

fax: (202) 233-0643; or e-mail at: butterfield.fred@epa.gov. General information concerning the CASAC or the EPA SAB can be found on the EPA Web Site at: <http://www.epa.gov/sab>.

SUPPLEMENTARY INFORMATION:

Background: The CASAC, which is comprised of seven members appointed by the EPA Administrator, was established under section 109(d)(2) of the Clean Air Act (CAA or Act) (42 U.S.C. 7409) as an independent scientific advisory committee. The CASAC provides advice, information and recommendations on the scientific and technical aspects of issues related to air quality criteria and NAAQS under sections 108 and 109 of the Act. The CASAC is chartered under the Federal Advisory Committee Act (FACA), as amended, 5 U.S.C., App. The CASAC Review Panel consists of the seven members of the chartered CASAC supplemented by subject-matter-experts. The CASAC Panel provides advice and recommendations to EPA concerning particulate matter in ambient air relevant to the Agency's review of the primary (human health-based) and secondary (welfare-based) PM NAAQS. The Panel complies with the provisions of FACA and all appropriate SAB Staff Office procedural policies.

Section 109(d)(1) of the CAA requires that the Agency periodically review and revise, as appropriate, the air quality criteria and the NAAQS for the six "criteria" air pollutants, including airborne PM. EPA's National Center for Environmental Assessment in Research Triangle Park, NC (NCEA-RTP), a component of the Agency's Office of Research and Development (ORD), and the Agency's Office of Air Quality Planning and Standards (OAQPS), within the Office of Air and Radiation (OAR), have jointly developed the Draft Integrated Plan for Review of the PM NAAQS, as the first step in EPA's five-year, statutorily-mandated review cycle of airborne particulate matter. As stated in the draft integrated review plan, the purpose of this document is to communicate the plan for reviewing the air quality criteria for PM associated with human health and welfare effects and the primary and secondary standards for PM.

On March 8, 2007, the SAB Staff Office announced the formation of the CASAC PM Review Panel in the **Federal Register** (72 FR 10527) and sought public nominations for nationally-recognized experts in various scientific and technical disciplines to supplement the expertise of the statutory CASAC. The SAB Staff Director announced the establishment of this CASAC Panel on

October 23, 2007. The purpose of this public teleconference meeting, which is the first meeting of the new CASAC PM Review Panel, is to conduct a consultation on the Agency's draft integrated plans for the review of the NAAQS for particulate matter. The SAB Staff Office has developed the consultation as a mechanism to provide early input and advice to EPA on technical issues that should be considered in the development of regulations, guidelines, or technical guidance before the Agency has taken a position.

Availability of Meeting Materials: The Draft Integrated Plan for Review of the PM NAAQS is posted on the Agency's Technology Transfer Network (TTN) Web site at: http://www.epa.gov/ttn/naaqs/standards/pm/s_pm_cr_pd.html, in the "Documents from Current Review" section under "Planning Documents" on this Web page. A copy of the draft agenda and other materials for this CASAC teleconference will be posted on the SAB Web site at: http://www.epa.gov/sab/panels/casac_pm_review_panel_2007-.html prior to the meeting.

Procedures for Providing Public Input: Interested members of the public may submit relevant written or oral information for the CASAC PM Review Panel to consider during the advisory process. *Oral Statements:* In general, individuals or groups requesting an oral presentation at a public teleconference will be limited to three minutes per speaker, with no more than a total of 30 minutes for all speakers. Interested parties should contact Mr. Butterfield, DFO, in writing (preferably via e-mail), by November 26, 2007, at the contact information noted above, to be placed on the list of public speakers for this meeting. *Written Statements:* Written statements should be received in the SAB Staff Office by November 26, 2007, so that the information may be made available to the CASAC Panel for its consideration prior to this teleconference. Written statements should be supplied to the DFO in the following formats: one hard copy with original signature (optional), and one electronic copy via e-mail (acceptable file format: Adobe Acrobat PDF, MS Word, WordPerfect, MS PowerPoint, or Rich Text files in IBM-PC/Windows 98/2000/XP format).

Accessibility: For information on access or services for individuals with disabilities, please contact Mr. Butterfield at the phone number or e-mail address noted above, preferably at least ten days prior to the meeting, to give EPA as much time as possible to process your request.

Dated: November 2, 2007.

Anthony F. Maciorowski,
Deputy Director, EPA Science Advisory Board Staff Office.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-8493-7]

Notice of Public Workshop to Discuss Management of Underground Injection of Carbon Dioxide for Geologic Sequestration Under the Safe Drinking Water Act

AGENCY: Environmental Protection Agency.

ACTION: Notice of public workshop.

SUMMARY: The Environmental Protection Agency (EPA) is holding a public workshop to discuss the development of proposed regulations for the underground injection of carbon dioxide for geologic sequestration under the Safe Drinking Water Act (SDWA). SDWA requires EPA to protect underground sources of drinking water from contamination due to underground injection activities. The Underground Injection Control Program works with States and Tribes to oversee underground injection activities and prevent endangerment of drinking water sources. This public workshop will provide an opportunity for dialogue with representatives from industry, government, public interest groups, and the general public on geologic sequestration of carbon dioxide. The Agency plans to hold a second workshop in early 2008.

