SUPPLEMENTARY INFORMATION:

Background

In an interim rule¹ effective and published in the **Federal Register** on May 18, 2007 (72 FR 27949–27951, Docket No. APHIS–2007–0051), we amended the Mexican fruit fly regulations contained in 7 CFR 301.64

through 301.64–10 (referred to below as the regulations) by quarantining a portion of Webb County, TX, and restricting the interstate movement of regulated articles from the quarantined area. The May 2007 interim rule was necessary to prevent the spread of Mexican fruit fly into noninfested areas of the United States. Comments on the interim rule were required to be received on or before July 17, 2007. We did not receive any comments.

In a second interim rule effective June 18, 2007, and published in the **Federal Register** on June 25, 2007 (72 FR 34595–34596, Docket No. APHIS–2007–0051), we amended the regulations by removing Webb County, TX, from the list of quarantined areas in § 301.64–3(c). That action relieved restrictions that were no longer necessary on the interstate movement of regulated articles from this area. Comments on the interim rule were required to be received on or before August 24, 2007. We did not receive any comments. Therefore, for the reasons given in the interim rule, we are adopting the June 2007 interim rule as a final rule.

This action also affirms the information contained in the interim rule concerning Executive Order 12866 and the Regulatory Flexibility Act, Executive Orders 12372 and 12988, and the Paperwork Reduction Act.

Further, for this action, the Office of Management and Budget has waived its review under Executive Order 12866.
