

data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Employment and Training Administration is soliciting comments concerning the proposed extension of the collection of data contained in the procedures to petition for classification as a Labor Surplus Area (LSA) under exceptional circumstances criteria. A copy of the proposed information collection request (ICR) can be obtained by contacting the office listed below in the addressee section of this notice or at this Web site: <http://www.doleta.gov/OMBCN/OMBCControlNumber.cfm>.

DATES: Written comments must be submitted to the office listed in the addressee section below on or before December 17, 2007.

ADDRESSES: Anthony D. Dais, Office of Workforce Investment, Employment and Training Administration, 200 Constitution Avenue, NW., Room S-4231, Washington, DC 20210. Telephone: (202) 693-2784 (This is not a toll-free number); fax (202) 693-3015; or e-mail [dais.anthony@dol.gov].

SUPPLEMENTARY INFORMATION:

I. Background

Under Executive Orders 12073 and 10582, and 20 CFR parts 651 and 654, The Secretary of Labor is required to classify LSAs and disseminate this information for the use of all Federal Agencies. This information is used by Federal agencies for various purposes including procurement decisions, food stamp waiver decisions, certain small business loan decisions, as well as other purposes determined by the agencies. The LSA list is issued annually, effective October 1 of each year, utilizing data from the Bureau of Labor Statistics. Areas meeting the criteria are classified as LSAs.

Department regulations specify that the Department can add other areas to the annual LSA listing under the exceptional circumstance criteria. Such additions are based upon information contained in petitions submitted by the State Workforce Agencies (SWAs) to the ETA's national office. These petitions contain specific economic information about an area in order to provide ample justification for adding the area to the LSA listing under the exceptional circumstances criteria. An area is eligible for classification as a LSA if it meets all of the criteria, and if the exceptional circumstance event is not temporary or seasonal. This data

collection pertains only to data submitted voluntarily by states exceptional circumstances petitions.

Most of the information contained the SWA LSA petitions is already available from other sources, e.g., internal reports, statistical programs, newspaper clippings, etc. The petitions are not intended to provide new (unduplicated) information but serve to bring various types of information together in a single document in order that a LSA classification determination can be made. The only information which SWAs may have to develop for use in the petition is the 12-month projections of the area's labor force and unemployment. No periodic reporting is required.

II. Review Focus

The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

III. Current Actions

Type of Review: Extension of currently approved collection. There is no reduction in burden based on an experience rate of the approved data collection period: The ETA has not received a petition since 2003.

DEPARTMENT OF LABOR

Mine Safety and Health Administration

Proposed Information Collection Request Submitted for Public Comment and Recommendations; Records of Tests and Examinations of Personnel Hoisting Equipment

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps ensure that requested data is provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed.

DATES: Submit comments on or before December 17, 2007.

ADDRESSES: Send comments to Debbie Ferraro, Management Services Division, 1100 Wilson Boulevard, Room 2171, Arlington, VA 22209-3939. Commenters are encouraged to send their comments on computer disk or via e-mail to Ferraro.Debbie@DOL.GOV. Ms. Ferraro can be reached at (202) 693-9821 (voice), or (202) 693-9801 (facsimile).

FOR FURTHER INFORMATION: Contact the employee listed in the **ADDRESSES** section of this notice.

SUPPLEMENTARY INFORMATION:

I. Background

These requirements provide for a record of specific test and inspections of a mine's personnel hoisting systems, including the wire rope, to ensure that the system remains safe to operate. Review of the record indicates whether deficiencies are developing in the equipment, in particular the wire rope,

so that corrective action may be taken before an accident occurs. The requirements also provide for a systematic procedure for the inspection, testing, and maintenance of shaft and hoisting equipment. The mine operator must certify that the required inspections, tests, and maintenance have been made then record any unsafe condition identified during the examination or test.

The precise format in which the record is kept is left to the discretion of the mine operator. All records are made by the person conducting the required examination or test. Unless otherwise noted below, these records are to be retained for one year at the mine site.

II. Desired Focus of Comments

Currently, the Mine Safety and Health Administration (MSHA) is soliciting comments concerning the proposed extension of the information collection requirement related to Records of Tests and Examinations of Personnel Hoisting Equipment. MSHA is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of MSHA's functions, including whether the information has practical utility;
- Evaluate the accuracy of MSHA's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Suggest methods to enhance the quality, utility, and clarity of the information to be collected; and
- Address the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, (e.g., permitting electronic submissions of responses) to minimize the burden of the collection of information on those who are to respond.

A copy of the proposed information collection request can be obtained by contacting the employee listed in the **ADDRESSES** section of this notice or viewed on the Internet by accessing the MSHA home page (<http://www.msha.gov/>) and selecting "Rules and Regs", then selecting "Fed Reg Docs."

III. Current Actions

The information is used by industry management and maintenance personnel to project the expected safe service performance of hoist and shaft equipment; to indicate when maintenance and specific tests need to be performed; and to ensure that wire rope attached to the personnel

conveyance is replaced in time to maintain the necessary safety for miners. Federal inspectors use the records to ensure that inspections are conducted, unsafe conditions identified early and corrected. The consequence of hoist or shaft equipment malfunctions or wire rope failures can result in serious injuries and fatalities. It is essential that MSHA inspectors be able to verify that mine operators are properly inspecting their hoist and shaft equipment and maintaining it in safe condition.

Type of Review: Extension.

Agency: Mine Safety and Health Administration.

Title: Record of Tests and Examinations of Personnel Hoisting Equipment.

OMB Number: 1219-0034.
