

charter, general responsibilities, and structure of the EMTALA TAG. That notice also solicited nominations for members based on the statutory requirements for the EMTALA TAG. Section 945(b) of the MMA specifies the composition of the TAG. (For more information regarding the TAG composition see the May 28, 2004 (69 FR 30654) **Federal Register**). The EMTALA TAG held three meetings during calendar year 2005. (See the March 15, 2005 (70 FR 12691), May 18, 2005 (70 FR 28541), and September 23, 2005 (70 FR 55903) **Federal Register**).

## II. Selection of New EMTALA TAG Member

In the March 15, 2005 **Federal Register** (70 FR 12691), we announced the EMTALA TAG membership. One of those original members, a physician representative in the field of psychiatry, is unable to complete her term of service. In selecting a replacement, the TAG must maintain the member composition described in section 945(b) of the MMA. We note that section 945(b)(2) of the MMA specifies the physician members of the TAG as follows: "7 shall be practicing physicians drawn from the fields of emergency medicine, cardiology or cardiothoracic surgery, orthopedic surgery, neurosurgery, pediatrics or a pediatric subspecialty, obstetrics-gynecology, and psychiatry, with no more than one physician from any particular field." For this reason and to ensure that the concerns of practicing physicians are appropriately considered during TAG deliberations, another practicing physician in the field of psychiatry has been selected to serve as a member of the TAG. The new member is Sul Ross Thorward, M.D. of Twin Valley Behavioral Healthcare in Columbus, Ohio. Dr. Thorward was selected from the original list of nominees for the EMTALA TAG.

**Authority:** Section 945 of the Medicare Prescription Drug, Improvement, and Modernization Act of 2003 (MMA).

#### SUPPLEMENTARY INFORMATION:

##### I. Background

###### A. Nominations

On December 14, 1998, we published a notice in the **Federal Register** (63 FR 68780) announcing the establishment of the Medicare Coverage Advisory Committee (MCAC). The Secretary signed the initial charter for the MCAC on November 24, 1998. The charter was renewed and will terminate on November 24, 2006, unless renewed again by the Secretary.

The MCAC is governed by provisions of the Federal Advisory Committee Act (Pub. L. 92–463), as amended (5 U.S.C. App. 2), which sets forth standards for the formulation and use of advisory committees, and is authorized by section 222 of the Public Health Service Act, as amended (42 U.S.C. 217A).

The MCAC consists of a pool of 100 appointed members. Members are selected from among authorities in clinical medicine of all specialties, administrative medicine, public health, biologic and physical sciences, health care data and information management and analysis, patient advocacy, the economics of health care, medical ethics, and other related professions such as epidemiology and biostatistics, and methodology of trial design. A maximum of 88 members are standard

voting members, and 12 are nonvoting members (6 of which are representatives of consumer interests, and 6 of which are representatives of industry interests).

The MCAC functions on a committee basis. The committee reviews and evaluates medical literature, reviews technology assessments, and examines data and information on the effectiveness and appropriateness of medical items and services that are covered or eligible for coverage under Medicare. The Committee works from an agenda provided by the Designated Federal Official that lists specific issues, and develops technical advice to assist us in determining reasonable and necessary applications of medical services and technology when we make national coverage decisions for Medicare.

#### B. Meeting

On December 14, 1998, we published a notice in the **Federal Register** (63 FR 68780) to describe the Medicare Coverage Advisory Committee (MCAC), which provides advice and recommendations to us about clinical issues. This notice announces a public meeting of the Committee.

The Committee will discuss evidence and hear presentations and public comments regarding the use of non-invasive imaging technologies versus cardiac catheterization in the diagnosis of coronary artery disease.

Background information about this topic, including panel materials, is available on the Internet at <http://www.cms.hhs.gov/coverage/>.

## II. Provisions

### A. Nominations

As of December 2006, there will be 50 terms of membership expiring, 3 of which are non-voting consumer representatives, and 4 of which are non-voting industry representatives. Accordingly, we are requesting nominations for both voting and non-voting members to serve on the MCAC. Nominees are selected based upon their individual qualifications, and not as representatives of professional associations or societies.

We have a special interest in ensuring that women, minority groups, and physically challenged individuals are adequately represented on the MCAC. Therefore, we encourage nominations of qualified candidates from these groups.

