

be costly, there will be no mandated date for achieving these changes. Agency implementation plans will be required to address the issue of when their data systems may be expected to reflect the new policy. Agency implementation plans will be posted in the RBM website no later than February 2008. Each agency's implementation plan will include the following elements:

(1) Statement of What Constitutes a Principal Investigator

Each agency will describe if its definition of PI differs in any way from the Federal-wide definition either routinely or in special solicitations.

(2) Designation of Contact PI or Project Coordinator

Each project with multiple PIs will have a Contact PI, or Project Coordinator, to whom agency program officials will direct all communications related to scientific, technical, and budgetary aspects of the project. By recognizing a person as a Contact PI or Project Coordinator, a Federal agency will not confer any difference in scientific stature to that person. Some agencies may designate a specific term for this role in their agency-specific implementation procedures, which may differ by solicitation or type of award mechanism, for example Project Coordinator, PI and Co-PIs, or Coordinating PI.

(3) Application Instructions

Each agency will specify how its standard application procedures will be modified, if necessary, to reflect the overall policy accommodating multiple PIs.

(4) PIs at Different Institutions

Agencies will use the full range of award mechanisms currently used by each agency, and institutions will have great latitude in proposing arrangements that will work best for the particular project and institutions involved.

(5) Access to Review and Award Information

Agencies will make review and award information available to all named PIs, to the extent that they provide this information to single PIs.

(6) Identification of All PIs in Public Data Systems

Agency data systems will eventually list all PIs on multiple PI projects. Agency implementation plans will address the issue of when their data

systems may be expected to reflect the new policy on listing all PIs.
