

Notices

Federal Register

Vol. 72, No. 123

Wednesday, June 27, 2007

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

June 21, 2007.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments regarding (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB),

OIRA_Submission@OMB.EOP.GOV or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling (202) 720-8681.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to

the collection of information unless it displays a currently valid OMB control number.

Forest Service

Title: Volunteer Application for Natural Resource Agencies.
OMB Control Number: 0596-0080.
Summary of Collection: The Volunteer Act of 1972, (Pub. L. 92-300) as amended, authorizes Federal land management agencies to use volunteers and volunteer organizations to plan, develop, maintain and manage, where appropriate, trails and campground facilities, improve wildlife habitat, and perform other useful and important conservation services throughout the Nation. Agencies will collect information using the OF 301—Volunteer Application and other forms.

Need and Use of the Information: Agencies will collect the names, addresses, and certain information about individuals who are interested in public service as volunteers. The information is used by the agencies for the purpose of contacting applicants and interviewing and screening them for volunteer positions and to manage the program. If the information is not collected, participating natural resource agencies will be unable to recruit and/or screen volunteer applicants or administer/run volunteer programs that are crucial to assisting these agencies in fulfilling their missions.

Description of Respondents: Individuals or households.

Number of Respondents: 400,000.

Frequency of Responses: Reporting: Other (one time).

Total Burden Hours: 500,000.

Forest Service

Title: Predecisional Objection Process for Hazardous Fuel Reduction Projects Authorized by the Healthy Forest Restoration Act of 2003.

OMB Control Number: 0596-0172.

Summary of Collection: On December 3, 2003, President Bush signed into law the Healthy Forests Restoration Act of 2003 to reduce the threat of destructive wildfires while upholding environmental standards and encouraging early public input during review and planning processes. One of the provisions of the Act, in Section 105 requires that not later than 30 days after the date of the enactment of this Act, the Secretary of Agriculture shall promulgate interim final regulations to

establish a predecisional administrative review process. This process services as the sole means by which a person can seek administrative review regarding an authorized hazardous fuel reduction project on Forest Service (FS) land.

Need and Use of the Information: Participants in the predecisional administrative review process must provide information the FS needs to respond to their concern. This written information needs to include the objector's name, address, phone number; the name of the project; name and title of the Responsible Official, the project location; and sufficient narrative description of those parts of the project that are objected to; specific issues related to the proposed decision, and suggested remedies which would resolve the objection. The collected information will be used by the Reviewing Officer in responding to those who participate in the objection process prior to a decision by the Responsible Official. FS could not meet the intent of Congress without collecting this information.

Description of Respondents: Individuals or households; State, Local or Tribal Government; Not-for-profit institutions.

Number of Respondents: 121.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 968.

Charlene Parker,

Departmental Information Collection Clearance Officer.

BILLING CODE 3410-11-P

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

[Docket No. APHIS-2007-0027]

ArborGen, LLC; Availability of an Environmental Assessment and Finding of No Significant Impact for a Controlled Release of Genetically Engineered *Eucalyptus* Hybrids

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice.

SUMMARY: We are advising the public that the Animal and Plant Health Inspection Service has prepared an

environmental assessment for a proposed controlled field release of genetically engineered clones of *Eucalyptus* hybrids. The purpose of this release is to continue research on two constructs that confer cold tolerance from a previously approved notification and test the efficacy of a third, claimed as confidential business information. After assessing the application, reviewing pertinent scientific information, and considering comments provided by the public, we have concluded that this field release will not present a plant pest risk, nor will it have a significant impact on the quality of the human environment. Based on its finding of no significant impact, the Animal and Plant Health Inspection Service has determined that an environmental impact statement need not be prepared for this field release.

DATES: *Effective Date:* June 28, 2007.

ADDRESSES: You may read the environmental assessment (EA), finding of no significant impact (FONSI), and any comments we received on the EA in our reading room, which is located in room 1141 of the USDA South Building, 14th Street and Independence Avenue, SW., Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 690-2817 before coming. The EA, FONSI and decision notice, and responses to comments are available on the Internet at http://www.aphis.usda.gov/brs/aphisdocs/06_325111r_ea.pdf.

