DATES: Written comments will be accepted for 45 days following the date that the Environmental Protection Agency (EPA) publishes its Notice of Availability in the **Federal Register**. The BLM intends to hold two public meetings during the 45-day comment period, in Boise and Challis, Idaho. BLM will announce the public meeting times and locations at least 15 days in advance through public notices, media news releases, and/or newsletter mailings.

SUPPLEMENTARY INFORMATION: L&W Stone Corporation mines locatable flagstone on public lands administered by the BLM's Challis Field Office in Custer County, Idaho. L&W Stone submitted an Amended Plan of Operations for its quarry under the 43 CFR part 3809 Regulations in December 2002. In 2004, the BLM completed an Environmental Assessment (EA) regarding the Amended Plan of Operations, signed a Finding of No Significant Impact (FONSI), and approved the project. As a result of a lawsuit that was filed objecting to that approval, the BLM was ordered by the Federal District Court to prepare an EIS for the Amended Plan of Operations.

The DEIS analyzes and discloses the effects of four alternatives, including the No Action and BLM's Preferred Alternative. Alternative A, the No Action Alternative, would result in the cessation of quarrying activities and the implementation of reclamation measures that would stabilize disturbed areas. Alternative B would be a continuation of the interim mining plan that was developed by L&W Stone and approved by the District Court, which has allowed L&W Stone to mine while the EIS is being prepared. Alternative C would be a continuation of mining under the Preferred Alternative from BLM's 2004 EA. Alternative D, the BLM's Preferred Alternative described in the DEIS, would be similar to Alternative C, but would allow for the expansion of quarrying operations into two new areas that contain flagstone resources.

All Alternatives are consistent with the Challis Resource Management Plan and would protect public health, protect surface and groundwater resources, meet post-mining land use

requirements, and minimize view-shed impacts.

L&W Stone will be required to submit an updated Plan of Operation that would incorporate the requirements of the Alternative that is selected by the BLM Authorized Officer.

David Rosenkrance,

BLM Challis Field Manager.
