OFFICE OF PERSONNEL MANAGEMENT

5 CFR Parts 315 and 316

RIN 3206-AL29

Disabled Veterans Documentation

AGENCY: Office of Personnel Management

ACTION: Proposed rule.

SUMMARY: The Office of Personnel Management (OPM) proposes to revise its regulation regarding documentation required for noncompetitive temporary and term appointments, and conversion of 30 percent or more disabled veterans from nonpermanent appointments. The intended purpose of this change is to provide consistency with the policy of the Department of Veterans Affairs (VA).

DATES: We will consider comments received on or before October 19, 2007.

ADDRESSES: You may submit comments through the Federal eRulemaking Portal at: <http://www.regulations.gov>. All submissions received through the Portal must include the agency name and docket number or Regulation Identifier Number (RIN) for this rulemaking.

You may also send or deliver written comments to Deputy Associate Director for Talent and Capacity Policy, U.S. Office of Personnel Management, Room 6551, 1900 E Street, NW., Washington, DC 20415-9700; (202) 606-2329.

FOR FURTHER INFORMATION CONTACT: Darlene Phelps by telephone at (202) 606-0830; by TTY at (202) 606-3134; by fax at (202) 606-0390; or by e-mail at Darlene.Phelps@opm.gov.

SUPPLEMENTARY INFORMATION: The Department of Veterans Affairs (VA) considers any VA disability letter issued in 1991 or later as proof of a permanent disability, unless the letter specifically states otherwise. We are modifying sections 316.302(b)(4) and 316.402(b)(4), and 315.707(a)(2)(ii) and (iii) to be consistent with VA's policy. These modifications will clarify that a 30 percent or more disabled veteran, who has proof of disability from the VA

dated 1991 or later is eligible for a noncompetitive temporary or term appointment. The employee may be noncompetitively converted to the competitive service at any time during such an appointment. In addition, we are adding a reference to section 315.707(a)(2)(ii) and (iii) to include disability determinations from a branch of the Armed Forces, as these entities may also certify the existence of 30 percent or more disability.

E.O. 12866, Regulatory Review

This rule has been reviewed by the Office of Management and Budget in accordance with Executive Order 12866.

Regulatory Flexibility Act

I certify that this regulation will not have a significant economic impact on a substantial number of small entities because it would apply only to Federal agencies and employees.

Airworthiness Directives; DG Flugzeugbau GmbH Model DG-500MB Gliders

AGENCY: Federal Aviation Administration (FAA), Department of Transportation (DOT).

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: We propose to adopt a new airworthiness directive (AD) for the products listed above. This proposed AD results from mandatory continuing airworthiness information (MCAI) originated by an aviation authority of another country to identify and correct an unsafe condition on an aviation product. The MCAI describes the unsafe condition as:

In some cases the electric motor of the spindle drive detached itself from the spindle drive, causing the powerplant to retract itself after engine shutdown. In another case the attachment fork on the spindle drive failed with the same consequences.

The proposed AD would require actions that are intended to address the unsafe condition described in the MCAI.

DATES: We must receive comments on this proposed AD by September 19, 2007.

ADDRESSES: You may send comments by any of the following methods:

- **DOT Docket Web Site:** Go to <http://dms.dot.gov> and follow the instructions for sending your comments electronically.

Discussion

The Luftfahrt-Bundesamt (LBA), which is the aviation authority for the Federal Republic of Germany, has issued AD D-2006-060, dated March 6, 2006 (referred to after this as "the MCAI"), to correct an unsafe condition for the specified products. The MCAI states:

In some cases the electric motor of the spindle drive detached itself from the spindle drive, causing the powerplant to retract itself after engine shutdown. In another case the attachment fork on the spindle drive failed with the same consequences.

The MCAI requires you to modify the affected parts and exchange pages in the flight, maintenance, and repair manuals.

You may obtain further information by examining the MCAI in the AD docket.

Relevant Service Information

DG Flugzeugbau GmbH has issued Technical Note No. 843-24, dated January 31, 2006; Working instruction No. 1, dated January 23, 2006; Working instruction No. 2, dated January 30, 2006; Drawing 5M210, Spindle drive Stross BSA 10 assembly, issued: January 22, 2003, revised: May 19, 2006; and Drawing 5M211, Spindle drive Stross BSA 10 assembly with strengthened fork 8M233"f", issued: January 23, 2006. The actions described in this service information are intended to correct the unsafe condition identified in the MCAI.

FAA's Determination and Requirements of the Proposed AD

This product has been approved by the aviation authority of another country, and is approved for operation in the United States. Pursuant to our bilateral agreement with this State of Design Authority, they have notified us of the unsafe condition described in the MCAI and service information referenced above. We are proposing this AD because we evaluated all information and determined the unsafe condition exists and is likely to exist or develop on other products of the same type design.

Differences Between This Proposed AD and the MCAI or Service Information

We have reviewed the MCAI and related service information and, in general, agree with their substance. But we might have found it necessary to use different words from those in the MCAI to ensure the AD is clear for U.S. operators and is enforceable. In making these changes, we do not intend to differ substantively from the information provided in the MCAI and related service information.

We might also have proposed different actions in this AD from those in the MCAI in order to follow FAA policies. Any such differences are highlighted in a Note within the proposed AD.

Costs of Compliance

Based on the service information, we estimate that this proposed AD would
