

These obligations arise irregularly because they are associated with the hiring process. This collection also imposes certain annual obligations on motor carriers and employee-drivers.

Estimated Total Annual Burden: 3,254,580 hours. FMCSA arrives at this estimate through calculation of the time involved with each of the requirements of the driver qualification rules including those pertaining to the hiring of a CMV driver by a motor carrier and the safety performance history of the applicant-driver.

Background

The Motor Carrier Safety Act of 1984 (Pub. L. 98-554, Title II, 98 Stat. 2834 (October 30, 1984)) requires the Secretary of Transportation to issue regulations pertaining to CMV safety. These regulations, also issued under the authority provided by 49 U.S.C. 504, 31133, 31136, and 31502, require motor carriers to maintain a driver qualification file on each of their CMV drivers. The rules require a motor carrier to obtain and maintain specified information concerning the qualifications of each driver to operate a CMV in interstate commerce. The CMV driver is often required to produce the required information. The majority of the information is collected during the process of hiring the CMV driver and during annual reviews. This information is available to FMCSA investigators to substantiate the qualifications of drivers to operate a CMV safely in interstate commerce. A qualified driver means fewer crashes.

SUPPLEMENTARY INFORMATION:

Background

On April 6, 2007, FMCSA published a notice in the **Federal Register** (72 FR 17218), to announce that its Information Collection Request (ICR) for collecting data about motor carriers who operate small passenger-carrying commercial motor vehicles had been sent to the Office of Management and Budget (OMB) for review and approval. In the April 6th notice, the agency imposed a 30-day comment period for interested parties to comment on the survey. The comment period ended on May 7, 2007.

Purpose of Reopening the Comment Period

The comment period is being reopened to allow more time for the public to comment on this proposed survey. FMCSA is committed to obtaining information that will provide insight into the common safety and regulatory compliance challenges facing motor carriers with small passenger-carrying CMV operations. Such information provided in the comments will also be utilized by FMCSA to develop educational outreach initiatives for the affected industry segment. It is appropriate that FMCSA connect with and inform this segment of the motor carrier industry of its regulatory compliance responsibilities before implementing an enforcement program. Any information obtained will help identify specific areas of regulatory compliance that are problematic for this industry segment. The survey will also obtain needed insight about how to best provide and distribute information to the affected industry segment.
