DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Oregon Parks and Recreation Department Habitat Conservation Plan for the Western Snowy Plover Along the Oregon Coast

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; receipt of application.

SUMMARY: The Oregon Parks and Recreation Department (OPRD) has submitted an application to the U.S. Fish and Wildlife Service (Service) for an incidental take permit (permit) pursuant to section 10(a)(1)(B) of the Endangered Species Act of 1973, as amended (ESA). As required by section 10(a)(2)(B) of the ESA, OPRD has prepared a Habitat Conservation Plan (Plan) that describes proposed actions and measures they will implement to minimize and mitigate take of the threatened western snowy plover (Charadrius alexandrinus nivosus). The permit application is related to public use and recreation, beach management, and resource management activities along Oregon's coast. The application includes the proposed Plan and a proposed Implementation Agreement (IA). The Service also announces the availability of a draft Environmental Impact Statement (DEIS) that has been prepared in response to the permit application in accordance with the requirements of the National Environmental Policy Act (NEPA). The Service is considering issuing a 25-year permit to the OPRD. The requested permit would authorize OPRD to engage in activities related to public use and recreation, beach management, and resource management activities that

may result in the incidental take of the western snowy plover.

We request comments from the public on the permit application, the Plan, the IA, and the DEIS, all of which are available for review. The Service is furnishing this notice to allow other agencies and the public an opportunity to review and comment on these documents. All comments received will become part of the public record and will be available for review pursuant to section 10(c) of the ESA. For locations to review the documents, please see the **SUPPLEMENTARY INFORMATION** section below.

DATES: Comments must be received from interested parties on or before January 4, 2008. Written comments may be sent by mail, facsimile, or e-mail to the addresses listed below.

Background: Section 9 of the ESA (16 U.S.C. 1538) and implementing regulations prohibit the "take" of fish and wildlife species listed as endangered or threatened. The term "take" is defined under the ESA to mean harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct (16 U.S.C. 1532). "Harm" is defined by Service regulation to include significant habitat modification or degradation where it actually kills or injures listed wildlife by significantly impairing essential behavioral patterns, including breeding, feeding, and sheltering (50 CFR 17.3(c)). However, under limited circumstances, the Service may issue permits to authorize "incidental take" of listed species. Incidental take is defined by the ESA as take that is incidental to, and not the purpose of, carrying out an otherwise lawful activity. Regulations governing incidental take permits for threatened and endangered species are found at 50 CFR 17.32 and 17.22, respectively.

The OPRD has management responsibility on all Oregon coastal beaches, which extend approximately 230 miles, for such activities as public use and recreation, beach management conducted by OPRD staff, and natural resource management. These activities may result in the incidental take of the threatened western snowy plover (Charadrius alexandrinus nivosus). The OPRD has prepared a 25-year Plan that would address the incidental take of the western snowy plover caused by the above activities. This Plan forms the basis for OPRD's permit application to the Service and its implementation is discussed in the Service's DEIS.

Activities that the OPRD is proposing for permit coverage, and for which minimization and mitigation measures are described in the Plan, include:

- 1. Public Use/Recreation
- Management.
 - a. Dog-exercising.
 - b. Driving.
 - c. Kite-flying.
 - d. Non-motorized Vehicle Use.
 - e. Other Dry Sand Activities.
 - 2. Beach Management.
 - a. Public Safety.
 - b. Law Enforcement.
- c. Boat and Marine Mammal Strandings.
 - 3. Natural Resource Management.
 - a. Snowy Plover Management.
 - b. Other Habitat Restoration.

The Service formally initiated an environmental review of the proposed
