BILLING CODE 6210-01-S

GENERAL SERVICES ADMINISTRATION

[GSA Bulletin FMR 2007-B3]

Assessment of Fees and Recovery of Costs for Antennas of Federal Agencies and Public Service Organizations

AGENCY: General Services Administration.

ACTION: Notice of bulletin.

SUMMARY: The attached bulletin cancels and replaces GSA Bulletin FPMR D-246, Assessment of Fees and Recovery of Costs for Antennas of Federal Agencies and Public Service Organizations. This bulletin provides all

Federal agencies with general guidelines for assessing antenna placement fees on other Federal agencies, State and local government agencies, and charitable, public service and public safety, and non-profit organizations. It contains much of the same guidance as GSA Bulletin FMR 2007-B2, and includes updated information concerning the assessment of fees and recovery of costs in connection with the placement of antennas on Federal property.

EFFECTIVE DATE: September 10, 2007.

FOR FURTHER INFORMATION CONTACT:

Stanley C. Langfeld, Director, Regulations Management Division, Office of Governmentwide Policy, 202-501-1737, or stanley.langfeld@gsa.gov.

Dated: August 28, 2007

Kevin Messner

Acting Associate Administrator, Office of Governmentwide Policy

Real Property

TO: Heads of Federal agencies
SUBJECT: Assessment of fees and recovery of costs for antennas of Federal agencies and public service organizations

1. Purpose. This bulletin provides all Federal agencies with general guidelines for assessing antenna placement fees on other Federal agencies, State and local government agencies, and charitable, public service and public safety, and non-profit organizations. State and local government agencies, charitable, public service and public safety, and non-profit organizations are referred to as "public service organizations" throughout this bulletin. (The use of the phrase "public service organization" is not intended to include Federal organizations or agencies, even though such organizations may also provide public services.)

While there may be other agency-specific statutory provisions that authorize Federal agencies to perform certain tasks, studies, surveys, or analyses when making their property available to other Federal agencies and the general public, this bulletin is intended to identify several typical costs and common authorities.

This bulletin is not a grant of authority, but merely a source of informational guidance. It contains much of the same guidance as GSA Bulletin FMR 2007-B2, and includes updated information concerning the assessment of fees and recovery of costs in connection with the placement of antennas on Federal property. It is recommended that Federal agencies consult their legal counsel prior to

instituting any action relating to this bulletin.

2. Expiration. This bulletin contains information of a continuing nature and will remain in effect until canceled.

3. Background.

a. The use of wireless telecommunications equipment has been increasing and is expected to continue to increase in the future. The Telecommunications Act of 1996 recognizes the increasing importance of wireless telecommunications services and provides guidance for the rapid deployment of new telecommunications technologies.

b. The General Services Administration (GSA), Office of Governmentwide Policy (OGP), has taken a leadership role concerning the Federal Government's policy on the placement of wireless telecommunications equipment on Federal real property.

c. On March 14, 2007, based on input from an evaluation panel representing several landholding Federal agencies, GSA published in the **Federal Register** GSA Bulletin FMR 2007-B2, "Placement of Commercial Antennas on Federal Property" (72 FR 11881). The bulletin provides updated guidance on evaluating requests for siting telecommunications service antennas on Federal property.

d. This bulletin is in furtherance of the efforts of the interagency evaluation panel to provide guidance to Executive agencies on the assessment of fees for antennas and other related equipment that are dependent in whole or in part on the Federal spectrum rights for their transmissions. This guidance is focused generally on the placement of antennas belonging to other Federal agencies and certain public service organizations. Much of this guidance also may be useful when considering locating antennas and assessing fees for antenna placements on Federal property for other types of wireless telecommunications transmissions.

e. The Federal Communications Commission regulates the conditions and procedures under which communications entities offer and operate domestic wireless communications. This bulletin is intended to serve only as guidance on the assessment of fees and recovery of costs for locating antennas of other Federal agencies and certain public service organizations on Federal property.

f. The Administrator of GSA is authorized and directed to charge for all space and services provided to Federal agencies in accordance with 40 U.S.C.
