will review submitted petitions and provide advice and recommendations to the Secretary. The Committee will also provide advice and recommendations to the Secretary on any subsequent Statespecific rulemakings.

This Advisory Committee shall consist of up to 15 members appointed by the Secretary of Agriculture. The Committee Chair will be elected by the members. Officers or employees of the Forest Service may not serve as members of the Advisory Committee. The Advisory Committee shall consist of members who represent diverse national organizations interested in the conservation and management of National Forest System inventoried roadless areas.

Dated: March 16, 2007.

Gilbert L. Smith Jr.

Deputy Assistant Secretary for Administration.

BILLING CODE 3410-11-P

DEPARTMENT OF AGRICULTURE

Natural Resources Conservation Service

Manoa Watershed, Honolulu County, Hawaii

AGENCY: Natural Resources Conservation Service.

ACTION: Notice of Intent to prepare an Environmental Impact Statement.

SUMMARY: Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR Part 1500) and the Natural Resources Conservation Service Guidelines (7 CFR Part 650); the Natural Resources Conservation Service, U.S. Department of Agriculture, gives notice that an Environmental Impact Statement is being prepared for the Manoa Watershed, Honolulu County, Hawaii.

FOR FURTHER INFORMATION CONTACT:

Lawrence T. Yamamoto, Director, Pacific Islands Area, Natural Resources Conservation Service, 300 Ala Moana Boulevard, Room 4–118, P.O. Box 50004, Honolulu, HI 96850–0050, Telephone: (808) 541–2600, ext. 105.

SUPPLEMENTARY INFORMATION: A

preliminary assessment of this federally funded action indicates that the project may cause significant impacts on the environment. As a result, Lawrence T. Yamamoto, Director, has determined that the preparation and review of an Environmental Impact Statement (EIS) is needed for this project.

This project will be implemented under the Watershed Protection and Flood Prevention Act (Pub. L. 83–566, as amended), for the purpose of flood mitigation in Manoa Valley. The NRCS will work with the affected community and sponsoring local organizations to develop an acceptable plan to address the flood problem. Sponsoring local organizations include the State Department of Land and Natural Resources and the City and County of Honolulu.

The project aims to mitigate flooding of the magnitude experienced on October 30, 2004, when an intense rainstorm cell hit the upper watershed area of Manoa Valley. Runoff from the storm damaged streambanks and bridges throughout the valley. Bridges obstructed by debris diverted floodwater from the stream channel onto roads, damaging homes and other neighborhood improvements, as well as the University of Hawaii. The total damage from the flood event neared \$100 million.

A full range of possible programs and actions will be considered in order to meet the project goal of flood mitigation. Currently under consideration are detention basins on public lands, flood walls, debris basins and other debris management actions, flood-proofing structures within the flood plain, diversion of flood waters, flood warning systems, widening of the channel, acquisition of properties within the floodplain, maintenance easements, and a drainage district. As hydrologic and hydraulic analyses are performed and stakeholder consultations are conducted, additional concepts may be developed.

A draft Environmental Impact Statement will be prepared and circulated for review by agencies and the public. The Natural Resources Conservation Service invites participation and consultation of agencies and individuals that have special expertise, legal jurisdiction, or interest in the preparation of the draft EIS. All written and verbal comments received in response to this Notice of Intent will be considered when determining the scope of the EIS. The sponsoring local organizations will be issuing an Environmental Impact Statement Preparation Notice pursuant to Hawaii Revised Statutes Chapter 343, and a public participation process in the affected community has already been initiated. NEPA and HRS 343 requirements will be coordinated in the preparation of the EIS document.

A public meeting will be held on Wednesday, April 25, 2007, at the Noelani Elementary School cafeteria from 6:30 p.m. to 8:30 p.m., to determine the scope of analysis of the proposed action. Further information on the proposed action or the public scoping meeting may be obtained from Lawrence T. Yamamoto, Director, at the above address or telephone number.

(This activity is listed in the Catalog of Federal Domestic Assistance under No. 10.904—Watershed Protection and Flood Prevention—and is subject to the provisions of Executive Order 12372 which requires intergovernmental consultation with State and local officials.)

Dated: March 14, 2007.

Lawrence T. Yamamoto,

Director, Pacific Islands Area.

BILLING CODE 3410-16-P

DEPARTMENT OF AGRICULTURE

Rural Business—Cooperative Service

Inviting Applications for Renewable Energy Systems and Energy Efficiency Improvements Grants and Guaranteed Loans

AGENCY: Rural Business—Cooperative

Service (RBS), USDA

ACTION: Notice.

