BILLING CODE 7535-01-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CFR Part 520

Oral Dosage Form New Animal Drugs; Fenbendazole Paste

AGENCY: Food and Drug Administration, HHS.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the animal drug regulations to reflect approval of two supplemental new animal drug applications (NADAs) filed by Intervet, Inc. The supplemental NADAs provide for a revised human food safety warning for fenbendazole paste, used for the control of various internal parasites in horses and cattle.

DATES: This rule is effective March 9, 2007.

FOR FURTHER INFORMATION CONTACT: Melanie R. Berson, Center for Veterinary Medicine (HFV-110), Food and Drug Administration, 7500 Standish Pl., Rockville, MD 20855, 301 827 7540, e-mail: melanie.berson@fda.hhs.gov.

SUPPLEMENTARY INFORMATION: Intervet, Inc., P.O. Box 318, 29160 Intervet Lane,

Millsboro, DE 19966, filed a supplement to NADA 120-648 that provides for use of PANACUR (fenbendazole) Paste in horses for the control of various internal parasites, and to NADA 132-872 that provides for use of SAFE-GUARD (fenbendazole) Paste in cattle for the control of various internal parasites. The supplemental NADAs provide for a revised human food safety warning on product labeling. The supplemental NADAs are approved as of February 8, 2007, and the regulations are amended in 21 CFR 520.905c to reflect the approval and a current format.

Approval of these supplemental NADAs did not require review of additional safety or effectiveness data or information. Therefore, a freedom of information summary is not required.

FDA has determined under 21 CFR 25.33 that this action is of a type that does not individually or cumulatively have a significant effect on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

This rule does not meet the definition of "rule" in 5 U.S.C. 804(3)(A) because it is a rule of "particular applicability." Therefore, it is not subject to the congressional review requirements in 5 U.S.C. 801-808.
