

the delegate of the General Counsel, formally determined on May 1, 2007, pursuant to Section 10(d) of the Federal Advisory Committee Act, as amended (5 U.S.C. app. 2 §§ (1)(d)), that the portion of the meeting dealing with matters the disclosure of which would be likely to frustrate significantly implementation of an agency action as described in 5 U.S.C. 552b(c)(9)(B) shall be exempt from the provisions relating to public meetings found in 5 U.S.C. app. 2 §§ 10(a)1 and 10(a)(3). The remaining portions of the meeting will be open to the public.

For more information, call Yvette Springer at (202) 482-2813.

Dated: May 22, 2007.

Yvette Springer,

Committee Liaison Officer.

Stainless Steel Wire Rod From Sweden: Notice of Extension of Time Limit for 2005-2006 Administration Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: May 29, 2007.

FOR FURTHER INFORMATION CONTACT: Brian Smith or Gemal Brangman, AD/CVD Operations, Office 2, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone (202) 482-1766 or (202) 482-3773, respectively.

Background

On October 31, 2006, the Department published in the *Federal Register* a notice of initiation of administrative review of the antidumping duty order on stainless steel wire rod from Sweden, covering the period September 1, 2005, through August 31, 2006. See *Initiation of Antidumping and Countervailing Duty Administrative Reviews*, 71 FR 63752 (October 31, 2006). The preliminary results for this administrative review are currently due no later than June 4, 2007.¹

¹ June 4, 2007, is the next business day after 245 days from the last day of the anniversary month of the order.

Statutory Time Limits

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended ("the Act"), requires the Department of Commerce ("Department") to issue the preliminary results of an administrative review within 245 days after the last day of the anniversary month of an order for which a review is requested and a final determination within 120 days after the date on which the preliminary results are published. If it is not practicable to complete the review within the time period, section 751(a)(3)(A) of the Act allows the Department to extend these deadlines to a maximum of 365 days and 180 days, respectively.

Extension of Time Limits for Preliminary Results

The Department requires additional time to review and analyze the sales and cost information submitted by the respondent in this administrative review and, if necessary, issue an additional supplemental questionnaire. Thus, it is not practicable to complete this review within the original time limit. Therefore, the Department is partially extending the time limit for completion of the preliminary results by 90 days to 335 days, in accordance with section 751(a)(3)(A) of the Act. The preliminary results are now due no later than August 31, 2007. The final results continue to be due 120 days after publication of the preliminary results.

We are issuing and publishing this notice in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: May 21, 2007.

Stephen J. Claeys,

Deputy Assistant Secretary for Import Administration.

DEPARTMENT OF COMMERCE

International Trade Administration

Organizing "Green Manufacturing Day" for U.S. Businesses; Comment Request

ACTION: Notice and request for comments.

SUMMARY: The International Trade Administration proposes to organize a "Green Manufacturing Day", aimed at enhancing public-private interaction in the field of sustainable manufacturing. This notice seeks public input on areas of interest for discussion at the proposed "Green Manufacturing Day".

DATES: Submit comments no later than 30 days after the date of this notice.

ADDRESSES: Address all comments concerning this notice and requests to participate to William McElnea, U.S. Department of Commerce, Room 2213, 1401 Constitution Ave. NW., Washington, DC 20230 (or via the Internet at william.mcelnea@mail.doc.gov).

FOR FURTHER INFORMATION CONTACT: William McElnea, 202-482-2831.

SUPPLEMENTARY INFORMATION:

Sustainable manufacturing has garnered increasing attention among the manufacturing industry as firms have recognized its cost-effectiveness and profitability. For the purposes of this notice, "sustainable manufacturing" is defined as the creation of manufactured products that use processes that are non-polluting, conserve energy and natural resources, are economically sound, and safe for employees, communities, and consumers. At this early stage in sustainable manufacturing's development, increased public-private interaction can be an effective means for government and industry to (a) identify the opportunities and challenges faced by manufacturers in pursuing sustainable production practices and (b) promote capacity-building among individual firms and industry sectors as a whole.

The purpose of the proposed "Green Manufacturing Day", tentatively scheduled for September 2007, will be to: (1) Disseminate and promote best business practices in sustainable manufacturing, (2) assist small-and-medium-sized enterprises in identifying and implementing practical sustainable manufacturing solutions, (3) provide information on relevant emerging technologies, (4) educate participants on federal government efforts to promote sustainable manufacturing, and (5) provide information on international sustainable manufacturing initiatives, projects, and opportunities. The event will include presenters/speakers from a variety of stakeholder groups (*i.e.* private sector, government and academia) on a variety of topics relating to sustainable manufacturing.

Topic areas covered may include, but are not limited to, industrial recycling, natural resource conservation, water supply and waste-water treatment, solid-waste management, hazardous waste management, environmental assessment, environmental accounting, lean and clean manufacturing, regulatory compliance, renewable energy, remanufacturing, refurbishing/reconditioning, environmental technology research and development, and air pollution control.