SUMMARY: Rural Business—Cooperative Service (RBS), an Agency within USDA Rural Development, announces it is accepting applications for fiscal year (FY) 2007 to purchase renewable energy systems and make energy efficiency improvements for agriculture producers and rural small businesses in eligible rural areas. Funding will be available in the form of grants, guaranteed loans, and combined guaranteed loans and grant applications.

For renewable energy systems, the minimum grant request is \$2,500 and the maximum is \$500,000. For energy efficiency improvements, the minimum grant request is \$1,500 and the maximum is \$250,000. The maximum amount of a guaranteed loan made to a borrower will be \$10 million. Fifty percent of the available grant funding will be reserved for the grant portion of combination grant and guaranteed loan applications. For FY 2007, the guarantee fee amount is 1 percent of the guaranteed portion of the loan and the annual renewal fee is 0.125 percent (one-eighth of one percent) of the guaranteed portion of the loan.

DATES: The United States Department of Agriculture (USDA) will conduct one competitive grant solicitation in FY 2007.

Grants

Applications must be completed and submitted to the appropriate USDA Rural Development State Office no later than May 18, 2007. Any unused guaranteed loan funding as of August 1, 2007, may be pooled and revert to grant funding. It is anticipated that grant award announcements will be made approximately 75 days following the submission deadline.

Guaranteed Loans and Combined Guaranteed Loans and Grants

Applications for guaranteed loans as well as combined guaranteed loan and grant packages must be completed and submitted to the appropriate USDA Rural Development State Office no later than July 2, 2007. Combined guaranteed loan and grant packages will compete and be awarded on a bi-weekly basis. Guaranteed loan applications will be accepted and processed in a rolling application manner.

The application closing deadlines for grants, guaranteed loans and combined guaranteed loan and grant packages are firm. USDA Rural Development will not consider any application that is received after the closing deadline. In accordance with RD Instruction 1940–G, all environmental assessments must be completed before the State Office forwards the application to the National Office for funding consideration.

ADDRESSES: Submit applications to the USDA Rural Development State Office in the State where your project is located. A list of the USDA Rural Development State Offices and Energy Coordinators addresses and telephone numbers follow. For further information about this solicitation, please contact the applicable State Office. This document is available on our Web site at http://www.rurdev.usda.gov/rbs/farmbill/index.html.

SUPPLEMENTARY INFORMATION: This solicitation is issued pursuant to Section 9006 of the Farm Security and Rural Investment Act of 2002 (2002 Act), which established the Renewable Energy Systems and Energy Efficiency Improvements Program. The program is designed to help agricultural producers and rural small businesses reduce energy costs and consumption and help meet the Nation's critical energy needs.

The 2002 Act mandates the maximum percentage USDA Rural Development will provide in funding for these types of projects. USDA Rural Development grants under this program will not exceed 25 percent of the eligible project costs. USDA Rural Development guaranteed loans will not exceed 50 percent of the eligible project costs. USDA Rural Development combined grant and guaranteed loan funding packages will not exceed 50 percent of eligible project cost, with the grant portion not to exceed 25 percent of eligible project costs.

Ås stated in 7 CFR 4280.108, projects must be for a pre-commercial or commercially available technology. In accordance with the definition of "commercially available" found in 7 CFR 4280.103, a proven operating history specific to the proposed application may be established domestically or outside of the United States (US). If the system is available commercially outside the U.S., applicants must provide authoritative evidence of the operating history, performance, and reliability. Additionally, applicants must provide evidence that professional service providers, trades, large construction equipment providers and labor are readily available domestically and familiar with installation procedures and practices, and spare parts and service are readily available in the U.S. to properly maintain and operate the system. All warranties must be valid in the U.S.

In accordance with the definition of "pre-commercial" technology found in 7 CFR 4280.103, technical and economic potential for commercial application must be demonstrated to the Agency's satisfaction through a documented operating history which may be established domestically or outside of the U.S., specific to the proposed application and at scalable size. To demonstrate that the system has emerged through research and development as well as the demonstration process, applicants must provide to the Agency's satisfaction, authoritative evidence of the operating history, performance, and reliability past completion of start-up, shakedown, and/or commissioning. Typically, and inline with performance evaluation protocol, the documented operating history should provide performance data for a duration of 12 months. In accordance with demonstrating the potential for commercial application, applicants must provide evidence that professional service providers, trades, large construction equipment providers, and

labor are potentially available domestically and sufficiently familiar with installation procedures and practices, and spare parts and service are available in the U.S. to properly maintain and operate the system. Any warranties would have to be valid in the U.S.

