

the Food Stamp Program Quality Control system. The Food and Nutrition Service (FNS), as administrator of the Food Stamp Program, requires each State agency to implement a quality control system to provide basis for determining each State agency's error rates through review of a sample of Food Stamp cases. Each State agency is responsible for the design and selection of the quality control samples and must submit a quality control sampling plan for approval to FNS. Additionally, State agencies are required to maintain case records for three years to ensure compliance with provisions of the Food Stamp Act of 1977.

Need and Use of the Information: The quality control sampling plan is necessary for FNS to monitor State operations and is essential to the determination of a State agency's error rate and corresponding entitlement to increased Federal share of its administrative costs or liability for sanctions.

Description of Respondents: State, Local, or Tribal Government; Federal Government.

Number of Respondents: 53.

Frequency of Responses:

Recordkeeping; Reporting: On occasion; Annually.

Total Burden Hours: 1,267.

Ruth Brown,

Departmental Information Collection Clearance Officer.

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

August 16, 2007.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments regarding (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection

techniques or other forms of information technology should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB),

OIRA_Submission@OMB.EOP.GOV or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling (202) 720-8958.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Food Safety and Inspection Service

Title: Specified Risk Materials.

OMB Control Number: 0583-0127.

Summary of Collection: The Food Safety and Inspection Service (FSIS) has been delegated the authority to exercise the functions of the Secretary as provided in the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601 *et seq.*), the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451 *et seq.*), and the Egg Products Inspection Act (EPIA) (21 U.S.C. 1031 *et seq.*). This statutes mandate that FSIS protect the public by ensuring that meat and poultry products are safe, wholesome, unadulterated, and properly labeled and packaged. FSIS established new, flexible procedures to actively encourage the development and use of new technologies in meat and poultry establishments and egg products plants. The new procedures will facilitate notification to the Agency of any new technology that is intended for use in meat and poultry establishments and egg products plants so that the Agency can decide whether the new technology requires a pre-use review. A pre-use review often includes an in-plant trail.

Need and Use of the Information: FSIS will collect information to determine if an in-plant trail is necessary, FSIS will request that the firm submit a protocol that is designed to collect relevant data to support the use of the new technology. To not collect this information would reduce the effectiveness of the meat, poultry, and egg products inspection program.

Description of Respondents: Business or other for-profit.

Number of Respondents: 250.

Frequency of Responses:

Recordkeeping; Reporting: On occasion.

Total Burden Hours: 8,400.

Office of the Secretary

Announcement of a Workshop on the Topic of "Future Energy Science and Education Initiatives Within the REE Mission Area"

AGENCY: Research, Education, and Economics, USDA.

ACTION: Notice of Workshop.

SUMMARY: In accordance with the section 3124a of Title 7 of the United States Code, the United States Department of Agriculture (USDA) announces an energy science and education workshop to be conducted by the Research, Education, and Economics Mission Area (REE).

DATES: The workshop will be held on September 5 and 6, 2007.

ADDRESSES: The workshop will take place at the Sheraton Crystal City Hotel, 1800 Jefferson Davis Highway, Arlington, VA 22202.

FOR FURTHER INFORMATION CONTACT: Joseph A. Dunn, PhD; telephone: (202) 720-3075; fax: (202) 690-2842; or e-mail: Joseph.Dunn@usda.gov.

SUPPLEMENTARY INFORMATION: On Wednesday, September 5, 2007, and Thursday, September 6, 2007, from 8 a.m. to 5 p.m. the REE mission area of the USDA will hold a workshop, including breakout sessions, to discuss and plan the scope and effectiveness of REE's research, extension, and economics programs as they relate to energy science and education. The purpose of this workshop is to obtain input from experts of the four REE Agencies, the Agricultural Research Service, the Cooperative State Research, Education and Economics Service, the National Agriculture Statistics Service and the Economics Research Service, along with experts from the mission area's Land-Grant partners, on energy science and education issues of high priority to the USDA and to the Nation. Particular emphasis will be placed on results from breakout sessions conducted within the workshop which
