

The designated PHAs will begin the rent subsidy on November 1, 2007. Beginning in March 1, 2008, the rent subsidy will decrease \$50 per month per family, with the goal of leading the family closer to complete housing self-sufficiency at the end of the 16-month program. When the DHAP assistance ends on March 1, 2009, all families are responsible for the full amount of the rent.

The designated PHAs will also provide case management services, which will include a needs assessment and individual development plan (IDP) for each family. The objective of HUD case management services is to promote self-sufficiency for the participating family. Case management services will begin on or after September 1, 2007, for those families transitioning to the DHAP during the initial implementation phase.

Details about DHAP will be published by HUD in a **Federal Register** Notice. In addition, a copy of the full text of the FEMA-HUD IAA can be accessed via the FEMA Web site at <http://www.fema.gov>. Periodic updates on DHAP will be posted on FEMA's Web sites.

**Authority**

Legal authority for DHAP is based on the Department of Homeland Security's (DHS) general grant authority under section 102(b)(2) of the Homeland Security Act, 6 U.S.C. 112, and sections 306(a), 408(b)(1), and 426 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (Stafford Act), 42 U.S.C. 5149(a), 5174(b)(1), and 5189d, respectively. As a servicing agency under a grant from FEMA, and consistent with the Economy Act, HUD derives all authority under the program from FEMA.

Dated: August 17, 2007.

**DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT**

[Docket No. FR-5117-N-68]

**Notice of Submission of Proposed Information Collection to OMB; Humidity Monitoring Survey**

**AGENCY:** Office of the Chief Information Officer, HUD.

**ACTION:** Notice.

**SUMMARY:** The proposed information collection requirement described below has been submitted to the Office of Management and Budget (OMB) for review, as required by the Paperwork Reduction Act. The Department is soliciting public comments on the subject proposal.

The purpose of this survey is: (1) Collect moisture load data to support research to better understand the impact of indoor moisture on the durability of homes; (2) Support the development of design criteria, such as ASHRAE Standard 160P, that will minimize durability problems associated with high indoor moisture levels; and (3) Investigate the influence of the interior and exterior conditions on the indoor moisture level of a typical single family home.

**DATES:** *Comments Due Date:* September 21, 2007.

**ADDRESSES:** Interested persons are invited to submit comments regarding this proposal. Comments should refer to the proposal by name and/or OMB approval Number (2528-NEW) and should be sent to: HUD Desk Officer, Office of Management and Budget, New Executive Office Building, Washington, DC 20503; fax: 202-395-6974.

**FOR FURTHER INFORMATION CONTACT:** Lillian Deitzer, Departmental Reports Management Officer, QDAM, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, DC 20410; e-mail [Lillian\\_L\\_Deitzer@HUD.gov](mailto:Lillian_L_Deitzer@HUD.gov) or telephone (202) 708-2374. This is not a toll-free number. Copies of available documents submitted to OMB may be

obtained from Ms. Deitzer or from HUD's Web site at <http://www5.hud.gov:63001/po/i/icbts/collectionsearch.cfm>.

**SUPPLEMENTARY INFORMATION:** This notice informs the public that the Department of Housing and Urban Development has submitted to OMB a request for approval of the information collection described below. This notice is soliciting comments from members of the public and affecting agencies concerning the proposed collection of information to: (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (3) Enhance the quality, utility, and clarity of the information to be collected; and (4) Minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

This notice also lists the following information:

*Title of Proposal:* Humidity Monitoring Survey.

*OMB Approval Number:* 2528-New.

*Form Numbers:* None.

*Description of the Need for the Information and Its Proposed Use:* The purpose of this survey is: (1) Collect moisture load data to support research to better understand the impact of indoor moisture on the durability of homes; (2) Support the development of design criteria, such as ASHRAE Standard 160P, that will minimize durability problems associated with high indoor moisture levels; and (3) Investigate the influence of the interior and exterior conditions on the indoor moisture level of a typical single family home.

*Frequency of Submission:* On Occasion, Annually.

| Reporting Burden | Number of respondents | Annual responses | X    | Hours per response | =    | Burden hours |
|------------------|-----------------------|------------------|------|--------------------|------|--------------|
|                  | 70                    | 3                | .... | 2                  | .... | 420          |

*Total Estimated Burden Hours: 420.*  
*Status: New collection.*

**Authority:** Section 3507 of the Paperwork Reduction Act of 1995, 44 U.S.C. 35, as amended.

Dated: August 15, 2007.

