[Action Affecting Export Privileges; Data Physics Corporation; In the Matter of: Data Physics Corporation; 2025 Gateway Place, Suite 260, San Jose, CA 95110, Respondent.

Order Relating to Data Physics Corporation

The Bureau of Industry and Security, U.S. Department of Commerce ("BIS") has initiated an administrative proceeding against Data Physics Corporation (hereinafter referred to as "Data Physics"), case number 06-BIS-21, through the issuance of a charging letter, pursuant to Section 766.3 of the Export Administration Regulations (currently codified as 15 CFR parts 730-774 (2007)) ("Regulations")¹ and Section 13(c) of the Export Administration Act of 1979, as amended (50 U.S.C. app. 2401-2420 (2000)) ("Act").² BIS and Data Physics have agreed to settle case 06-BIS-21 based on the following five alleged violations of the Regulations. Specifically, the charges are:

Charge 1 15 CFR 764.2(a)—Unlicensed Export to Listed Entity in China

On or about December 20, 2001, Data Physics engaged in conduct prohibited by the Regulations when it exported a DP 550 Vibration Controller, an item subject to the Regulations, to the Chinese Academy of Launch Vehicle Technology ("CALT") in the

¹ The violations charged occurred in 2001-2002. The Regulations governing the violations at issue are found in the 2001-2002 versions of the Code of Federal Regulations (15 CFR Parts 730-774 (2001-2002)). The 2007 Regulations govern the procedural aspect of the case.

² Since August 21, 2001, the Act has been in lapse and the President, through Executive Order 13222 of August 17, 2001 (3 CFR, 2001 Comp. 783 (2002)), which has been extended by successive Presidential Notices, the most recent being that of August 2, 2006 (71 Fed. Reg. 44,551 (Aug. 7, 2006)), has continued the Regulations in effect under the International Emergency Economic Powers Act (50 U.S.C. 1701-1706 (2000)) ("IEEPA").

People's Republic of China ("China"), an organization on BIS's Entity List,³ without the license required by the Department of Commerce. A licensee was required for this export under Section 744.1 and Supplement No. 4 to Part 744 of the Regulations. In so doing, Data Physics committed one violation of Section 764.2(a) of the Regulations.

Charge 2 15 CFR 764.2(e)—Acting With Knowledge of a Violation

On or about December 20, 2001, in connection with the transaction described in Charge 1 above, Data Physics sold and/or forwarded a DP 550 Vibration Controller with knowledge that a violation of the Regulations would occur in connection with the item. At all times relevant hereto, Data Physics knew or should have known that an export license was required to ship a DP 550 Vibration Controller, an item subject to the Regulation, from the United States to CALT, an entity on BIS's Entity List. Data Physics had reason to know that a license was required for this export since, *inter alia* Office of Export Enforcement ("OEE") special agents visited Data Physics in May 1999 where they informed Data Physics' Chief Technology Officer and the Director of Manufacturing and Quality Systems, on the rules and requirements regarding exports to organizations on the BIS Entity list. The Chief Technology Officer then sent an e-mail to Sri Welaratna, company president, explaining the rules and included a link to BIS's Entity List. In so doing, Data Physics committed one violation of Section 764.2(e) of the Regulations.

Charge 3 15 CFR 764.2(a)—Unlicensed Export to Listed Entity in China

On or about March 15, 2002, Data Physics engaged in conduct prohibited by the Regulations when it exported a Signalstar Vector (DP 560) vibration controller, an item subject to the Regulations, to the Beijing Automation Equipment Institute ("BACEI") in China, an organization on BIS's Entity List,⁴ without the license required by the Department of Commerce. A license was required for this export under Section 744.1 and Supplement No. 4 to Part 744 of the Regulations. In so doing, Data Physics committed one violation of Section 764.2(a) of the Regulations.

Charge 4 15 CFR 764.2(e)—Acting With Knowledge of a Violation

On or about March 15, 2002, in connection with the transaction described in Charge 3 above, Data Physics sold and/or forwarded a Signalstar Vector (DP 560) vibration controller with knowledge that a violation of the Regulations would occur in connection with the item. At all times relevant hereto, Data Physics knew or should have known hereto, Data Physics knew or should have known that an export license was required to ship a Signalstar Vector (DP 560) vibration controller, an item subject to the Regulations, from the United States to BACEI, an entity on BIS's Entity List. Data Physics had reason to know that a license was required for this

export since, *inter alia*, OEE special agents visited Data Physics in May 1999 where they informed Data Physics' Chief Technology Officer and the Director of Manufacturing and Quality Systems, on the rules and requirements regarding exports to organizations on the BIS Entity List. The Chief Technology Officer then sent an e-mail to Sri Welaratna, company president, explaining the rules and included a link to BIS's Entity List. In so doing, Data Physics committed one violation of Section 764.2(e) of the Regulations.

Charge 5 CFR 764.2(g)—False Statement on Shipper's Export Declaration

On or about March 15, 2002, in connection with the transaction described in Charges 3 and 4 above, Data Physics made a false statement to the U.S. Government in connection with the submission of an export control document. Specifically, Data Physics filed a Shipper's Export Declaration ("SED") with the U.S. Government stating that the items that were the subject of the SED qualified for export as "NLR," i.e., that no license was required. This representation was false, as a license was required for the Signalstar Vector (DP 560) vibration controller to be exported to the Beijing Automation Control Equipment Institute. In so doing, Data Physics committed one violation of Section 764.2(g) of the Regulations.

BIS and Data Physics having entered into a Settlement Agreement pursuant to Section 766.18(b) of the Regulations whereby they agreed to settle this matter in accordance with the terms and conditions set forth therein, and the terms of the Settlement Agreement having been approved by me;

It is Therefore Ordered:

First, that Data Physics shall pay a civil penalty of \$55,000 to the U.S. Department of Commerce to be paid within 30 days from the date of entry of the Order. Payment shall be made in the manner specified in the attached instructions. Additionally:

Pursuant to the Debt Collection Act of 1982, as amended 931 U.S.C. 3701-3720E (1983 and Supp. 2000)), the civil penalty owed under this Order accrues interest as more fully described in the attached Notice, and, if payment is not made by the due date specified herein, Data Physics will be assessed, in addition to the full amount of the civil penalty and interest, a penalty charge and an administrative charge, as more fully described in the attached Notice.

B. The timely payment of the civil penalty set forth above is hereby made a condition to the granting, restoration, or continuing validity of any export license, license exception, permission, or privilege granted, or to be granted, to Data Physics. Accordingly, if Data Physics should fail to pay the civil penalty in a timely manner, the undersigned may enter an Order

For purposes of this paragraph, servicing means installation, maintenance, repair, modification or testing.

F. This Order does not prohibit any export, reexport, or other transaction subject to the Regulations where the only items involved that are subject to the Regulations are the foreign-produced direct product of U.S.-origin technology.

Fourth, that, after notice and opportunity for comment as provided in Section 766.23 of the Regulations, any person, firm, corporation, or business organization related to Data Physics by affiliation, ownership, control, or position of responsibility in the conduct of trade or related services may also be made subject to the provisions of the Order