FOR FURTHER INFORMATION CONTACT: Dr. Levis Handley, Biotechnology Regulatory Services, APHIS, 4700 River Road Unit 147, Riverdale, MD 20737-1236; (301) 734-5721. To obtain copies of the EA, FONSI, and response to comments, contact Ms. Cynthia Eck at (301) 734-0667; e-mail: cynthia.a.eck@aphis.usda.gov.

SUPPLEMENTARY INFORMATION: The regulations in 7 CFR part 340, "Introduction of Organisms and Products Altered or Produced Through Genetic Engineering Which Are Plant Pests or Which There Is Reason to Believe Are Plant Pests," regulate, among other things, the introduction (importation, interstate movement, or release into the environment) of organisms and products altered or produced through genetic engineering that are plant pests or that there is reason to believe are plant pests. Such genetically engineered organisms and products are considered "regulated articles." A permit must be obtained or a notification acknowledged before a regulated article may be introduced. The

regulations set forth the permit application requirements and the notification procedures for the importation, interstate movement, or release in the environment of a regulated article.

On November 21, 2006, the Animal and Plant Health Inspection Service (APHIS) received a permit application (APHIS No. 06-325-111r) from ArborGen, LLC, in Summerville, SC, for a controlled field release of genetically engineered *Eucalyptus* hybrids. Under this permit, trees planted under a previously approved notification (05-256-03n) would be allowed to flower.

Permit application 06-325-111r describes *Eucalyptus* trees engineered with three constructs. Two of these constructs are intended to confer cold tolerance and the third genetic construct is claimed as confidential business information (CBI). In addition, the trees have been engineered with a selectable marker gene, also claimed as CBI. These DNA sequences were introduced into *Eucalyptus* trees using disarmed *Agrobacterium tumefaciens*. The subject *Eucalyptus* trees are considered regulated articles under the regulations in 7 CFR part 340 because they were created using donor sequences from plant pests.

On April 20, 2007, APHIS published a notice¹ in the **Federal Register** (72 FR 19876-19877, Docket No. APHIS 2007-0027) announcing the availability of an environmental assessment (EA) for a controlled release of genetically engineered *Eucalyptus* hybrids. During the 30-day comment period, which ended May 21, 2007, APHIS received 270 comments. There were 153 comments supporting APHIS granting permit 06-325-111r, the majority of which were nearly identical form letters. Respondents supporting the approval of the permit were foresters, paper and packaging companies, or from related industries, academia, agricultural biotech companies, and individuals. There were 67 respondents who submitted 102 comments opposed to APHIS granting the permit. One opposing comment came in the form of a petition bearing 5,495 signatories. Respondents opposing APHIS granting this permit were primarily from 13 public interest groups; other respondents included academia and individuals. APHIS has addressed the issues raised during the comment

¹To view the notice and the comments we received go to <http://www.regulations.gov>, click on the "Advanced Search" tab, and select "Docket Search." In the Docket ID field, enter APHIS-2007-0027, then click "Submit." Clicking on the Docket ID link in the search results page will produce a list of all documents in the docket.

period and has provided responses to these comments as an attachment to the finding of no significant impact (FONSI).

Pursuant to the regulations promulgated under the Plant Protection Act, APHIS has determined that this field release will not pose a risk of introducing or disseminating a plant pest. Additionally, based upon analysis described in the EA, APHIS has determined that the action proposed in Alternative C of the EA, issue the permit with supplemental permit conditions, will not have a significant impact on the quality of the human environment. You may read the FONSI and decision notice on the Internet or in the APHIS reading room (see **ADDRESSES** above). Copies may also be obtained from the person listed under the **FOR FURTHER INFORMATION CONTACT** section of this notice.

To provide the public with documentation of APHIS' review and analysis of any potential environmental impacts and plant pest risks associated with the proposed release of these *Eucalyptus* trees, an EA and FONSI have been prepared. The EA and FONSI were prepared in accordance with (1) The National Environmental Policy Act of 1969 (NEPA), as amended (42 U.S.C. 4321 *et seq.*), (2) regulations of the Council on Environmental Quality for implementing the procedural provisions of NEPA (40 CFR parts 1500-1508), (3) USDA regulations implementing NEPA (7 CFR part 1b), and (4) APHIS' NEPA Implementing Procedures (7 CFR part 372).

Authority: 7 U.S.C. 7701-7772 and 7781-7786; 31 U.S.C. 9701; 7 CFR 2.22, 2.80, and 371.3.

Done in Washington, DC, this 25th day of June 2007.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.