DATES: This public workshop will be held from 12 p.m. to 5:30 p.m., Eastern time, on Monday, December 3, 2007, and from 8:30 a.m. to 4 p.m. on Tuesday, December 4, 2007. To RSVP for the workshop, please contact Kate Zimmer at RESOLVE at kzimmer@resolve.org. Please RSVP by November 21, 2007.

ADDRESSES: The workshop will be held at the Hotel Washington. The hotel is located at the corner of Pennsylvania Ave. and 15th St., NW., two blocks from the Metro Center Station. The hotel's telephone number is (202) 638-5900.

FOR FURTHER INFORMATION CONTACT: For general information about the workshop, please contact Mary Rose (Molly) Bayer by phone at (202) 564-1981, by e-mail at bayer.maryrose@epa.gov, or by mail at: U.S. Environmental Protection Agency,

Mail Code 4606M, 1200 Pennsylvania Ave., NW., Washington, DC 20460.

SUPPLEMENTARY INFORMATION: The purpose of this workshop is to share information about EPA's rulemaking process, provide an opportunity for dialogue between EPA and stakeholders on geologic sequestration of carbon dioxide under the Safe Drinking Water Act, and identify key questions and considerations that will help inform a regulatory framework. A second two-day workshop is being planned for early 2008 and notification will be posted in a separate FR Notice.

Special Accommodations:

For information on access or services for individuals with disabilities, please contact Mary Rose (Molly) Bayer at (202) 564-1981 or bayer.maryrose@epa.gov. To request accommodation of a disability, please contact Mary Rose Bayer, preferably at least 10 days prior to the meeting, to give EPA as much time as possible to process your request.

Dated: November 2, 2007.

Cynthia C. Dougherty,

Director, Office of Ground Water and Drinking Water.

FEDERAL COMMUNICATIONS COMMISSION

Public Information Collection Requirement Submitted to OMB for Review and Approval, Comments Requested

October 30, 2007.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden, invites the general public and other Federal agencies to take this opportunity to comment on the following information collection, as required by the Paperwork Reduction Act of 1995, Public Law 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance

the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before December 10, 2007. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contacts listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicholas A. Fraser, Office of Management and Budget, via Internet at Nicholas_A._Fraser@omb.eop.gov or via fax at (202) 395-5167 and to Cathy Williams, Federal Communications Commission, Room 1-C823, 445 12th Street, SW., Washington, DC or via Internet at Cathy.Williams@fcc.gov or PRA@fcc.gov.

To view a copy of this information collection request (ICR) submitted to OMB: (1) Go to the Web page <http://www.reginfo.gov/public/do/PRAMain>, (2) look for the section of the Web page called "Currently Under Review," (3) click on the downward-pointing arrow in the "Select Agency" box below the "Currently Under Review" heading, (4) select "Federal Communications Commission" from the list of agencies presented in the "Select Agency" box, (5) click the "Submit" button to the right of the "Select Agency" box, (6) when the list of FCC ICRs currently under review appears, look for the title of this ICR (or its OMB control number, if there is one) and then click on the ICR Reference Number to view detailed information about this ICR."

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection(s), contact Cathy Williams at (202) 418-2918.

SUPPLEMENTARY INFORMATION: *OMB Control Number:* 3060-0466.

Title: Station Identification Sections 73.1201, 74.783 and 74.1283.

Form Number: Not applicable.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit entities; Not-for-profit institutions; State, Local and Tribal Government.

Number of Respondents: 4,200.

Estimated Time per Response: 10 minutes to 1 hour.

Frequency of Response: Recordkeeping requirement; Third party disclosure requirement; On occasion reporting requirement.

Total Annual Burden: 6,566 hours.

Total Annual Costs: None.

Nature of Response: Required to obtain or retain benefits.

Confidentiality: No need for confidentiality required.

Privacy Impact Assessment(s): No impact(s).

Needs and Uses: On May 31, 2007, the Commission released the Second Report and Order, Digital Audio Broadcasting (DAB) Systems and Their Impact on the Terrestrial Radio Broadcast Service ("Second Order"), FCC 07-33, MM Docket 99-325. Provisions of the Second Order require station identification requirements for Digital Audio Broadcasting (DAB) stations to facilitate public participation in the regulatory process. Both AM and FM stations with DAB operations will be required to make station identification announcements at the beginning and end of each time of operation, as well as hourly, for each programming stream.

47 CFR 73.1201(a) requires television broadcast licensees to make broadcast station identification announcements at the beginning and ending of each time of operation, and hourly, as close to the hour as feasible, at a natural break in program offerings. Television and Class A television broadcast stations may make these announcements visually or aurally.

47 CFR 73.1201(b)(1) requires that official station identification shall consist of the station's call letters immediately followed by the community or communities specified in its license as the station's location; Provided that the name of the licensee, the station's frequency, the station's channel number, as stated on the station's license, and/or the station's network affiliation may be inserted between the call letters and station location. DTV stations, or DAB Stations, choosing to include the station's channel number in the station identification must use the station's major channel number and may distinguish multicast program streams. For example, a DTV station with major channel number 26 may use 26.1 to identify an HDTV program service and 26.2 to identify an SDTV program service. A radio station operating in DAB hybrid mode or extended hybrid mode shall identify its digital signal, including any free multicast audio programming streams, in a manner that appropriately alerts its audience to the fact that it is listening to a digital audio broadcast. No other insertion between the station's call letters and the community or communities specified in its license is permissible.
