

and detect violations of Exchange rules, thereby deterring manipulation.

(4) With regard to the Index components, the Exchange can obtain market all relevant trading information, including customer identity information, with respect to transactions through agreements with futures exchanges and participation in the Intermarket Surveillance Group.

(5) NYSE prohibits the initial and/or continued listing of any security that is not in compliance with Rule 10A-3 under the Act.¹⁷

This order is conditioned on NYSE's adherence to these representations.

Under the proposal, the Exchange will delist any series of the Notes under the following circumstances:

(1) (a) If, following the initial twelve month period from the date of commencement of trading of the Notes, the Notes have more than 60 days remaining until maturity and there are fewer than 50 beneficial holders of the Notes for 30 or more consecutive trading days; (b) if fewer than 100,000 Notes remain issued and outstanding; or (c) if the market value of all outstanding Notes is less than \$1,000,000.

(2) If the Index value ceases to be calculated or available during the time the Notes trade on the Exchange on at least a 15 second basis through one or more major market data vendors or the sponsors of the Index.

(3) If, during the time the Notes trade on the Exchange, the Indicative Value ceases to be available on a 15 second delayed basis.

In addition, NYSE has represented that it would delist the Notes (unless the Commission approved a proposed rule change submitted pursuant to Rule 19b-4 under the Act) if: (1) Dow Jones and AIG-FP substantially change either the Index component selection methodology or the weighting methodology; (2) a new component is added to the Index (or pricing information is used for a new or existing component) that constitutes more than 10% of the weight of the Index with whose principal trading market the Exchange does not have a comprehensive surveillance sharing agreement; or (3) a successor or substitute index is used in connection with the Notes. The Commission believes that each of these circumstances represents material changes to the characteristics of the Index described herein and on which the Commission is basing its findings. Under these circumstances, the Exchange could not rely on this approval to list and trade the Notes.

Acceleration

The Commission finds good cause to approve the proposal, as amended, prior to the thirtieth day after the amended proposal was published for comment in the **Federal Register**. Accelerating approval of the proposal should benefit investors who desire to participate in the designated Indexes by expediting the listing and trading of the Notes by the Exchange. The Commission also notes that the proposal is similar to others previously approved by the Commission, and does not appear to raise any new regulatory issues. Thus, the Commission finds good cause, consistent with Section 19(b)(2) of the Act,¹⁸ to grant accelerated approval of the proposed rule change, as amended.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the proposed rule change (SR-NYSE-2006-71), as modified by Amendment No. 1, be, and it hereby is, approved on an accelerated basis.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.¹⁹

J. Lynn Taylor,

Assistant Secretary.
