

individual who may have been exposed to restricted use pesticides; (2) requires that the Secretary of Agriculture enforce the recordkeeping and access requirements of the Act and promulgate regulations to administer the Act; and (3) establishes civil penalties for violations of the Act. A certified applicator is an individual who is certified by the Environmental Protection Agency (EPA) or a State under cooperative agreement with EPA to use or supervise the use of restricted use pesticides.

The Secretary of Agriculture delegated his responsibilities under the Act to the Agricultural Marketing Service (AMS), which promulgated regulations to administer the Act at 7 CFR part 110 (regulations). In order to enforce these regulations, AMS must collect information through personal inspections of the application records of certified applicators of restricted use pesticides.

The information collected by AMS is used only by authorized representatives of AMS (AMS' Science and Technology national staff, other designated Federal employees and designated State supervisors and their staffs) who are delegated authority to access the records pursuant to subsection (b) of the Act. The collected information is used to administer the Federal Pesticide Recordkeeping program. AMS is the primary user of this information. The secondary user of the information is each designated State agency which has a cooperative agreement with AMS.

*Estimate of Burden:* Public reporting burden for this collection of information is estimated as follows:

(a) Approximately 307,151 certified private applicators (recordkeepers) apply restricted use pesticides. It is estimated that certified private applicators average 1.31 hours per recordkeeper for a total of 402,368 annual burden hours. This is a 247,708 increase in burden hours from the previous collection request due to an increase in the number of restricted use pesticide applications being made by certified private applicators. The new data indicates that certified private applicators make an average of 16 restricted use pesticide applications per year. Of the 307,151 certified private applicators, approximately 3,600 are selected annually for recordkeeping inspections. It is estimated that a private applicator that is subject to a pesticide record inspection has an annual burden of .330 hours, which contributes to a total annual burden of 1,195 hours.

(b) There are approximately 281,428 certified commercial applicators nationally who are required to provide

copies of restricted use pesticide application records to their clients. It is estimated that certified commercial applicators have a total annual burden of 1,386,877 hours.

(c) It is estimated that State agency personnel who work through cooperative agreements with AMS to inspect certified private applicator's records have a total annual burden of 7,274 hours. This is a decrease of 1,702 burden hours from the previous collection request due to fewer states participating in cooperative agreements with AMS.

*Respondents:* Certified private and commercial applicators, State governments or employees, and Federal agencies or employees.

*Estimated Number of Respondents:* 592,233—The total number of respondents includes certified commercial applicators, certified private applicators (recordkeepers) and designated State agency personnel utilized to inspect certified private applicator's records.

*Estimated Number of Responses per Respondent:* The estimated number of responses per respondent is as follows:

(a) It is estimated that certified private applicators (recordkeepers), record on an average 16 restricted use pesticide application records annually.

(b) It is estimated that certified commercial applicators provide 616 copies of restricted use pesticide records to their clients annually.

(c) State agency personnel, who work under cooperative agreements with AMS to conduct restricted use pesticide records inspections, have approximately 3,591 responses annually.

*Estimated Total Annual Burden on Respondents:* 1,797,714. This revision in the Total Annual Burden on Respondents increases the current burden by 116,917 hours due to the increase in the number of restricted use pesticides applications that the private applicators are making annually. Although there are fewer states participating in the cooperative program, the total annual burden did increase.

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information

on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology. Comments should be sent to Bonnie Poli, Pesticide Records Branch, Science and Technology, Agricultural Marketing Service, Suite 203, 8609 Sudley Road, Manassas, Virginia 20110-4582. All comments received will be available for public inspection during regular business hours at the same address.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will become a matter of public record.

**SUPPLEMENTARY INFORMATION:** This notice is published pursuant to 41 U.S.C

47(a) (2) and 41 CFR 51-2.3. Its purpose is to provide interested persons an opportunity to submit comments on the proposed actions.

### Addition

If the Committee approves the proposed addition, the entities of the Federal Government identified in this notice for each product will be required to procure the product listed below from nonprofit agencies employing persons who are blind or have other severe disabilities.

### Regulatory Flexibility Act Certification

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. If approved, the action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small organizations that will furnish the product to the Government.

2. If approved, the action will result in authorizing small entities to furnish the product to the Government.

3. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 46-48c) in connection with the products proposed for addition to the Procurement List.

Comments on this certification are invited. Commenters should identify the statement(s) underlying the certification on which they are providing additional information.
