BILLING CODE 4510-FN-P

DEPARTMENT OF LABOR

Bureau of Labor Statistics

Proposed Collection, Comment Request

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. The Bureau of Labor Statistics (BLS) is soliciting comments concerning the proposed revision of the "Survey of Occupational Injuries and Illnesses." A copy of the proposed information collection request (ICR) can be obtained by contacting the individual listed below in the **ADDRESSES** section of this notice.

DATES: Written comments must be submitted to the office listed in the **ADDRESSES** section of this notice on or before May 18, 2007.

ADDRESSES: Send comments to Amy A. Hobby, BLS Clearance Officer, Division of Management Systems, Bureau of Labor Statistics, Room 4080, 2 Massachusetts Avenue, NE., Washington, DC 20212, 202-691-7628. (This is not a toll free number.)

FOR FURTHER INFORMATION CONTACT: Amy A. Hobby, BLS Clearance Officer, 202-691-7628. (See **ADDRESSES** section.)

SUPPLEMENTARY INFORMATION:

I. Background

Section 24(a) of the Occupational Safety and Health Act of 1970 requires the Secretary of Labor to develop and maintain an effective program of collection, compilation, and analysis of statistics on occupational injuries and illnesses. The Commissioner of Labor

Statistics has been delegated the responsibility for "Furthering the purpose of the Occupational Safety and Health Act by developing and maintaining an effective program of collection, compilation, analysis and publication of occupational safety and health statistics." The BLS fulfills this responsibility, in part, by conducting the Survey of Occupational Injuries and Illnesses in conjunction with participating State statistical agencies. The BLS Survey of Occupational Injuries and Illnesses provides the Nation's primary indicator of the progress towards achieving the goal of safer and healthier workplaces. The survey produces the overall rate of occurrence of work injuries and illnesses by industry which can be compared to prior years to produce measures of the rate of change. These data are used to assess the Nation's progress in improving the safety and health of America's work places; to prioritize scarce Federal and State resources; to guide the development of injury and illness prevention strategies; and to support Occupational Safety and Health Administration (OSHA) and State safety and health standards and research. Data are essential for evaluating the effectiveness of Federal and State programs for improving work place safety and health. For these reasons, it is necessary to provide estimates separately for participating States.

II. Current Action

Office of Management and Budget clearance is being sought for the Survey of Occupational Injuries and Illnesses. The survey measures the overall rate of occurrence of work injuries and illnesses by industry. For the more serious injuries and illnesses, those with days away from work, the survey provides detailed information on the injured/ill worker (age, sex, race, industry, occupation, and length of service), the time in shift, and the circumstances of the injuries and illnesses classified by standardized codes (nature of the injury/illness, part of body affected, primary and secondary sources of the injury/illness, and the event or exposure which produced the injury/illness).

Beginning with survey year 2008, the BLS will collect data from State and Local government agencies in all States to support both State and national estimates. Until now, the Survey of Occupational Injuries and Illnesses has been restricted to producing national estimates for the private sector only. Consequently, there have been no national estimates of workplace injuries

and illnesses sustained by State and local government workers, including those in such relatively high hazard and high profile occupations as police, firefighters, paramedics, and other public health workers. The BLS regards the collection of these data as a significant expansion in its overall coverage of the American workplace. The BLS will send a letter explaining that the survey is voluntary for State and local government agencies in States that do not require this collection of data. The number of extra sample units needed for State and local government data is approximately 7,000.

Beginning with the 2008 survey year, the BLS will test collection of injury and illness cases that require only days of job transfer or restriction. In the two decades prior to the OSHA recordkeeping changes in 2002, incidence rates for cases with days away from work decreased significantly, while incidence rates for cases with only restricted work activity increased significantly. Since the BLS presently collects case and demographic data only for cases with days away from work, data are not obtained about a growing class of injury and illness cases. If the test(s) prove successful, the BLS will explore implementing this practice for additional States beginning with survey year 2009. The BLS regards the collection of these cases with only job transfer or restriction as significant in its coverage of the American workforce.

III. Desired Focus of Comments

The Bureau of Labor Statistics is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.

- Enhance the quality, utility, and clarity of the information to be collected.

- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

Type of Review: Revision of currently approved collection.

Agency: Bureau of Labor Statistics.

