

as a Brief *Abstract*: All law enforcement gang units in police agencies with 100 or more officers. This nationwide information collection will identify all large law enforcement agencies (those with 100 or more officers) in which there is a specialized unit staffed with full-time personnel that focuses primarily on gang activity. Information will be gathered about the operations, workload, policies, and procedures of these gang units. The information collected will provide a comprehensive look at the way in which large law enforcement agencies are organized to respond to gang problems and the types of gang prevention tactics that are employed. Summary measures of gang activity in the agencies' jurisdictions will supply some standardized metrics with which to compare jurisdictions.

(5) *An Estimate of the Total Number of Respondents and the Amount of Time Estimated for an Average Respondent to Respond*: An estimated 450 law enforcement gang units will complete a 1-hour questionnaire (LEGU-07).

(6) *An Estimate of the Total Public Burden (in hours) Associated with the Collection*: The estimated public burden associated with this collection is 450 hours. (450 data collection forms completed by a commanding officer from each unit * one hour per form = 450 burden hours).

If additional information is required contact: Mrs. Lynn Bryant, Department Clearance Officer, United States Department of Justice, Justice Management Division, Policy and Planning Staff, Patrick Henry Building, Suite 1600, 601 D Street, NW., Washington, DC 20530.

Dated: May 22, 2007.

Lynn Bryant,

*Department Clearance Officer, PRA,
Department of Justice.*
