IV. What is the Agency's Authority for Taking this Action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or amended to terminate one or more uses. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, following the public comment period, the Administrator may approve such a request.

V. Procedures for Withdrawal of Request and Considerations for Reregistration of Amitraz

Registrants who choose to withdraw a request for cancellation must submit such withdrawal in writing to the person listed under **FOR FURTHER INFORMATION CONTACT**, postmarked before November 19, 2007. This written withdrawal of the request for cancellation will apply only to the applicable FIFRA section 6(f)(1) request listed in this notice. If the product(s) have been subject to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier cancellation action are controlling.

VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which were packaged, labeled, and released for shipment prior to the effective date of the cancellation action.

In any order issued in response to this request for voluntary cancellation, the Agency proposes to allow Virbac to ship, sell and distribute their Amitraz-Pyriproxyfen Flea and Tick Collar for Dogs and Puppies #1 (EPA Reg. No. 2382-170) for 12 months after publication of the cancellation order.

If the request for voluntary cancellation is granted as discussed in this unit, the Agency intends to issue a cancellation order that will allow persons other than the registrant to continue to sell and/or use existing stocks of cancelled products until such stocks are exhausted, provided that such use is consistent with the terms of the previously approved labeling on, or that accompanied, the cancelled product.

The order will specifically prohibit any use of existing stocks that is not consistent with such previously approved labeling. If, as the Agency currently intends, the final cancellation order contains the existing stocks provision just described, the order will be sent only to the affected registrants of the cancelled products. If the Agency determines that the final cancellation order should contain existing stocks provisions different than the ones just described, the Agency will publish the cancellation order in the **Federal Register**.

OFFICE OF SCIENCE AND TECHNOLOGY POLICY

Aeronautics Science and Technology Subcommittee; Committee on Technology; National Science and Technology Council

ACTION: Request for review and comment on draft high-priority national aeronautics research and development (R&D) challenges, goals and objectives and notice of meeting.

Background: The Aeronautics Science and Technology Subcommittee (ASTS) of the National Science and Technology Council's (NSTC) Committee on Technology (COT) will post a draft of the high-priority national aeronautics R&D challenges, goals and objectives and request public comment. These challenges, goals and objectives will provide the foundation for a plan for national aeronautics R&D and for related research, development, test and evaluation (RDT&E) infrastructure (Plan). Executive Order (E.O.) 13419—National Aeronautics Research and Development—signed December 20, 2006, calls for the development of this Plan and further directs biennial updates. The Plan is to be guided by the National Aeronautics Research and Development Policy (Policy) that was prepared by the National Science and Technology Council and endorsed by E.O. 13419. [Both the Policy and E.O. 13419 are available via: <http://www.ostp.gov/nstc/aeroplans/>]. The draft high-priority national aeronautics R&D challenges, goals and objectives for the Plan originate from the Principles detailed in the Policy (with the exception of the aviation security and workforce principles, which are under consideration in different venues). A public meeting (detailed below) will be held in conjunction with this request for comments.

Request for Review and Comment: E.O. 13419 and the National Aeronautics R&D Policy call for executive departments and agencies (D&A) conducting aeronautics R&D to engage industry, academia and other non-Federal stakeholders in support of government planning and performance of aeronautics R&D. The purposes of this posting are to provide notice of request for comments on the draft high-

priority national aeronautics R&D challenges, goals and objectives as they relate to federal government activities in this area, including RDT&E infrastructure.

Posting, Date and Web Site Address: The draft national aeronautics R&D challenges, goals and objectives will be posted by COB on October 22, 2007 at: <http://www.ostp.gov/nstc/aeroplans/>.

Submission of Comments: A spreadsheet will be provided for submission of comments at <http://www.ostp.gov/nstc/aeroplans/>. Comments must be returned to: aero-rd-comments1@ostp.gov by 1 p.m. EST, Wednesday, November 7, 2007. Readers are advised that comments provided after the deadline or provided in a format other than the prescribed spreadsheet may not be considered. Readers are also advised that the scope of this request is general in nature and does not include proprietary equipment, technologies, programs, and/or specific facilities.

Notice of Meeting: The ASTS of the NSTC COT will hold a public meeting to provide background, answer questions, and receive comments on the draft national aeronautics R&D challenges, goals, and objectives. The meeting will be held on Thursday, October 25, 2007 from 2 p.m.—4 p.m. (EST) in the auditorium of the National Aeronautics and Space Administration (NASA) Headquarters Building (300 E Street, SW., Washington, DC 20546 (please enter through the West entrance)). Attendees may be requested to present a valid, government issued, picture identification for entry. For individuals who prefer to phone into the meeting, a listen-only telephone bridge is planned. The telephone number, access code and further details will be made available at <http://www.ostp.gov/nstc/aeroplans/> prior to the public meeting. Seating and phone lines are limited and will be available on a first-come, first-served basis. Registration is not required.

FOR FURTHER INFORMATION CONTACT: William Davis, National Science and Technology Council, Office of Science and Technology Policy, New Executive Office Building, Washington, DC 20502—telephone (202) 456-6012. Additional information is also available at the Office of Science and Technology Policy NSTC Web site at: <http://www.ostp.gov/nstc/aeroplans/>.