Information required to be in the grant application package is contained in 7 CFR 4280.111. Awards are made on a competitive basis using specific evaluation criteria contained in 7 CFR 4280.112(e). To ensure that projects are accurately scored by USDA, applicants are requested to tab and number each evaluation criteria and include in that section, its corresponding supporting documentation and calculations according to 7 CFR 4280.112. Only projects that have completed the environmental review process according to 7 CFR 4280.114(d), demonstrated project eligibility according to 7 CFR 4280.108, and demonstrated technical feasibility will be eligible for funding consideration.

State Offices will submit eligible grant funding requests, with the State Office executed score sheets, including supporting documentation to the National Office for funding consideration.

To reduce scoring bias by technology and scale, a standard statistical normalization process will be applied to all competitive grant application scores. All applicants will be notified by the USDA Rural Development State Offices of the Agency's decision on the awards.

Information required to be in the guaranteed loan application and the combination guaranteed loan and grant application package is contained in 7 CFR 4280.128 and 7 CFR 4280.193(c), respectively. Guaranteed loan applications are received and processed on a rolling basis until funds are exhausted. Combined guaranteed loans and grant packages compete bi-weekly at the national level and are awarded on a bi-weekly basis until funds are exhausted. All applicants will be notified by the USDA Rural Development State Offices in regards to the Agency's decision on their application.

This program is listed in the Catalog of Federal Domestic Assistance under Number 10.775 and is subject to the provisions of Executive Order 12372, which requires intergovernmental consultation with State and local officials.

USDA is participating as a partner in the government-wide Grants.gov site. Applicants may submit grant-only applications to the Agency in either electronic or paper format. Please be mindful that the application deadline for electronic format differs from the deadline for paper format. The electronic format deadline will be based on Washington, DC time. The paper format deadline is local time for each USDA Rural Development State Office.

Users of Grants.gov will be able to download a copy of the application package, complete it off line, and then upload and submit the application via the Grants.gov site. You may not e-mail an electronic copy of a grant application to USDA Rural Development; however, the Agency encourages your participation in Grants.gov.

- When you enter the Grants.gov site, you will find information about submitting an application electronically through the site as well as the hours of operation. USDA Rural Development strongly recommends that you do not wait until the application deadline date to begin the application process through Grants.gov. To use Grants.gov, applicants must have a Dun and Bradstreet Data Universal Numbering System (DUNS) number which can be obtained at no cost via a toll-free request line at 1–866–705–5711 or online at http://fedgov.dnb.com/webform.
- You may submit all documents electronically through the Web site, including all information typically included on the application for Renewable Energy Systems and Energy Efficiency Improvements Program, and all necessary assurances and certifications. After electronically submitting an application through the Web site, the applicant will receive an automatic acknowledgement from Grants.gov that contains a Grants.gov tracking number.
- USDA Rural Development may request that the applicant provide original signatures on forms at a later date.
- If applicants experience technical difficulties on the closing date and are unable to meet the 5 p.m. (Washington, DC time) deadline, print out your application and submit it to your respective State Office. If applicants submit applications to a State Office, applicants must meet the closing date and local time deadlines.

Applicants may access the electronic grant application for Renewable Energy Systems and Energy Efficiency Improvements Program at http://www.Grants.gov.

Please note that applicants must locate the downloadable application package for this program by the CFDA Number or FedGrants Funding Opportunity Number, which can be found at http://www.Grants.gov.

Paperwork Reduction Act

In accordance with the Paperwork Reduction Act, the paperwork burden has been cleared by the Office of Management and Budget (OMB) under OMB Control Number 0570–0050.

Nondiscrimination Statement

USDA prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or part of an individual's income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD).

To file a complaint of discrimination, write to USDA, Director, Office of Civil Rights, 1400 Independence Avenue, SW., Washington, DC 20250–9410, or call (800) 795–3272 (voice), or (202) 720–6382 (TDD). "USDA is an equal opportunity provider, employer, and lender."

Dated: March 8, 2007.

Ben Anderson,

Acting Administrator, Rural Business— Cooperative Service.

ARCTIC RESEARCH COMMISSION [USARC 07–029]

Notice of Meeting

AGENCY: United States Arctic Research Commission.

Notice is hereby given that the U.S. Arctic Research Commission will hold its 83rd meeting in Washington, DC on April 16–17, 2007. The Business Session, open to the public, will convene at 8:30 a.m. Monday, April 16, 2007 in Washington, DC. An Executive Session will follow adjournment of the Business Session.

The Agenda items include:

- (1) Call to order and approval of the Agenda.
- (2) Approval of the Minutes of the 82nd Meeting.
- (3) Reports from Congressional Liaisons.
 - (4) Agency Reports.

The focus of the meeting will be reports and updates on programs and research projects affecting the Arctic.
