

determine how C³RS can continue after the test period is over. The evaluation is needed to provide the FRA with guidance as to how it can improve the program, and how it might be scaled up throughout the railroad industry.

Program evaluation is an inherently data driven activity. Its basic tenet is that as change is implemented, data can be collected to track the course and consequences of the change. Because of the setting in which C³RS is being implemented, that data must come from the railroad employees (labor and management) who may be affected. Critical data include beliefs about safety and issues related to safety, and opinions/observations about the operation of C³RS.

In order to collect the necessary data in a manner that protects confidentiality, the data collection process will be managed by the Volpe Center. The Volpe Center will not release to FRA or any other public or private entity any information that might reveal the identity of individuals or organizations mentioned in the evaluation survey questionnaires. Also the respondents will not be asked to identify themselves.

II. Request for Comments

The Volpe Center requests comments on any aspects of these information collections, including: (1) The accuracy of the estimated burden; (2) ways to enhance the quality, usefulness, and clarity of the collected information; and (3) ways to minimize the collection burden without reducing the quality of the information collected, including additional use of automated collection techniques or other forms of information technology.

DEPARTMENT OF TRANSPORTATION

Surface Transportation Board

[STB Finance Docket No. 34988]

Williams Rail Service, LLC— Acquisition and Operation Exemption—Lines Owned by Duchess Investments V, LLC and G&G/ Cherokee Wood Products, Inc.

Williams Rail Service, LLC (WRS), a noncarrier, has filed a verified notice of exemption under 49 CFR 1150.31 to acquire (by purchase and lease) and to operate two separate track segments,

totaling approximately 1,900 feet of track, in Cherokee County, SC, and Union County, NC. After consummation of the transaction, WRS expects to become and remain a Class III rail carrier.

Pursuant to an agreement that will be executed before consummation, WRS will acquire: (1) By lease from Duchess Investments V, LLC, approximately 600 feet of track near the intersection of Orr Road and Wesley Chapel Stouts Road, in Monroe, Union County, NC, which was formerly used to serve an entity called HoltraChem, and connects with a CSX Transportation, Inc. line; and (2) by purchase from G&G/Cherokee Wood Products, Inc., approximately 1,300 feet of track near the intersection of Tribal Road and I-85 in Blacksburg, Cherokee County, SC, which was formerly used to serve a log home builder, and connects with a Norfolk Southern Railway Company line. WRS anticipates shipping primarily agricultural products off both track segments, and may enter into agreements with contract agents to perform some services solely for the benefit of WRS.

WRS certifies that its projected annual revenues as a result of the transaction will not exceed \$5 million and will not result in the creation of a Class II or Class I carrier. WRS intends to consummate the transaction and commence operations no sooner than March 1, 2007 (the effective date of the exemption).

If the verified notice contains false or misleading information, the exemption is void *ab initio*. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the transaction. Petitions for stay must be filed no later than February 22, 2007 (at least 7 days before the exemption becomes effective).

An original and 10 copies of all pleadings, referring to STB Finance Docket No. 34988, must be filed with the Surface Transportation Board, 1925 K Street, NW., Washington, DC 20423-0001. In addition, a copy of each pleading must be served on Michael J. Barron, Jr., Fletcher & Sippel LLC, 29 North Wacker Drive, Suite 920, Chicago, IL 60606.
