Prepare your submission in the same manner as you would if filing on paper and save it to a file on your hard drive. Before you can file comments you will need to create an account by clicking on "Login to File" and then "New User Account." You will be asked to select the type of filing you are making. This filing is considered a "Comment on Filing."

Becoming an Intervenor

In addition to involvement in the EA scoping process, you may want to become an official party to the proceeding known as an "intervenor". Intervenor play a more formal role in the process. Among other things, intervenors have the right to receive copies of case-related Commission documents and filings by other intervenors. Likewise, each intervenor must send one electronic copy (using the Commission's e-Filing system) or 14 paper copies of its filings to the Secretary of the Commission and must send a copy of its filings to all other parties on the Commission's service list for this proceeding. If you want to become an intervenor you must file a motion to intervene according to Rule 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.214). Only intervenors have the right to seek rehearing of the Commission's decision.

Affected landowners and parties with environmental concerns may be granted intervenor status upon showing good cause by stating that they have a clear and direct interest in this proceeding which would not be adequately represented by any other parties. You do not need intervenor status to have your environmental comments considered.

Additional Information

Additional information about the project is available from the Commission's Office of External Affairs at 1-866-208 FERC (3372) or on the FERC Internet Web site (<http://www.ferc.gov>). Using the "eLibrary" link, select "General Search" from the eLibrary menu, enter the selected date range and "Docket Number" (i.e., CP07-81-000), and follow the instructions. For assistance with access to eLibrary, the helpline can be reached at 1-866-208-3676, TTY (202) 502-8659, or at FERCOnlineSupport@ferc.gov. The eLibrary link on the FERC Internet Web site also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rule makings.

In addition, the Commission now offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries and direct links to the documents. ENVIRONMENTAL PROTECTION AGENCY

[GA-78-200703; FRL-8296-1]

Adequacy Status of the Atlanta Early Progress 8-Hour Ozone Motor Vehicle Emission Budgets for Transportation Conformity Purposes

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of adequacy.

SUMMARY: In this notice, EPA is notifying the public that we have found that the Motor Vehicle Emissions Budgets (MVEBs) in the Atlanta Early Progress State Implementation Plan (SIP), submitted on January 16, 2007, by the Georgia Environmental Protection Division (GA EPD) of the Georgia Department of Natural Resources, are adequate for transportation conformity purposes. As a result of EPA's finding, the Atlanta area must use the MVEBs from the January 16, 2007, Atlanta Early Progress SIP for future conformity determinations for the 8-hour ozone standard.

DATES: These MVEBs are effective April 24, 2007.

FOR FURTHER INFORMATION CONTACT:

Lynorae Benjamin, Environmental Engineer, U.S. Environmental Protection Agency, Region 4, Air Planning Branch, Air Quality Modeling and Transportation Section, 61 Forsyth Street, SW., Atlanta, Georgia 30303. Ms. Benjamin can also be reached by telephone at (404) 562-9040, or via electronic mail at benjamin.lynorae@epa.gov. The finding is available at EPA's conformity Web site: <http://www.epa.gov/otaq/stateresources/transconf/cursips.htm>.

SUPPLEMENTARY INFORMATION:

Background

Today's notice is simply an announcement of a finding that EPA has already made. EPA Region 4 sent a letter to GA EPD on January 24, 2007, stating that the MVEBs in the Atlanta Early Progress SIP, submitted on January 16, 2007, are adequate. The Atlanta 8-hour ozone nonattainment area is comprised of the following twenty counties: Barrow, Bartow, Carroll, Cherokee, Clayton, Cobb, Coweta, DeKalb, Douglas, Fayette, Forsyth, Fulton, Gwinnett, Hall, Henry, Newton, Paulding, Rockdale, Spalding and Walton. EPA's adequacy comment period ran from October 30, 2006, through November 29, 2006. During EPA's adequacy comment period no adverse comments were received. This finding has also been announced on EPA's conformity Web site: <http://www.epa.gov/otaq/stateresources/transconf/pastsips.htm>. The adequate MVEBs are provided in the following table:

ATLANTA 8-HOUR OZONE MVEBS
[Tons per day]

	2006
VOC	306.75
NO _x	172.27

Transportation conformity is required by section 176(c) of the Clean Air Act, as amended in 1990. EPA's conformity rule requires that transportation plans, programs and projects conform to state air quality implementation plans and establishes the criteria and procedures for determining whether or not they do. Conformity to a SIP means that transportation activities will not produce new air quality violations, worsen existing violations, or delay timely attainment of the national ambient air quality standards.

The criteria by which EPA determines whether a SIP's MVEBs are adequate for

transportation conformity purposes are outlined in 40 Code of Federal Regulations 93.118(e)(4). We have described the process for determining the adequacy of submitted SIP budgets in our July 1, 2004, final rulemaking entitled, "Transportation Conformity Rule Amendments for the New 8-hour Ozone and PM_{2.5} National Ambient Air Quality Standards and Miscellaneous Revisions for Existing Areas; Transportation Conformity Rule Amendments: Response to Court Decision and Additional Rule Changes" (69 FR 40004). Please note that an adequacy review is separate from EPA's completeness review, and it also should not be used to prejudge EPA's ultimate approval of the SIP. Even if EPA finds the MVEBs adequate, the Agency may later determine that the SIP itself is not approvable.

On December 22, 2006, the U.S. Court of Appeals for the District of Columbia Circuit issued a decision on EPA's Phase I rule implementing the 1997 8-hour ozone National Ambient Air Quality Standard (NAAQS) (D.C. Cir. No. 04-1200). EPA is currently analyzing the decision in detail. EPA's adequacy finding on the MVEBs in the Early Progress SIP for the Atlanta 8-hour nonattainment area is not affected by the court's decision and does not address any other requirements that may be affected by the decision. EPA's adequacy finding determines only that the budgets are adequate for the specific purpose submitted, and provides no conclusions on what requirements may ultimately apply in the area as a result of the court decision.
