

Community Wildfire PROTECTION PLAN

Central Utah area encompassing Juab, Millard, Piute, Sanpete, Sevier and Wayne Counties

We need your advice . . .

- ▶ Where do you see the greatest wildfire danger in your community?
- ▶ What can be done to reduce the threat of wildfire in your community?
- ▶ What places, structures or natural areas do you think should be protected from the threat of wildland fire?

Central Utah Area Community Wildfire Protection Plan public meeting attendees will review the draft risk assessment and help identify those places that are of special value to you. **These plans can result in funding for your community.**
