

EPA Region 5 sent a letter to the Ohio Environmental Protection Agency (OEPA) stating that the 2009 and 2018 MVEBs in the Steubenville-Weirton area are adequate. EPA Region 5 sent letters to OEPA on January 22, 2007, stating that the 2009 and 2018 MVEBs in the Parkersburg, Lima, Wheeling, and Canton areas are adequate. Ohio submitted the budgets as part of the 8-hour ozone redesignation requests and maintenance plans for these areas. The submittals were announced on EPA's conformity website, and received no comments: <http://www.epa.gov/otaq/stateresources/transconf/adequacy.htm>, (once there, click on "What SIP submissions are currently under EPA adequacy review?").

The 2009 and 2018 MVEBs, in tons per day, for volatile organic compounds (VOC) for these areas are as follows:

Area	2009	2018
Parkersburg	2.59	1.67
Steubenville-Weirton	2.63	1.37
Lima	5.08	2.89
Wheeling	2.60	1.52
Canton	10.02	5.37

The 2009 and 2018 MVEBs, in tons per day, for oxides of nitrogen (NO_x) for these areas are as follows:

Area	2009	2018
Parkersburg	3.58	1.76
Steubenville-Weirton	4.10	1.67
Lima	8.28	3.47
Wheeling	4.69	1.91
Canton	18.03	7.08

Transportation conformity is required by section 176(c) of the Clean Air Act. EPA's conformity rule requires that transportation plans, programs, and projects conform to state air quality implementation plans and establishes the criteria and procedures for determining whether or not they do. Conformity to a State Implementation Plan (SIP) means that transportation activities will not produce new air quality violations, worsen existing violations, or delay timely attainment of the national ambient air quality standards.

The criteria by which we determine whether a SIP's motor vehicle emission budgets are adequate for conformity purposes are outlined in 40 CFR 93.118(e)(4). We have described our process for determining the adequacy of submitted SIP budgets in our July 1, 2004, preamble starting at 69 FR 40038, and we used the information in these resources while making our adequacy determination. Please note that an adequacy review is separate from EPA's

completeness review, and it also should not be used to prejudge EPA's ultimate approval of the SIP. Even if we find a budget adequate, the SIP could later be disapproved.

The finding and the response to comments are available at EPA's conformity Web site: <http://www.epa.gov/otaq/stateresources/transconf/adequacy.htm>.

A. Introduction

The following is the *draft* Solicitation for the Fiscal Year (FY) 2007 cycle of the Labor-Management Cooperation Program as it pertains to the support of labor-management committees. These guidelines represent the continuing efforts of the Federal Mediation and Conciliation Service to implement the provisions of the Labor-Management Cooperation Act of 1978, which was initially implemented in FY1981. The Act authorizes FMCS to provide assistance in the establishment and operation of company/plant, area, public sector, and industry-wide labor-management committees which:

(A) Have been organized jointly by employers and labor organizations representing employees in that

company/plant, area, government agency, or industry; and

(B) Are established for the purpose of improving labor-management relationships, job security, and organizational effectiveness; enhancing economic development; or involving workers in decisions affecting their working lives, including improving communication with respect to subjects of mutual interest and concern.

The Program Description and other sections that follow, as well as a separately published FMCS Financial and Administrative Grants Manual, make up the basic guidelines, criteria, and program elements a potential applicant for assistance under this program must know in order to develop an application for funding consideration for either a company/plant, area-wide, industry, or public sector labor-management committee. Directions for obtaining an application kit may be found in Section H. A copy of the Labor-Management Cooperation Act of 1978, included in the application kit, should be reviewed in conjunction with this solicitation.

B. Program Description

Objectives

The Labor-Management Cooperation Act of 1978 identifies the following seven general areas for which financial assistance would be appropriate:

- (1) To improve communication between representatives of labor and management;
- (2) To provide workers and employers with opportunities to study and explore new and innovative joint approaches to achieving organizational effectiveness;
- (3) To assist workers and employers in solving problems of mutual concern not susceptible to resolution within the collective bargaining process;
- (4) To study and explore ways of eliminating potential problems which reduce the competitiveness and inhibit the economic development of the company/plant, area, or industry;
- (5) To enhance the involvement of workers in making decisions that affect their working lives;
- (6) To expand and improve working relationships between workers and managers; and
- (7) To encourage free collective bargaining by establishing continuing mechanisms for communication between employers and their employees through Federal assistance in the formation and operation of labor-management committees.

The primary objective of this program is to encourage and support the establishment and operation of joint