**Lillian L. Deitzer,**

*Departmental Paperwork Reduction Act Officer, Office of the Chief Information Officer.*

## DEPARTMENT OF THE INTERIOR

### Fish and Wildlife Service

#### Carolina Sandhills National Wildlife Refuge

**AGENCY:** Fish and Wildlife Service, Interior.

**ACTION:** Notice of intent to prepare a comprehensive conservation plan and environmental assessment for Carolina Sandhills National Wildlife Refuge in Chesterfield County, South Carolina.

**SUMMARY:** The Fish and Wildlife Service intends to gather information necessary to prepare a comprehensive conservation plan and environmental assessment for Carolina Sandhills National Wildlife Refuge. This notice is furnished in compliance with the Service's comprehensive conservation planning policy to advise other agencies and the public of our intentions, and to obtain suggestions and information on the scope of issues to be considered in the planning process.

**DATES:** To ensure consideration, comments must be received by October 9, 2007.

**ADDRESSES:** Comments, questions, and requests for more information regarding Carolina Sandhills National Wildlife Refuge should be sent to: Allyne H. Askins, Refuge Manager, Carolina Sandhills National Wildlife Refuge, 23734 U.S. Highway 1, McBee, SC 29101; Telephone: 843/335-8401; Fax: 843/335-8406; e-mail: [fw4rwc Carolinasandhills@fws.gov](mailto:fw4rwc Carolinasandhills@fws.gov). You may find additional information concerning the refuge at the refuge's Internet site: <http://www.fws.gov/carolinasandhills>.

**SUPPLEMENTARY INFORMATION:** The National Wildlife Refuge System Administration Act of 1966, as amended by the National Wildlife Refuge System Improvement Act of 1997 (16 U.S.C. 668dd-668ee), requires the Service to develop a comprehensive conservation plan for each national wildlife refuge. The purpose in developing a

comprehensive conservation plan is to provide refuge managers with a 15-year strategy for achieving refuge purposes and contributing toward the mission of the National Wildlife Refuge System, consistent with sound principles of fish and wildlife management, conservation, legal mandates, and Service policies. In addition to outlining broad management direction on conserving wildlife and their habitats, plans identify wildlife-dependent recreational opportunities available to the public, including opportunities for hunting, fishing, wildlife observation, wildlife photography, and environmental education and interpretation. Public input in this planning process is essential.

Each unit of the National Wildlife Refuge System is established with specific purposes. These purposes are used to develop and prioritize management goals and objectives with the National Wildlife Refuge System mission, and to guide which public uses will occur on the refuge. The planning process is a means for the Service and the public to evaluate management goals and objectives for the best possible conservation efforts of this important wildlife habitat, while providing for wildlife-dependent recreation opportunities that are compatible with the refuge's establishing purposes and the mission of the National Wildlife Refuge System.

A comprehensive conservation planning process will be conducted that will provide opportunities for Tribal, State, and local governments; agencies; organizations; and the public to participate in issue scoping and public comment. The Service invites anyone interested to respond to the following questions:

1. What problems or issues do you want to see addressed in the comprehensive conservation plan?
2. What improvements would you recommend for Carolina Sandhills National Wildlife Refuge?

The above questions have been provided for your optional use. You are not required to provide any information. The Planning Team developed these questions to gather information about individual issues and ideas concerning the refuge. The Planning Team will use comments it receives as part of the planning process; however, it will not reference individual comments or directly respond to them.

Special mailings, newspaper articles, and other media announcements will be used to inform State and local government agencies and the public of the opportunities for input throughout the planning process. An open house

style meeting will be held to solicit comments during the scoping phase of the planning process. The date and time will be announced through local mailings, newspaper articles, and other media outlets.

The environmental review of this project will be conducted in accordance with the requirements of the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 *et seq.*); NEPA regulations (40 CFR parts 1500-1508); and other appropriate Federal laws and regulations. All comments received become part of the official public record. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Congress established Carolina Sandhills National Wildlife Refuge in 1939. The refuge comprises more than 45,000 acres of longleaf pine and is home to the largest population of the endangered red-cockaded woodpecker on Service-owned lands. Management of the refuge focuses on longleaf pine restoration, endangered species recovery, migratory and upland game birds, and wildlife-dependent recreational opportunities.

**Authority:** This notice is published under the authority of the National Wildlife Refuge System Improvement Act of 1997, Public Law 105-57.

Dated: July 24, 2007.

**Cynthia K. Dohner,**

*Acting Regional Director.*
