

Transmittal No. 08-11

**Notice of Proposed Issuance of Letter of Offer
Pursuant to Section 36(b)(1)
of the Arms Export Control Act, as amended**

**Annex
Item No. vii**

(vii) Sensitivity of Technology:

1. The E-2C aircraft contains sensitive state-of-the-art technology. Some of the hardware, publications, performance specifications, operational capabilities, parameters, vulnerabilities to countermeasures, and software documentation are classified Secret. The radar system within the E-2C aircraft, AN/APS-145, is a legacy radar system that is not considered new technology. The classified information to be provided consists of that which is necessary for the operation, maintenance, and repair (through depot level) of the E-2C aircraft and its installed systems and related software. The information to be transferred has been previously provided to the EAF to support its ongoing E-2C AEW program.

2. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures which might reduce weapon systems effectiveness or could be used in the development of a system with similar or advanced capabilities.
