Analysis of Agreement Containing Consent Order To Aid Public Comment

The Federal Trade Commission has accepted, subject to final approval, an agreement containing a consent order from Soyo, Inc. ("Soyo"). Soyo, located in Ontario, California, is a distributor of computer-related hardware and other consumer electronics products.

The proposed consent order has been placed on the public record for thirty (30) days for reception of comments by interested persons. Comments received during this period will become part of the public record. After thirty (30) days, the Commission will again review the agreement and the comments received and will decide whether it should withdraw from the agreement or make final the agreement's proposed order.

This matter concerns cash rebate offers that Soyo advertised to consumers. The complaint alleges that Soyo engaged in deceptive practices relating to these rebate offers. Specifically, the complaint alleges that Soyo falsely represented that: (1) Rebates would be mailed within a reasonable period of time after receipt of a consumer's valid request, (2) within ten to twelve weeks after receipt of a consumer's valid request, and (3) within ten to twelve weeks of the last date on which a valid request could be postmarked. The complaint alleges that thousands of consumers who submitted valid requests for rebates since 2004 experienced substantial, unreasonable delays, including delays of one year or longer. It is further alleged that from October 2004 to March 2006, over 95 percent of respondent's rebate checks were delivered later than twelve weeks after the last date on which a valid request could be postmarked, with an

average delivery time of approximately 24 weeks.

The proposed order contains provisions designed to prevent Soyo from engaging in similar acts and practices in the future. Part I of the proposed order prohibits Soyo from misrepresenting the time in which any rebate will be mailed and from failing to provide any rebate within the time specified, or if no time is specified, within thirty days. This provision also prohibits the company from misrepresenting any material terms of any rebate program, including the status of or reasons for any delay in providing any rebate. Part II of the proposed order is a redress provision which requires Soyo to pay all valid rebate requests to consumers who purchased Soyo products and whose rebates are past due. This provision also requires Soyo to send a rebate to any eligible purchaser who contacts it or the FTC for a period of seventy-five (75) days after service of the order.

Parts III through VI of the proposed order are reporting and compliance provisions. Part VII provides that the order will terminate after twenty (20) years, with certain exceptions.

The purpose of this analysis is to facilitate public comment on the proposed order, and it is not intended to constitute an official interpretation of the agreement and proposed order or to modify in any way their terms.

By direction of the Commission.

Donald S. Clark,
Secretary.

Agency Forms Undergoing Paperwork Reduction Act Review

The Centers for Disease Control and Prevention (CDC) publishes a list of information collection requests under review by the Office of Management and Budget (OMB) in compliance with the Paperwork Reduction Act (44 U.S.C.

Chapter 35). To request a copy of these requests, call the CDC Reports Clearance Officer at (404) 639-5960 or send an e-mail to omb@cdc.gov. Send written comments to CDC Desk Officer, Office of Management and Budget, Washington, DC or by fax to (202) 395-6974. Written comments should be received within 30 days of this notice.

Proposed Project

National Public Health Performance Standards Program Local Public Health Governance Assessment (OMB 0920-0580)—Reinstatement—Office of the Director (OD), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

The Office of Chief of Public Health Practice is proposing to revise and reinstate the formal, voluntary data collection that assesses the capacity of local boards of health to deliver the essential services of public health. Electronic data submission will be used when local boards of health complete the public health assessment.

A three-year approval is being sought with the revised data collection instrument. The original data collection instrument has been valuable in assessing performance and capacity and identifying areas for improvement. It is anticipated that the updated data collection instrument will be voluntarily used by local boards of health for similar purposes.

From 1998-2002, the CDC National Public Health Performance Standards Program convened workgroups with the National Association of County and City Health Officials (NACCHO), The Association of State and Territorial Health Officials (ASTHO), the National Association of Local Boards of Health (NALBOH), the American Public Health Association (APHA), and the Public Health Foundation (PHF) to develop performance standards for public health systems based on the essential services of public health. In 2005, CDC reconvened workgroups with these same organizations to revise the data collection instruments, in order to ensure the standards remain current and improve user friendliness.

There is no cost to the respondent, other than their time. The total estimated annual burden hours are 875.

ESTIMATE OF ANNUALIZED BURDEN HOURS

Respondents	Number of respondents	Number of responses per respondent	Average burden per response (in hours)
Local Boards of Health	175	1	5

Dated: April 25, 2007.
Maryam Daneshvar,
Acting Reports Clearance Officer, Centers for Disease Control and Prevention.

Proposed Project

National Public Health Performance Standards Program Local Public Health System Assessment (OMB 0920-0555)—Revision—Office of Chief of Public Health Practice (OCPHP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

The Office of Chief of Public Health Practice is proposing to revise the formal, voluntary data collection that assesses the capacity of local public health systems to deliver the essential services of public health. Local health departments will respond to the survey on behalf of the collective body of representatives from the local public health system. Electronic data submission will be used when local public health agencies complete the public health assessment.

A three-year approval is being sought with the revised data collection

instrument. The original data collection instrument has been valuable in assessing performance and capacity and identifying areas for improvement. It is anticipated that the updated data collection instrument will be voluntarily used by local public health systems for similar purposes.
