SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-55240; File No. SR-Amex-2007-07]

Self-Regulatory Organizations; American Stock Exchange LLC; Notice of Filing of Proposed Rule Change and Amendment No. 1 Thereto Amending Existing Rules for Portfolio Depository Receipts and Index Fund Shares

February 5, 2007.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”) ¹ and Rule 19b-4 ² thereunder, notice is hereby given that on January 11, 2007, the American Stock Exchange LLC (“Amex” or “Exchange”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been substantially prepared by the Exchange. On January 25, 2007, the Amex submitted Amendment No. 1 to the proposed rule change. The Commission is publishing this notice to solicit comments on the proposed rule change, as amended, from interested persons.

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend its existing rules for portfolio depository receipts (Rule 1000) and index fund shares (Rule 1000A) to eliminate the methodology standards for eligible indexes.

The text of the proposed rule change is available at the Amex, the Commission's Public Reference Room, and <http://www.amex.com>.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Amex included statements concerning the purpose of and basis for the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Amex has substantially prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of this proposed rule change is to amend Amex's existing generic listing standards pursuant to Rule 19b-4(e) under the Act³ for portfolio depository receipts ("PDRs") and index fund shares⁴ to eliminate the requirement that an eligible index be calculated following a specified methodology.

The Exchange currently has generic listing standards (within the meaning of Rule 19b-4(e) under the Act⁵), which permit the listing and trading of various qualifying ETFs subject to the procedures contained in Rule 19b-4(e). The existence of generic listing standards allows qualifying ETFs to list or trade without the need to file a rule change for each security under Rule 19b-4 under the Act.⁶ By amending its generic listing standards pursuant to Rule 19b-4(e), the Exchange intends to reduce the time frame for listing ETFs that rely on indexes that utilize methodologies not currently identified in the generic listing standards and

thereby reduce the burdens on issuers and other market participants.

The generic listing standards for ETFs presently provide that eligible indexes be calculated based on the market capitalization, modified market capitalization, price, equal-dollar, or modified equal-dollar weighting methodology.⁷ The proposed rule change will eliminate this standard and, as a result, the Exchange will no longer consider index methodology in its review of an ETF's eligibility for listing and trading pursuant to Rule 19b-4(e) under the Act.⁸

The Exchange states that as the market for ETFs has grown and the ETF product line matured, the Exchange has witnessed an increase in the number of methodologies used to calculate indexes. In order for an index that employs a novel methodology to satisfy the current generic listing standards, either a traditional methodology must be substituted for the intended methodology, or the Exchange must submit a proposed rule change to the Commission amending the generic listing standards to include the additional methodology. In this regard, the Exchange notes that, recently, both The NASDAQ Stock Market LLC and NYSE Arca, Inc. filed rule changes with the Commission in order to permit eligible indexes to be calculated based on a methodology weighting components based on their particular financial attributes.⁹

The Exchange believes that the proposed elimination of index methodology from its generic listing standards for ETFs would potentially reduce the time frame for bringing ETFs based on indexes with nontraditional weighting techniques to the market, thereby reducing the burdens on issuers and other market participants and promoting competition. The Exchange notes that indexes underlying ETFs would continue to be subject to the other requirements of the generic listing standards pursuant to Rule 19b-4(e) under the Act.¹⁰ For example, the generic listing standards for domestic indexes require, without limitation, that the most heavily weighted component

stock of an index not exceed 30% of the weight of the index, and the five most heavily weighted component stocks of an index not exceed 65% of the weight of the index,¹¹ and that an index include a minimum of 13 component stocks.¹² Similarly, the generic listing standards for international or global indexes require, without limitation, that the most heavily weighted component stock of an index not exceed 25% of the weight of the index, and the five most heavily weighted component stocks of an index not exceed 60% of the weight of the index,¹³ and that an index include a minimum of 20 component stocks.¹⁴ The Exchange believes that such requirements will ensure that underlying indexes are sufficiently diversified, and that their components are sufficiently liquid to serve as the basis for an ETF.

2. Statutory Basis

The Amex believes that the proposed rule change is consistent with the requirements of Section 6(b) of the Act¹⁵ in general, and furthers the objectives of Section 6(b)(5),¹⁶ of the Act in particular, in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. The Exchange believes that the proposed rule change will facilitate the listing and trading of ETFs, thereby reducing the burdens on issuers and other market participants.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange believes that the proposed rule change would not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments to the Proposed Rule Change Received From Members, Participants or Others

The Exchange states that no written comments were solicited or received with respect to the proposed rule change.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-55233; File No. SR-BSE-2006-56]

Self-Regulatory Organizations; Boston Stock Exchange, Inc.; Notice of Filing of Proposed Rule Change and Amendment No. 1 Thereto To Add to the Boston Options Exchange a New Functionality Called an Automatic Auction Order

February 2, 2007.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on December 15, 2006, the Boston Stock Exchange, Inc. ("BSE" or "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which Items have been substantially prepared by the BSE. On February 1, 2007, BSE filed Amendment No. 1 to the proposed rule change.³ The Commission is publishing this notice to solicit comments on the proposed rule change, as amended, from interested persons.

¹⁷ 17 CFR 200.30-3(a)(12).

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

³ In Amendment No. 1, BSE granted the Commission an extension of the time period specified in Section 19(b)(2) of the Act for Commission action.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend the Boston Options Exchange ("BOX") Rules to add a new functionality referred to as an Automatic Auction Order ("AAO") in order to make it easier for non-professional customers to participate in a price improvement auction ("Improvement Auction"). The text of the proposed rule change is available at BSE, the Commission's Public Reference Room, and http://www.bostonstock.com/legal/pending_rule_filings.html.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the BSE included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The BSE has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

BSE seeks to amend the BOX Rules⁴ to add a new order functionality called an AAO in order to make it easier for all Customers, including non-professional customers, to participate in Improvement Auctions (e.g., the PIP). BOX believes that the AAOs will increase the number of Improvement Orders that are submitted to an Improvement Auction, thereby creating increased competition and overall liquidity while also improving execution prices for trades that are executed on BOX.

This AAO functionality automates a process that is currently available to the non-professional customer via the Customer PIP Order ("CPO"). Currently, however, it is difficult for non-professional customers to participate in Improvement Auctions because of the limited offering of the CPO by Order Flow Providers ("OFPs"). Only a few OFPs have made CPOs available to non-professional customers due, in large part, to the constraints that are generally

⁴ Capitalized terms not otherwise defined herein shall have the meanings prescribed under the BOX Rules.
