

since 1966. The 100-kW unit ceased operating in 2005.

k. In its PAD, MeadWestvaco stated it was evaluating its options relative to rehabilitating the 100 kW unit, or potentially increasing the overall hydraulic capacity of the facility. Pursuant to 18 CFR 5.11, MeadWestvaco filed a Proposed Study Plan on September 26, 2006. The plan included a Hydropower Redevelopment Study to evaluate the feasibility of rehabilitating the existing facility, replacing the generator units with newer models, or expanding the overall facility capacity. In its Revised Study Plan, filed January 23, 2007, MeadWestvaco withdrew the Hydropower Redevelopment Study proposal. Rather, MeadWestvaco now states that it will rehabilitate the 100-kW unit during 2007, and otherwise has no plans to upgrade or expand the project.

l. Pursuant to 18 CFR 16.7, information on the project is available at: Ms. Patricia C. Begrowicz, MeadWestvaco, 40 Willow Street, South Lee, MA 01260.

m. Willow Mill Project information is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site (<http://www.ferc.gov>), using the "eLibrary" link. Enter the docket number, excluding the last three digits in the docket number field to access the document. For assistance, contact FERC Online Support at FERCONlineSupport@ferc.gov or toll free at 1-866-208-3676, or for TTY, (202) 502-8659. Copies are also available for inspection and reproduction at the address in paragraph m.

n. Register online at <http://ferc.gov/esubscribenow.htm> to be notified via e-mail of new filing and issuances related to this or other pending projects. For assistance, contact FERC Online Support.

Magalie R. Salas,
Secretary.

California Independent System Operator Corporation; Notice Rescinding Period for Post-Technical Conference Comments

February 9, 2007.

On February 1, 2007, staff of the Federal Energy Regulatory Commission convened a technical conference to address issues related to the California Independent System Operator Corporation's (CAISO) tariff, which reflects the Market Redesign and Technology Upgrade (MRTU) program. The purpose of the technical conference was to explore and discuss the CAISO's proposed methodology for allocating transmission import capacity in conjunction with resource adequacy requirements in the MRTU Tariff. Two notices were issued prior to the technical conference providing commentors until February 16, 2007, to file post-technical conference comments with the Commission.¹

This notice rescinds the previously-announced February 16, 2007 period to file post-technical conference comments with the Commission. Instead, commentors should submit their comments with the CAISO, consistent with the directions given by the CAISO in its February 7, 2007 market notice,² in anticipation of the CAISO preparation of a tariff filing under section 205³ of the Federal Power Act setting forth a methodology for allocating transmission import capacity in conjunction with resource adequacy requirements in the MRTU Tariff.

For more information, please contact Aileen Roder at 202-502-6022, aileen.roder@ferc.gov, or Shawn Bennett at 202-502-8930, shawn.bennett@ferc.gov.

Magalie R. Salas,
Secretary.

[Docket No. AD07-7-000]

Conference on Competition in Wholesale Power Markets; Supplemental Notice of Conference

February 9, 2007.

As announced in the Notice of Conference issued on January 8, 2007, the Federal Energy Regulatory Commission (Commission) will hold the first in a series of conferences on February 27, 2007, to examine the state of competition in wholesale power markets. The first conference will be held from 9 a.m. to 4 p.m. (EST) at the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in the Commission Meeting Room. All interested persons are invited to attend, and registration is not required.

The agenda for this conference, with a list of participating panelists, is attached. In order to allot sufficient time for questions and responses, each speaker will be provided with eight (8) minutes for prepared remarks. Due to the limitation of time, slides and graphic displays (e.g., PowerPoint® presentations) will not be permitted during the conference. Presenters who wish to distribute copies of their prepared remarks or handouts should bring 100 double-sided copies to the conference. Presenters who wish to include comments, presentations, or handouts in the record for this proceeding should file their comments with the Secretary of the Commission. Comments may either be filed on paper or electronically via the eFiling link on the Commission's Web site at <http://www.ferc.gov>. Following the conference, any interested person will be permitted to file written comments in the above docket on or before March 13, 2007.

Transcripts of the conference will be immediately available from Ace Reporting Company (202-347-3700 or 1-800-336-6646) for a fee. They will be available for the public on the Commission's eLibrary system seven calendar days after FERC receives the transcript.

A free webcast of this event will be available through <http://www.ferc.gov>. Anyone with Internet access who desires to view this event can do so by navigating to www.ferc.gov's Calendar of Events and locating this event in the Calendar. The event will contain a link to its webcast. The Capitol Connection provides technical support for the free webcasts. It also offers access to this
