k. This application has been accepted, and is ready for environmental analysis at this time.

l. The existing Hyrum City's Hydropower Project was initially constructed in 1930-1931, after receiving an original license on November 27, 1929. The project has been licensed since that time with one amendment in 1977, and one renewal in 1981. The current license expires on April 30, 2008. The run-of-river, base-load plant operates on 85-cubic-foot-per-second of water diverted by a diversion dam located in Blacksmith Fork Canyon. The 3,419-foot-by-passed reach is not de-watered because the flows in the river exceeds the capacity of the plant, and during low flows, Hyrum City operates the plant at less than maximum flow to maintain a continuous flow throughout the river channel for aesthetic enjoyment in the city park that adjoins the powerhouse.

The project includes the following constructed facilities: (1) a 15-foot-high, 70-foot-long earth-fill concrete core embankment to the north, a 14-foot-high, 65-foot-long concrete spillway section, a 15-foot-high, 125-foot-long earth-fill concrete core embankment to the north which makes the total length of the dam approximately 260-foot-long; (2) a 16-foot-high, 8-foot-wide concrete intake structure with a 20-foot-high, 8-foot-wide trash rack and fish ladder; (3) a 60-inch-diameter concrete penstock inlet with head gate; (4) a 3,470-foot-long, 48-inch-diameter concrete penstock going into a 130-foot-long, 42-inch-diameter steel penstock; (5) a 37-acre-foot de-silting pond; (6) a 26-foot-wide, 39-foot-long, 20-foot-high brick powerhouse; (7) a 400-kilowatt Leffel horizontal shaft scroll case turbine; (8) a 100-foot, 2.4-kV underground transmission line and; (9) appurtenant facilities.

The average annual generation of the project is approximately 3,083,000 kilowatt-hours and there are no proposed changes to the facilities or the current mode of operation at this time.

m. A copy of the application is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. All filings must (1) bear in all capital letters the title "COMMENTS", "REPLY COMMENTS", "RECOMMENDATIONS," "TERMS AND CONDITIONS," or "PRESCRIPTIONS;" (2) set forth in the heading the name of the applicant and the project number of the application to which the filing responds; (3) furnish the name, address, and telephone number of the person submitting the filing; and (4) otherwise comply with the requirements of 18 CFR 385.2001 through 385.2005. All comments, recommendations, terms and conditions or prescriptions must set forth their evidentiary basis and otherwise comply with the requirements of 18 CFR 4.34(b). Agencies may obtain copies of the application directly from the applicant.