Title: Survey of Occupational Injuries and Illnesses.
OMB Number: 1220-0045.

Affected Public: Businesses or other for-profit; Not-for-profit institutions; Farms; State, local or tribal government.

Form	Total respondents	Frequency	Total responses	Average time per response (hours)	Estimated total burden (hours)
BLS 9300	230,000	Annually	230,0004	91,666
Pre-notification Package ...	175,000 out of 230,000 ...	Annually	175,000 out of 230,000 ...	1.35	235,833
Totals	230,000	230,000	327,499

Total Burden Cost (capital/startup): \$0.

Total Burden Cost (operating/maintenance): \$0.

Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they also will become a matter of public record.

Signed at Washington, DC, this 14th day of March 2007.

Cathy Kazanowski,

*Chief, Division of Management Systems,
Bureau of Labor Statistics.*

NATIONAL SCIENCE FOUNDATION

Advisory Committee for Environmental Research and Education; Notice of Meeting

In accordance with the Federal Advisory Committee Act (Pub. Law 92-463, as amended), the National Science Foundation announces the following meeting:

Name: Advisory Committee for Environmental Research and Education (9487).

Dates: April 11, 2007, 9 a.m.-5 p.m.

Place: Stafford I, Room 1235, National Science Foundation, 4201 Wilson Blvd., Arlington, Virginia 22230.

Type of Meeting: Open.

Contact Person: Alan Tessier, National Science Foundation, Suite 635, 4201 Wilson Blvd, Arlington, Virginia 22230, Phone 703-292-7198.

Minutes: May be obtained from the contact person listed above.

Purpose of Meeting: To provide advice, recommendations, and oversight concerning support for environmental research and education.

Agenda:

Introduction of New Members.

Update on recent NSF environmental activities.

Reports from AC members on ERE activities in NSF Directorates.

Discussion of Future AC/ERE activities.

Establishment of AC/ERE Task Groups.

Meeting with the Director (or Representative).

Dated: March 13, 2007.

Susanne Bolton,

Committee Management Officer.

BILLING CODE 7555-01-P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-369 and 50-370]

Duke Power Company LLC, et al.; Notice of Consideration of Issuance of Amendments to Facility Operating Licenses, Proposed No Significant Hazards Consideration Determination, and Opportunity for a Hearing

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Facility Operating License Nos. NPF-9 and NPF-11 issued to Duke Power Company LLC, et al., for operation of the McGuire Nuclear Station, Units 1 and 2, located in Mecklenburg County, North Carolina.

The proposed amendments would approve changes to the current licensing bases for the McGuire Nuclear Station, Units 1 and 2, emergency core cooling system containment sump strainers.

Before issuance of the proposed license amendment, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations.

The Commission has made a proposed determination that the amendment request involves no significant hazards consideration. Under the Commission's regulations in Title 10 of the Code of Federal Regulations (10 CFR), Part 50, Section 50.92, this means that operation of the facility in accordance with the proposed amendment would not (1) involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a margin of safety. As required by 10 CFR 50.91(a), the licensee has provided its analysis of the issue of no significant hazards consideration, which is presented below:

1. Does the proposed amendment involve a significant increase in the probability or

NATIONAL SCIENCE FOUNDATION

Advisory Committee for Biological Sciences; Notice of Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92-463, as amended), the National Science Foundation announces the following meeting:

Name: Advisory Committee for Biological Sciences (1110).

Date and Time: April 19, 2007; 8 a.m.-5 p.m.

Place: National Science Foundation, 4201 Wilson Blvd., Arlington, VA 22230, Room 1235.

Type of Meeting: Open.

Contact Person: Dr. Joann Roskoski, Executive Officer, Biological Sciences, Room 605, National Science Foundation, 4201 Wilson Boulevard, Arlington, VA 22230, Tel No.: (703) 292-8400.

Minutes: May be obtained from the contact person listed above.

Purpose of Meeting: The Advisory Committee for BIO provides advice, recommendations, and oversight concerning major program emphases, directions, and goals for the research-related activities of the divisions that make up BIO.

Agenda:

- Budget Update and Implications.
- Systems Biology and Leading Edge Discussions.
- Undergraduate Education in the Biological Sciences.
- Open Discussion.
