

Evaluation (OPRE) within the Administration for Children and Families (ACF) and the Office of the Assistant Secretary for Planning and Evaluation (ASPE), both within the U.S. Department of Health and Human Services (HHS), and the U.S. Department of Labor (DOL).

The HtE project is a multi-year, multi-site evaluation that employs an experimental longitudinal research design to test four strategies aimed at promoting employment among hard-to-employ populations. The four include: (1) Intensive care management and job services program for Rhode Island Medicaid recipients with serious depression; (2) job readiness training, worksite placements, job coaching, job development and other training opportunities for recent parolees in New York City; (3) pre-employment services and transitional employment for long-term participants receiving Temporary Assistance for Needy Families (TANF); and (4) two-generational Early Head Start (EHS) services providing enhanced self-sufficiency services for parents, parent skills training, and high-quality

child care for children in low-income families in Kansas and Missouri.

The purpose of the current document is to request public comment on the 36-month participant survey in Philadelphia. The research team plans to collect participant-reported surveys assessing participants' employment, education and economic outcomes, participation in employment and training services, receipt of benefits and services such as food stamps and mental health services, housing and household information, health and health care coverage, child care, and child outcomes.

The follow-up survey at the 36-month follow-up in Philadelphia will be used for the following purposes: To study the extent to which pre-employment services and transitional employment affect employment, earnings, income, and welfare dependence of low-income TANF recipients; to examine the impacts of these services on participants' health, receipt of benefits such as food stamps, Medicaid, and child-care subsidies, and participation in services such as substance abuse

treatment and mental health services; and to collect data on a wider range of outcomes measures than is available through welfare, Medicaid, Food Stamps, Social Security, and Unemployment Insurance records.

The 36-month data collection effort draws heavily from the 15-month survey conducted in this site. Materials for the 15-month data collection effort were previously submitted to OMB and were approved (OMB Control No. 0970-0276).

Respondents: TANF recipients without a high school diploma and/or recipients who have received TANF for at least 12 months.

The fielded sample of the 36-month data collection effort will be all 1,944 participants in the two program groups and the control group of the HtE project in Philadelphia. The burden estimates below assume an 80 percent response rate of the fielded sample.

The annual burden estimates are detailed below, and the substantive content of each component will be detailed in the supporting statement attached to this 30-day notice.

ANNUAL BURDEN ESTIMATES

Instrument	Number of respondents	Number of responses per respondent	Average burden hours per response	Total burden hours
Philadelphia 36-month participant survey	1,555	1	.75	1,116

Estimated Total Annual Burden Hours: 1,116.

Title: Low Income Home Energy Assistance Program (LIHEAP) Grantee Survey.
OMB No.: 0970-0076.
Description: The LIHEAP Grantee Survey is an annual data collection activity, which is sent to grantees of the 50 states and the District of Columbia

administering the Low Income Home Energy Assistance Program (LIHEAP). The survey is mandatory in order that national estimates of the sources and uses of LIHEAP funds can be calculated in a timely manner; a range can be calculated of State average LIHEAP benefits; and maximum income cutoffs for four-person households can be obtained for estimating the number of low-income households that are income eligible for LIHEAP under the State income standards.

The need for the above information is to provide the Administration and Congress with fiscal estimates in time for hearings about LIHEAP appropriations and program performance. The information also is included in the Department's annual LIHEAP Report to Congress. Survey information also will be posted on the Office of Community Services' LIHEAP website for access by grantees and other interested parties.

Respondents: 50 States and the District of Columbia.

ANNUAL BURDEN ESTIMATES

Instrument	Number of respondents	Number of responses per respondent	Average burden hours per response	Total burden hours
LIHEAP Grantee Survey	51	1	3.5	178.50

Estimated Total Annual Burden Hours: 178.50.
