2007 Survey of Business Owners (SBO)

ACTION: Proposed information collection; comment request.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C. 3506(c)(2)(A)).

DATES: Written comments must be submitted on or before July 23, 2007.

ADDRESSES: Direct all written comments to Diana Hynek, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6625, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at DHynek@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Valerie Strang, U.S. Census Bureau, CSD, Room 6K072E, Washington, DC 20233-6400, (301) 763-3317.

SUPPLEMENTARY INFORMATION

I. Abstract

The Census Bureau plans to conduct the 2007 Survey of Business Owners (SBO). In the SBO, businesses are asked several questions about their business as well as several questions about the gender, Hispanic or Latino origin, and race of the principal owner(s). This survey provides the only comprehensive, regularly collected source of information on the characteristics of U.S. businesses by ownership category, i.e., by gender,

Hispanic or Latino origin, and race. The survey is conducted as part of the economic census program which is required by law to be taken every 5 years under Title 13 of the United States Code, Sections 131, 193, and 224.

Businesses which reported any business activity on any one of the following Internal Revenue Service tax forms will be eligible for selection: 1040 (Schedule C), "Profit or Loss From Business (Sole Proprietorship); 1065, U.S. Return of Partnership Income; 941, "Employer's Quarterly Federal Tax Return"; or any one of the 1120 corporate tax forms.

The following changes have been made to the 2007 SBO:

- The survey form was expanded to collect a variety of characteristics for up to four individual owners. There was space for up to three owners in 2002, but this was found not to be sufficient in determining equal male-/female-ownership.

- The race question has been modified to meet OMB guidelines to allow respondents to select the "Some Other Race" category.

- Examples are provided for the "Other Hispanic, Latino, or Spanish origin," "Other Asian", and "Other Pacific Islander" write-in categories.

- Twenty-two new questions have been added to our questionnaire.

There are four new questions that are asked of each owner:

1. How did the owner acquire ownership of the business?
2. When did the owner acquire ownership of the business?
3. Prior to establishing, purchasing, or acquiring the business, had the owner ever owned a business or been self-employed?
4. Was the owner born in the United States?

There are eighteen new business questions:

1. Was the business jointly owned by a husband and wife?
2. How many owners were there in the business?
3. Did a franchiser own more than 50% of the business?
4. What was the total amount of capital used to start or acquire the business?
5. Did the business forego expansion or capital improvement due to a lack of access to capital?
6. What percent of the business's total sales of goods and/or services consisted of exports outside the United States?
7. What geographic area(s) best describes the market where the business's goods and/or services were sold?
8. In which language(s) did the business conduct transactions?

9. Did the business establish operations outside the United States?

10. Did the business outsource or transfer any business function or service to a company outside the United States?

11. Which of the following techniques were used to attract, develop and/or retain workers?

12. Did the business have a Web site?

13. Did the business make purchases online?

14. Did the business have e-commerce sales?

15. What percent of the business's goods and/or services were e-commerce sales?

16. What characteristic(s) describe the self-employment or business activity?

17. Is the business currently operating?

18. If no, did the business cease operating for any of the following reasons?

These items will address important concerns of many data users, including the U.S. House of Representatives Committee on Veterans' Affairs, the Small Business Administration, and the Center for Women's Business Research.

We received clearance from the Office of Management and Budget (OMB) to test our newly proposed 2007 SBO questionnaire. Cognitive interviews with fourteen businesses were conducted between December 5-15, 2006. These interviews continued on January 29, 2007 through February 1, 2007. Upon completion of the first round of interviews, the interview team met and decided on the recommended changes to the form. The form was revised and a second round of interviews began on April 9, 2007, through April 27, 2007. The team met again after the second round and the form was revised again. On May 29, 2007 a third and final round of testing began. This testing continues as this presubmission notice is processed. There are plans to make final changes to the form by June 15.

II. Method of Collection

The Census Bureau will use a mailout/mailback survey form to collect the data. The questionnaires will be mailed from our National Processing Center in Jeffersonville, Indiana. Three mail follow-ups to non-respondents will be conducted at approximately one-month intervals. Upon closeout of the survey, the response data will be edited and reviewed.

III. Data

OMB Number: None.

2008 Coverage Followup Telephone Operation

SUPPLEMENTARY INFORMATION

I. Abstract

The 2008 Census Dress Rehearsal is the final step in the decennial cycle of research and testing leading up to the implementation of the 2010 Census. The 2008 Census Dress Rehearsal will provide an opportunity to see how well the Census Bureau integrates the various operations and procedures planned for the 2010 Census under as close to census-like conditions as possible.

In order to meet our constitutional and legislative mandates, we must implement a re-engineered 2010 Census that is cost-effective, improves coverage, and reduces operational risk. Achieving these strategic goals requires an iterative series of tests to provide an opportunity to evaluate new or improved question wording, methodology, technology, and questionnaire design.

The Census Bureau previously completed three related studies designed to evaluate the efficacy of modified procedures for improving coverage (how well the Census Bureau counts people and housing units in the census) of the population and housing: (1) The 2004 Census Test Coverage Research Followup (OMB Approval Number 0607-0910); (2) the 2005 National Census Test Coverage Followup (OMB Approval Number 0607-0916 and (3) the 2006 Census Test Coverage Followup (OMB Approval Number 0607-0923.)

In support of the Census Bureau's goals, the 2008 Coverage Followup (CFU) telephone operation will serve to clarify initial enumeration responses in an effort to improve within household coverage by identifying erroneous enumerations and omissions. Historically, the decennial census has been affected by undercounts that affect certain demographic groups (e.g. babies and minorities), and people in certain living situations, such as renters who

move often and people whose residence is complicated or ambiguous.

Coverage interviews in the decennial censuses traditionally involve a second interview with the respondent to determine if changes should be made to their household roster as reported on their initial census return. The questions in the CFU interview attempt to determine if people were missed, and/or counted incorrectly. The corrections to the roster are made, if necessary, based on the 2008 Dress Rehearsal Residence Rules.

The 2008 CFU telephone operation will be conducted May 1, 2008 through July 25, 2008.

II. Method of Collection

The CFU telephone operation will be administered using computer-assisted telephone interviews (CATI).

Approximately 66,000 households will be included in the 2008 CFU telephone universe. This universe is selected based on the following criteria:

- Initial census housing unit returns that responded "yes" to either coverage question;
- Initial census returns that have a count discrepancy between the reported household population count and the actual number of persons recorded on the census form;
- Initial census returns containing more than six persons;
- Initial returns that are matched against an administrative records database to identify potential undercount; and
- Initial census returns that are computer matched to determine possible duplicate person links.

The 2008 CFU telephone operation will be conducted in the two 2008 Census Dress Rehearsal sites: San Joaquin County, California and South Central North Carolina, including Fayetteville and nine surrounding counties (Chatham, Cumberland, Harnett, Hoke, Lee, Montgomery, Moore, Richmond and Scotland).

The CFU interview includes probes about:

- Types of missing people,
- Where college students live,
- Where children in custody arrangements spend most of their time,
- Where those who vacation spend most of their time,
- If anyone else in the household stays anywhere else any part of the time, and
- If anyone stayed in a facility where groups of people stay.

When anyone is identified as potentially counted or omitted in error, we then ask questions to establish the appropriate census residence of that
