#### SUPPLEMENTARY INFORMATION:

**Background.**—The final phase of this investigation is being scheduled as a result of an affirmative preliminary determination by the Department of Commerce that imports of sodium hexametaphosphate from China are being sold in the United States at less than fair value within the meaning of section 733 of the Act (19 U.S.C. 1673b). The investigation was requested in a petition filed on February 8, 2007, by ICL Performance Products, LP (St. Louis, MO) and Innophos, Inc. (Cranbury, NJ).

**Participation in the investigation and public service list.**—Persons, including industrial users of the subject merchandise and, if the merchandise is sold at the retail level, representative consumer organizations, wishing to participate in the final phase of this investigation as parties must file an entry of appearance with the Secretary to the Commission, as provided in section 201.11 of the Commission's rules, no later than 21 days prior to the hearing date specified in this notice. A party that filed a notice of appearance during the preliminary phase of the investigation need not file an additional notice of appearance during this final phase. The Secretary will maintain a public service list containing the names and addresses of all persons, or their representatives, who are parties to the investigation.

**Limited disclosure of business proprietary information (BPI) under an administrative protective order (APO) and BPI service list.**—Pursuant to section 207.7(a) of the Commission's rules, the Secretary will make BPI gathered in the final phase of this investigation available to authorized applicants under the APO issued in the investigation, provided that the application is made no later than 21 days prior to the hearing date specified in this notice. Authorized applicants must represent interested parties, as defined by 19 U.S.C. § 1677(9), who are parties to the investigation. A party granted access to BPI in the preliminary phase of the investigation need not reapply for such access. A separate service list will be maintained by the

Secretary for those parties authorized to receive BPI under the APO.

**Staff report.**—The prehearing staff report in the final phase of this investigation will be placed in the nonpublic record on January 9, 2008, and a public version will be issued thereafter, pursuant to section 207.22 of the Commission's rules.

Requests to appear at the hearing should be filed in writing with the Secretary to the Commission on or before January 15, 2008. A nonparty who has testimony that may aid the Commission's deliberations may request permission to present a short statement at the hearing. In addition, any person who has not entered an appearance as a party to the investigation may submit a written statement of information pertinent to the subject of the investigation, including statements of support or opposition to the petition, on or before January 31, 2008. On February 15, 2008, the Commission will make available to parties all information on which they have not had an opportunity to comment. Parties may submit final comments on this information on or before February 20, 2008, but such final comments must not contain new factual

information and must otherwise comply with section 207.30 of the Commission's rules. ### Notice of Lodging of a Consent Decree Pursuant to the Clean Water Act

Notice is hereby given that a proposed Consent Decree in *United States of*

*America and the State of Tennessee v. Metropolitan Government of Nashville and Davidson County*, Civ. No. 3:07-CV-1056 was lodged on October 24, 2007, with the United States District Court for the Middle District of Tennessee, Nashville Division.

The proposed Consent Decree would resolve certain claims under Sections 301 and 402 of the Clean Water Act, 33 U.S.C. 1251, *et seq.*, against the Metropolitan Government of Nashville and Davidson County ("Metro"), through the performance of injunctive measures, the payment of a civil penalty, and the performance of Supplemental Environmental Projects ("SEPs"). The United States, and the State of Tennessee, which has filed its own complaint against Metro (*State of Tennessee v. Metropolitan Government of Nashville and Davidson County*, Civ. No. 3:07-CV-1057 (USDA M.D. TN)), allege that Metro is liable as a person who has discharged a pollutant from a point source to navigable water of the United States without a permit and, in some cases, in excess of permit limitations.

The proposed Consent Decree would resolve the liability of Metro for the violations alleged in the complaints filed in these matters. To resolve these claims, Metro would perform the injunctive measures as described in the proposed Consent Decree; would pay a civil penalty of \$564,038 (\$282,019 to the United States Treasury and \$282,019 to the State of Tennessee which will use the money to fund the Cumberland River Compact); and would perform SEPs valued at \$2.8 million, which involves the extension of sewer service to areas currently served only by septic systems. The Department of Justice will receive comments relating to the proposed Consent Decree for a period of thirty (30) days from the date of this publication. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and either e-mailed to [pubcomment.ees.enrd@usdoj.gov](mailto:pubcomment.ees.enrd@usdoj.gov) or mailed to P.O.
