AMS that test the seed and issues the certificates is the only Federal seed testing facility that can issue the Federal Seed Analysis Certificate.

*Need and Use of the Information:*

Applicants generally are seed firms who use the seed analysis certificates to represent the quality of seed lots to foreign customers according to the terms specified in contracts of trade. The only information collected is information needed to provide the service requested by the applicant. Applicants must provide information such as the kind and quantity of seed, tests to be performed, and seed treatment if present, along with a sample of seed in order for AMS to provide the service. Only authorized AMS employees used the information collected to track, test, and report test results to the applicant. If the information were not collected, AMS would not know which test to conduct or would not be able to relate the test results with a specific lot of seed.

*Description of Respondents:* Business or other for-profit; Farms; State, Local or tribal Government.

*Number of Respondents:* 53.

*Frequency of Responses:* Reporting; On occasion.
