### Final Rules

■ For the reasons discussed in the preamble, the Federal Communications Commission amends 47 CFR chapter I by adding part 12 to read as follows:

## PART 12—REDUNDANCY OF COMMUNICATIONS SYSTEMS

Sec.

12.1 Purpose.

12.2 Backup power.

12.3 911 and E911 analyses and reports.

**Authority:** Sections 1, 4(i), 4(j), 4(o), 5(c), 218, 219, 301, 303(g), 303(j), 303(r), 332, 403, 621(b)(3), and 621(d) of the Communications Act of 1934, as amended, 47 U.S.C. 151, 154(i), 154(j), 154(o), 155(c), 218, 219, 301, 303(g), 303(j), 303(r), 332, 403, 621(b)(3), and 621(d), unless otherwise noted.

### § 12.1 Purpose.

The rules in this part include requirements that will help ensure the resiliency, redundancy and reliability of communications systems, particularly 911 and E911 networks and/or systems.

### § 12.2 Backup power.

Local exchange carriers (LECs), including incumbent LECs (ILECs) and competitive LECs (CLECs), and commercial mobile radio service (CMRS) providers must have an emergency backup power source for all assets that are normally powered from local AC commercial power, including those inside central offices, cell sites, remote switches and digital loop carrier system remote terminals. LECs and CMRS providers should maintain emergency back-up power for a minimum of 24 hours for assets inside central offices and eight hours for cell sites, remote switches and digital loop carrier system remote terminals that are normally powered from local AC commercial power. LECs that meet the definition of a Class B company as set forth in § 32.11(b)(2) of the Commission's rules and non-nationwide CMRS providers with no more than 500,000 subscribers are exempt from this rule.

### § 12.3 911 and E911 analyses and reports.

The following entities must analyze their 911 and E911 networks and/or systems and provide a detailed report to the Commission on the redundancy, resiliency, and reliability of those networks and/or systems: Local exchange carriers (LECs), including incumbent LECs (ILECs) and competitive LECs (CLECs); commercial mobile radio service providers required

to comply with the wireless 911 rules set forth in § 20.18 of this chapter; and interconnected Voice over Internet Protocol (VoIP) service providers. LECs that meet the definition of a Class B company set forth in § 32.11(b)(2) of this chapter, non-nationwide commercial mobile radio service providers with no more than 500,000 subscribers at the end of 2001, and interconnected VoIP service providers with annual revenues below the revenue threshold established pursuant to § 32.11 of this chapter are exempt from this rule.

(a) The Public Safety and Homeland Security Bureau (PSHSB) has the delegated authority to implement and activate a process through which these reports will be submitted, including the authority to establish the specific data that will be required. Where relevant, these reports should include descriptions of the steps the service providers intend to take to ensure diversity and dependability in their 911 and E911 networks and/or systems, including any plans they have to migrate those networks and/or systems to a next generation Internet Protocol-based E911 platform.

(b) These reports are due 120 days from the date that the Commission or its staff announces activation of the 911 network and system reporting process.

(c) Reports filed under this Part will be presumed to be confidential. These reports will be shared with The National Emergency Number Association, The Association of Public Safety Communications Officials, and The National Association of State 9-1-1 Administrators only pursuant to a protective order. PSHSB has the delegated authority to issue such protective orders. All other access to these reports must be sought pursuant to procedures set forth in 47 CFR 0.461. Notice of any requests for inspection of these reports will be provided to the filers of the reports pursuant to 47 CFR 0.461(d)(3).

**Radio Broadcasting Services; Converse, Flatonia, Georgetown, Goldthwaite, Ingram, Junction, Lago Vista, Lakeway, Llano, McQueeney, Nolanville, San Antonio, Waco, TX**

**AGENCY:** Federal Communications Commission.

**ACTION:** Final rule.

**SUMMARY:** The respective Counterproposals in these two proceedings set forth mutually exclusive proposals at Llano, Texas. Therefore, it was necessary to consolidate MB Docket No. 05-112 and MB Docket No. 05-151. In response to the Counterproposal filed by Munbilla Broadcasting Properties, Ltd., this document allots Channel 297A to Goldthwaite, Texas, as a first local service. The reference coordinates for the Channel 297A allotment at Goldthwaite, Texas, are 31-30-00 and 98-42-23. With this action, both MB Docket No. 05-112 and MB Docket No. 05-151 are terminated.

**DATES:** Effective July 30, 2007.

### Radio Broadcasting Services; Cottonwood, Redding, and Shasta Lake, CA

**AGENCY:** Federal Communications Commission.

**ACTION:** Final rule.

**SUMMARY:** The staff grants a counterproposal filed by Michael Birdsill to allot Channel 221A to Cottonwood, California, as a first local aural service, and a counterproposal filed by Educational Media Foundation to allot Channel 224A to Shasta Lake, California, as a third local service. It denies rulemaking petitions filed by Linda Davidson and Paul Barth to allot Channel 221A to Redding, California, as a tenth local service, and a counterproposal filed by Wild Thing Broadcasters to allot Channel 221C3 at Cottonwood. With this action, the proceeding is terminated. *See*

**ADDRESSES:** Federal Communications Commission, 445 12th Street, SW., Washington, DC 20554.

**FOR FURTHER INFORMATION CONTACT:** Andrew J. Rhodes, Media Bureau, (202) 418-2180.

**SUPPLEMENTARY INFORMATION:** This is a synopsis of the Commission's Report and Order, MB Docket No. 05-131, adopted June 13, 2007, and released June 15, 2007. The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Reference Information Center (Room CY-A257),

445 12th Street, SW., Washington, DC 20554. The complete text of this decision may also be purchased from the Commission's copy contractor, Best Copy and Printing, Inc., Portals II, 445 12th Street, SW., Room CY-B402, Washington, DC 20554, telephone 1-800-378-3160 or <http://www.BCPIWEB.com>.

Under the Commission's FM Allotment Priorities, a first local service at Cottonwood is preferred over a tenth aural service at Redding or a third local service at Shasta Lake because it triggers higher allotment Priority (3). The staff then considers whether to allot Channel 221A or higher class Channel 221C3 at Cottonwood. The staff decides that the public interest would be better served by allotting lower class Channel 221A at Cottonwood because this allotment will make possible the allotment of Channel 224A at Shasta Lake. *See* 70 F.R. 19399 (April 13, 2005).

The reference coordinates for Channel 221A at Cottonwood, CA, are 40-23-45 NL and 122-17-22 WL and for Channel 224A at Shasta Lake, CA, are 40-38-51 and 122-27-19. *See* 70 F.R. 17384, April 6, 2005.

Finally, the staff makes an editorial correction to 47 C.F.R. Section 73.202(b) to change the name of Shasta Lake City to Shasta Lake to reflect the correct name of the community.

The Commission will send a copy of the Report and Order in this proceeding in a report to be sent to Congress and the Government Accountability Office pursuant to the Congressional Review Act, *see* 5 U.S.C. 801(a)(1)(A).
