

From FY 1999 through FY 2004, grants of \$1 million to \$3 million annually for 3 years were awarded to 190 LEAs, for a total of \$916 million. Approximately 40 new SS/HS grants were awarded in FY 2005. These grants are providing support for rural, tribal, suburban, and urban communities that include diverse racial and ethnic groups across the country.

In compliance with the Government Performance and Results Act (GPRA) of 1993, grantees are required to collect and report data that measure the results of the programs implemented with this grant. Specifically, grantees are required to collect and report information on the following GPRA indicators:

1. The percentage of SS/HS grant sites that experience a decrease in the number of violent incidents at schools.
2. The percentage of SS/HS grant sites that experience a decrease in substance abuse.
3. The percentage of SS/HS grant sites that improve school attendance.

4. The percentage of SS/HS grant sites that increase mental health services to students and families.

In addition to GPRA measures, the Federal Evaluation Work Group of the Safe School/Healthy Students (SS/HS) Initiative national evaluation, comprised of Federal officials representing the U.S. Departments of Education, Health and Human Services, and Justice, determined that information on changes in school climate is also required to provide a direct basis of comparison for performance with subsequent cohorts of grantees. Although GPRA measures monitor changes in individual outcomes among students, GPRA measures have been found to provide an incomplete metric of performance in terms of observed in changes in overall "school climate."

The SS/HS National Evaluation Team proposes to adopt the staff version of the California Healthy Kids Survey for this purpose. This instrument contains 43 multiple choice questions that are used to obtain school staff perceptions of student behavior and attitudes, school

programs and policies, and the overall school climate as they relate to student well-being and learning. It deals with such issues as truancy, safety, harassment, substance abuse, school connectedness and learning supports. The instrument, modified slightly to form the SS/HS School Climate Survey, will track changes in school climate in schools targeted for program services under the SS/HS Initiative. In the absence of the School Climate Survey, there would be no common, cross-site measure of performance across SS/HS initiative grantees. In practice, the School Climate Survey will be administered electronically among approximately 67,500 local educational system employees. These employees will be encouraged to log onto a Web site during each year that their school benefits from the grant to answer questions concerning their perception of student behavior and safety at the school.

The burden estimate for the annual survey is as follows:

Number of respondents	Responses per respondent	Burden/response (hours)	Total annual burden (hours)
70,875	1	0.117	8,269

Written comments and recommendations concerning the proposed information collection should be sent by April 4, 2007 to: SAMHSA Desk Officer, Human Resources and Housing Branch, Office of Management and Budget, New Executive Office Building, Room 10235, Washington, DC 20503; due to potential delays in OMB's receipt and processing of mail sent through the U.S. Postal Service, respondents are encouraged to submit comments by fax to: 202-395-6974.