All nominations must be accompanied by *curricula vitae*. Nomination packages must be sent to the Executive Secretary (see **FOR FURTHER INFORMATION CONTACT**).

Nominees for voting membership must have expertise and experience in one or more of the following fields: Clinical medicine of all specialties, administrative medicine, public health, patient advocacy, biologic and physical sciences, health care data and information management and analysis, the economics of health care, medical ethics, and other related professions such as epidemiology and biostatistics, and methodology of trial design.

We are also seeking nominations for seven non-voting representatives, three of which are consumer representatives and four of which are industry representatives. Nominees for this position must possess appropriate qualifications to understand and contribute to the MCAC's work.

The nomination letter must include a statement that the nominee is willing to serve as a member of the MCAC and appears to have no conflict of interest that would preclude membership. We are requesting that all *curricula vitae* include the following: Date of birth, place of birth, social security number, title and current position, professional affiliation, home and business address, telephone and fax numbers, e-mail address, and list of areas of expertise. In the nominations letter, we are requesting that the nominee specify whether applying for a voting position, a consumer representative position, or an industry representative position. Potential candidates will be asked to provide detailed information concerning matters such as financial holdings, consultancies, and research grants or contracts in order to permit evaluation of possible sources of conflict of interest.

Members are invited to serve for overlapping 2-year terms. A member can serve after the expiration of the member's term until a successor takes office. Any interested person can nominate one or more qualified persons. Self-nominations are also accepted.

### B. Meeting

This meeting is open to the public. The Committee will hear oral presentations from the public for approximately 45 minutes. The Committee can limit the number and duration of oral presentations to the time available. If you wish to make formal presentations, you must notify the Executive Secretary named in the **FOR FURTHER INFORMATION CONTACT** section and submit the following by the *Deadline for Written Comments and Presentations* date listed in the *Meeting* section of this notice: A brief statement of the general nature of the evidence or arguments you wish to present, the

names and addresses of proposed participants, and a written copy of your presentation. Your presentation should consider the questions we have posed to the Committee and focus on the issues specific to the topic. The questions will be available on our Web site at [http://www.cms.hhs.gov/FACA/02\\_MCAC.asp#TopOfPagemeetings](http://www.cms.hhs.gov/FACA/02_MCAC.asp#TopOfPagemeetings). We require that you declare at the meeting whether or not you have any financial involvement with manufacturers of any items or services being discussed (or with their competitors).

After the public and CMS presentations, the Committee will deliberate openly on the topic. Interested persons can observe the deliberations, but the Committee will not hear further comments during this time, except at the request of the chairperson. The Committee will also allow a 15 minute unscheduled open public session for any attendee to address issues specific to the topic. At the conclusion of the day, the members will vote and the Committee will make its recommendation.

We cannot assume responsibility for coordinating the receipt, transfer, transport, storage, set-up, safety, or timely arrival of any personal belongings or items used for demonstration or to support a demonstration.

Parking permits and instructions will be issued upon arrival.

#### **SUPPLEMENTARY INFORMATION:**

##### **I. Program Issuances**

The Centers for Medicare & Medicaid Services (CMS) is responsible for administering the Medicare and Medicaid programs. These programs pay for health care and related services for 39 million Medicare beneficiaries and 35 million Medicaid recipients. Administration of the two programs involves (1) furnishing information to Medicare beneficiaries and Medicaid recipients, health care providers, and the public and (2) maintaining effective communications with regional offices, State governments, State Medicaid agencies, State survey agencies, various providers of health care, all Medicare contractors that process claims and pay bills, and others. To implement the various statutes on which the programs are based, we issue regulations under the authority granted to the Secretary of the Department of Health and Human Services under sections 1102, 1871, 1902, and related provisions of the Social Security Act (the Act). We also issue various manuals, memoranda, and statements necessary to administer the programs efficiently.

Section 1871(c)(1) of the Act requires that we publish a list of all Medicare manual instructions, interpretive rules, statements of policy, and guidelines of general applicability not issued as regulations at least every 3 months in the **Federal Register**. We published our first notice June 9, 1988 (53 FR 21730). Although we are not mandated to do so by statute, for the sake of completeness of the listing of operational and policy statements, and to foster more open and transparent collaboration, we are continuing our practice of including Medicare substantive and interpretive
