BLM Casper Field Office address above or telephone (307) 361-7600.

SUPPLEMENTARY INFORMATION: The FEIS analyzes and discloses to the public direct, indirect, and cumulative environmental impacts of issuing a Federal coal lease in the Wyoming portion of the Powder River Basin. The BLM is considering a coal lease issuance as a result of a December 28, 2001, application submitted by RAG Coal West, Inc. (RAG) to lease Federal coal near the Eagle Butte Mine, approximately 3 miles north of Gillette, Wyoming. RAG sold the Eagle Butte Mine to Foundation Coal West, Inc. in August 2004.

The applicant proposes to lease the tract as a maintenance tract to extend the life of their existing mining operations at the Eagle Butte Mine under the provisions of the Leasing on Application regulations at 43 CFR 3425. This tract, case number WYW155132, is referred to as the Eagle Butte West Coal Tract.

The following lands in Campbell County, Wyoming are included in the tract as applied for:

- T. 51 N., R. 72 W., 6th P.M., Wyoming.
 Section 19: lots 13, 14, 19, and 20;
 Section 20: lots 10 (S½), 11 (S½), and 12 through 15;
 Section 29: lots 1 (W½), 2 through 7, 8 (W½ and SE¼), and 9 through 16;
 Section 30: lots 5, 6, 11 through 14, 19 and 20.

Containing 1,397.64 acres more or less.

Foundation estimates that approximately 238 million tons of Federal coal are included in the tract as applied for.

The Office of Surface Mining Reclamation and Enforcement (OSM), the Land Quality and Air Quality Divisions of the Wyoming Department of Environmental Quality (WDEQ), the Wyoming Department of Transportation (WDOT), the Wyoming State Planning Office (WSPO), and the Campbell County Board of Commissioners are cooperating agencies in the preparation of the FEIS. If the tract is leased as a maintenance tract, the new lease will be incorporated into the existing mining and reclamation plan for the adjacent mine. The Secretary of the Interior (Secretary) must approve the revision to the Mineral Leasing Act (MLA) mining plan before the Federal coal can be mined. If the tract is leased, OSM is the Federal agency that would be responsible for recommending approval, approval with conditions, or disapproval of the revised MLA mining plan to the Office of the Secretary. WDEQ has entered into a cooperative agreement with the Secretary to regulate
